REPORTS OF COMMITTEES.

JUDICIARY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom was referred the petition of Charles Dezor, asking to have refunded to him the sum of \$10, being the amount of a fine imposed on him for a violation of a city ordinance, beg leave respectfully to report:

That this Council, though in this case sincerely sympathizing with Mr. Dezor in his misfortune, cannot undertake to review and reverse the actions of the Recorder's Court, but must take it for granted they are correct.

That a refunding to Mr. Dezor of the amount of his fine on account of his poverty would be an act of charity which however richly deserved, would not be within the province of your honorable body, and we are compelled to report adverse to granting the prayer of the petitioner.

Respectfully submitted.

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary to

whom was referred the petition of Mark Flanigan, asking that the title of lot 5 of the subdivision of Park lot 5 of the Brush farm south of High street, sold for taxes for the years 1870, 1871, 1872, 1873 and 1874 be reconveyed to him on such reasonable terms as may be agreed upon, respectfully report that the said sales were properly made and the title acquired by the city was completed by the expiration of the year allowed for redemption, leaving the future disposition of the property to the judgment of this Council, and that all the interests of the city will be protected by granting the prayer of the petitioner.

We, therefore, present the accompanying resolution and ask its adoption.

Respectfully submitted.

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL.

Resolved, That the City Treasurer be and is hereby instructed to release to Mark Flanigan all the title of the city in and to lot 5 of the subdivision of Park lot 5 of the Brush farm south of High street on his paying into the treasury the sum of \$1560 55.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Hough, Jackson, Kurtz, Mitchell, Owen, Ronland, Schmitt, Shanahan, Wilks and the President pro tem.—20.

Nays—None.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the claim of T. Adolphus Rowley, for engrossing the resolutions of thanks to the Hon. Moses W. Field for his munificent gift of Linden Park to the city, have examined the same and submit the following report:

The original bill for the work, \$450, was refused by the Controller. This bill, amounting to \$375, was then presented and sent to this body without approval. Your committee find that the instructions to Mr. Rowley by the City Clerk were virtually unlimited. He was told to furnish a piece of work worthy of the city. Ex-Mayor Moffat's words in regard to the gift were also repeated to him. Your committee have obtained the opinions of those whom they deemed competent to judge of such style of work, and they find that the estimate vary from \$150 to \$500. After carefully considering the subject they believe that the sum of \$350, named by a gentleman competent to pass upon the merits of the work, will amply pay Mr. Rowley for his time and fully compensate him. But section 12, chapter 8 of the charter provides that no work shall be done for the city exceeding \$200 without competition. No bids were received for the work, and the committee are compelled to report, against their own wishes, the annexed resolution:

Respectfully submitted.

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Resolved, That the Controller be and be is hereby directed to draw his warrant on the contingent fund for \$350 in favor of T. Adolphus Rowley in payment of his claim for the Linden Park Resolutions.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Hough, Jackson, Kurtz, Mitchell, Owen, Ronland, Schmitt, Shanahan, Wilks, and the President pro tem.—20.

Nays—None.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of "The Western Union Telegraph Company," asking for permission to erect two telegraph poles on Atwater street, between Brush and Beaubien streets, would respectfully report that they have had the matter under consideration, and believing no injury

would be caused thereby, would recommend that the desired permission be granted.

Respectfully submitted,
GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets to whom was referred the petition of Matthias Thelom, praying that he may be permitted to let his wagon stand in the street in front of his lot, would respectfully report that they have examined into the matter and find it is contrary to the ordinance and would therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,
GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.
The President resumed the chair.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of Bradford Smith, for permission to build a two-story addition to his premises, No. 860 Michigan avenue, report that we have examined the same and find that the addition will enlarge the premises nearly one-half and will necessarily increase the fire risk, and for this reason we are compelled to report adversely to the petition.

Very respectfully,
JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits report as follows upon petitions referred to them: Messrs. H. & P. Mellus ask to be allowed to build an addition to a shed on Fort street east, for the purpose of placing moulding apparatus therein. The fire risk will be increased thereby and we report adversely thereto. Adam Arzdorf wishes to raise and repair his dwelling on Howard, between Fifth and Sixth streets. An investigation of the premises convinces us that the risk by fire will be increased as he contemplates the addition of a large quantity of woodwork, and we report adversely thereto. Thomas Bryant wishes to be allowed to locate a photographic car corner of Michigan avenue and Griswold street. They were unable to find the said party, no address being furnished, and they submit the matter without recommendation.

Very respectfully,
JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

MARKETS AND COUNSELOR

To the Honorable the Common Council:

GENTLEMEN—The undersigned the Committee on Markets and the City Counselor to whom was referred the petition of Oliver C. Goodsell and others, occupants of stalls in the part of the Central Market lately destroyed by fire, report that they have duly considered the matter and find that the Council upon the particular request of many of our most influential citizens, permitted the erection of a temporary wooden building near the Market to exhibit therein a painting for the assistance of the "Dayton Military Home;" that the city would not receive any benefit therefrom and it was only with a desire to assist disabled soldiers that the Council granted the permission; that the same evening the building was finished it was burned with the part of the Market occupied by the petitioners by being set on fire outside of, and not within the building and many persons suffered damages therefrom, yet we do not believe the city is liable to any one for the result, and

without a liability the Council cannot grant any relief to the petitioners.

Respectfully submitted,
DANIEL SHANAHAN,
GEO. W. HERRICK,
GEORGE DORR,
U. C. HOLBROOK,
City Counselor.

Accepted and adopted.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petitions of Thomas Fitzpatrick and Hannah Blofield, praying for permission to occupy outside stands on the City Hall market, would respectfully report that they have given the matter careful consideration and believe it would be unwise to make any exception to the general rule, inasmuch as it would be impossible to accommodate all who are likely to apply, and besides being prejudicial to the rights of the public to the use of the streets. We would therefore recommend that the prayers of the petitioners be denied.

Respectfully submitted,
DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Printing and Health, to whom was referred the communication of the Secretary of the Board of Health submitting a set of rules for the government and care of infants, suggested by the President of the board and recommended by said board to be printed at the public expense, would report that we have had the said rules under consideration and have calculated the cost of printing and distributing the same, and we are of the opinion that the benefits to be derived are not commensurate with the cost, and we therefore report adversely to the scheme.

JOHN D. FINNEGAN,
M. P. CHRISTIAN,
SEYMOUR FINNEY,
GEORGE WILKS,
JOHN SCHMITT,
WM. A. OWEN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works having executed contracts with Eugene Robinson for grading, paving, etc., the alley between Michigan avenue and State street, from the west curb line of Park Place to the east curb line of Cass street; and the alley between Gilman and High streets from the east curb line of Second street to the alley west of Cass street, and the alley west of Cass avenue from the north curb line of Gilman street to the south curb line of High street, block 76 Cass farm with cobble stone pavement, hereby transmit the same for approval and confirmation.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and, by consent, Ald. Dorr offered the following:

Resolved, That the contracts executed by the Board of Public Works with Eugene Robinson for grading, paving, etc., the alley between Michigan avenue and State street, from the west curb line of Park Place to the east curb line of Cass street, and the alley between Gilman street and High street from the east curb line of Second street to the alley west of Cass street, and the alley west of Cass avenue from the north curb line of Gilman street to the south curb line of High street, block 76 Cass farm, be and the same are hereby approved and confirmed.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Mitchell, Owen, Ronland, Schmitt, Shanahan, Wilks and the President—30.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Geo. B. Gilbert and others for changing the pavement on Williams street from cedar block and cobble stone to oil cedar block pavement respectfully report: This street having been ordered paved with cedar block and same pavement, and a contract, executed therefor, in the opinion of the Board no change can be legally made. By obtaining the assent of the contractors to this change makes no difference whatever for on the completion of the work they are paid in bonds for three-fourths thereof. To render these bonds available the basis on which they are issued must be strictly in conformity with the charter. The board therefore deem it inadvisable to make any change in the material to be used in paving said street.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of C. Ketberger and others for paving Hastings street from Congress street to Grant avenue, with cedar block

pavement in the center and with Sandusky stone pavement on each side, report:

The contract for paving the above street has already been awarded to Mr. Eugene Robinson, and should the proposed change be made it would necessarily change the contractors for doing the work, Mr. James McGoetzal being the lowest bidder for paving the same with Sandusky stone. The difference in the cost of the two kinds of pavement is \$498 26 in favor of the cobble, and should the street hereafter be repaved the same stone may be used, but if paved with Sandusky stone, in case of repaving, new stone would have to be substituted therefor. The Board therefore recommend that the prayer of the petitioners be denied.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of A. E. Hamlin and others to be relieved from paying interest on the assessment for paving Eighteenth-and-a-half street from the time of the confirmation of the contract to the time that the paving thereof was accepted by the board, report:

On the 19th of October, 1875, the contract for paving said street was confirmed, and on the 9th day of November the assessment roll was confirmed by your honorable body, and the same placed in the hands of the Receiver of Taxes for collection; and on the 11th day of January, 1876, a resolution was adopted directing the Receiver of Taxes to hold the assessment roll until the paving was accepted by the Board of Public Works.

The Board of Public Works accepted the paving of this street on the 5th day of May, 1876, from which time the petitioners are willing to pay all charges, and asked to be relieved from the interest accruing on parts 2, 3 and 4, from November 9th to this date.

Inasmuch as there is no time established by the Charter when interest is to be added to paying assessments the board can see no good reason why the petitioners should pay the same as charged, and therefore recommend that the Receiver of Taxes be directed not to charge interest on parts 2, 3 and 4 of said assessment rolls prior to the date of the acceptance of the paving by the Board of Public Works.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Mitchell, Owen, Ronland, Schmitt, Shanahan, Wilks and the President—30.
Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

JUDICIARY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom was referred the communication of Rosa Shnetz, respectfully report that we have given the matter our careful and earnest attention, and finding some difficulty in arriving at the exact shade of meaning in some parts of the document, we ask that it be referred to the senior Alderman of the Seventh Ward, with instructions to furnish this Council an accurate translation of the same. Respectfully submitted.

GEORGE DUNLAP,
JOHN D. FINNIGAN,
JAMES I. MITCHELL.

Accepted, and recommendations concurred in.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 30th of June, 1876, respectfully report that they have examined the same, and believing them to be correct would recommend that they be paid from the proper funds.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Chas. Niedermeuller, praying for permission to leave a barber pole on the outside of the sidewalk on the corner of Harvard and Clinton streets, would respectfully report that they have had the subject under consideration, and inasmuch as granting such permission would be contrary to the ordinance, we would recommend that the prayer of the petitioner be denied.

GEORGE DORR,

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of C. C. Trowbridge, receiver of the Detroit and Milwaukee Railroad Company, asking that permission be granted to said company to lay a third track across Atwater street to accommodate the business of said company, would respectfully report that after careful consideration of the matter your committee can see no good reason why the desired permit should not be granted. However, in view of the large and increasing traffic done in Atwater street, and the increased danger to the public of having another track laid across said street, your committee would recommend that the prayer of the petitioner be granted on condition that the railroad company put up and operate, for the safety of the public, a gate across said Atwater street at a point just easterly of the crossing of the proposed track; the construction of the gate and supervision of all work done to be under the direction of the Board of Public Works.

Respectfully submitted.

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits to whom was referred the petition of Charles Sacher asking permission to enlarge his summer kitchen in rear of his premises No. 105 Baker street would report that we find that he desires to make an inconsiderable addition to said kitchen five feet in width and fourteen feet long. His premises are not adjacent to those of any other person, and in the opinion of your committee the fire risk will not be increased. We, therefore, report in favor of granting his petition as above.

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of A. F. Bleyenberg, asking that the sale of lot No. 10, block 54, Labrosse farm, north side of Porter street, for the delinquent taxes of 1869 and 1870, be canceled.

and set aside, would report that we find the facts as set forth in the petition, said property having been used in these years for a charitable school under the auspices of the Sisters of Charity. Pupils of the Sisters appeared before your committee and established, both by affidavit and statement, the existence and character of said school, and your committee are of the opinion that the statute in regard to schools, charitable institutions, etc., applies in this case. We therefore recommend the adoption of the annexed resolution.

C. C. BLODGETT,
H. HEAMES,

Resolved, That the City Treasurer be and is hereby directed to cancel and set aside the sale of lot 10, block 54, Labrosse farm, north side of Porter street, for delinquent taxes, for the years 1889 and 1890.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Mitchell, Owen, Roundland, Schmitt, Shanahan, Wilks and the President—30.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes to whom was referred the petition of D. Donovan, to have tax sale canceled on lot 1, block 2, Forsyth farm, for paying of Michigan avenue in 1867, would respectfully report, that with his former petition he did not submit his receipts for the amount paid, and hence the committee on the 26th of May, 1876, reported adverse to his petition; he has now submitted his receipts, which correspond to the second assessment roll for the paving of said avenue, confirmed April 30th, 1876, and the city having no claim against said property, we recommend that the sale be canceled as petitioned for, to relieve his lot from the cloud upon the title; we submit the following resolution:

Respectfully submitted,
C. C. BLODGETT,
H. HEAMES.

Resolved, That it appearing from satisfactory evidence submitted that the special assessment for the paving of Michigan avenue in 1867, against lot 1, block 2, Forsyth farm, having been paid in full, the City Treasurer be hereby instructed to cancel the sale of said lot and relieve the same from the cloud now upon its title.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Mitchell, Owen, Roundland, Schmitt, Shanahan, Wilks, and the President—30.

Nays—None.

GAS LIGHTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Gas Lights, to whom was referred the petition of J. B. Rowland and others, asking the Mutual Gas Light Company to lay their gas mains on Fort street, between Joseph Campan avenue and the east line of the Dubois farm; of William Hannel, also on Beaubien street in Sixth ward, would respectfully report that we have presented the same to the above named company and asked that the prayer of the petitioners be granted. The company say that they cannot do it at present, but will do so as soon as there is sufficient guaranty given them that parties living on said street will consume enough gas to justify them in laying the pipe.

Respectfully submitted,
H. HEAMES,
C. C. BLODGETT,
M. HALLER.

Accepted and referred to the Counselor and Attorney.

JUDICIARY AND ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary to whom with the City Attorney was referred the petition of John Sharp, praying that compensation might be allowed him for the unlawful taking of his lot in the Russell street cemetery, and the removal therefrom of bodies buried therein, would

respectfully report as follows: It appears from the evidence produced that Mr. Sharp claims to be the legal owner of a lot in Russell street cemetery by virtue of an assignment of a deed originally given by the city to Alexander H. Adams. This deed is on record, but there is no record of the assignment. By the deed mentioned, as was the case with all deeds issued by the city for lots in Russell street cemetery, there was conveyed to the grantee, his heirs and assigns, an absolute title to the property described in the deed, to be used for burial purposes. For a long period of time the cemetery had ceased to be used as a burial place; the grounds and fences were neglected, and desolation and decay had marked the cemetery and its external surroundings. The city was fast increasing in population in the locality of the cemetery. The property became valuable for residence and business purposes, and the existence of the cemetery was detrimental to the portion of the city in its immediate neighborhood. These, with other considerations combining, made the cemetery a nuisance. Accordingly the Common Council, several years ago, took measures to obtain titles from parties holding lots, and to this end advertised largely in the public press, notifying parties of the intentions of the city in the premises. By this means a release was obtained of all but a few lots, the owners of which did not appear, or could not be found. In the number of those from whom releases were not obtained was the petitioner. He is, and has been, a resident of Detroit for many years, and it seems strange that the published notice of the intentions of the city with reference to Russell street cemetery should have escaped his observation. However this fact may be, it is but fair to presume that the condition of the cemetery, and its utter unfitness to be, or remain the resting place for the dead must have been known to the petitioner, as it was to the public in general, and should have urged him to action, if he had placed such value on his interests in the cemetery as now appears to be the case by his large claim for damages. In the year 1875 the Council ordered the Board of Public Works to proceed to disinter such bodies as had not been removed from the cemetery, and to have them re-buried in one of the large cemeteries of the city. In compliance with these instructions the Board of Public Works did disinter, remove from the lot of the petitioner, and re-bury in Woodmere Cemetery three bodies, those of relatives of the petitioner—two distant, and one that of a daughter. The manner in which these bodies, with others were removed, viz.: by heaping them promiscuously into large boxes made for this purpose, your committee cannot too severely condemn. The dust of our kindred, and of the stranger within our gates, is entitled to the decency which belongs to the ordinary rights of sepulchre. No economy can be so rigid that it would deny this sacred privilege, and certainly none such is demanded, excusable or just, in a community as prosperous and enlightened as ours. While your committee very sincerely sympathize with the petitioner—not in the removal of the bodies of his dead, for every consideration of decency and preservation required this—but in the manner in which the removal was made leaving him without a knowledge of their exact whereabouts, yet we do not see how a pecuniary consideration will mend or assuage his injured feelings or restore the bodies of his dead. The petitioner is equitably entitled to the payment of the value of his lot at its highest appraised value, and this your committee would cheerfully recommend, but cannot recommend the payment of as large a sum as \$500, the amount demanded.

Respectfully submitted,
GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL,
WILLIAM C. MAYBURY,
City Attorney.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the remonstrance of Edward Cunningham and others against constructing a lateral sewer in the alley between Seventeenth and Eighteenth streets and Magnolia and Linden streets, report:

The parties remonstrating against this improvement being owners of lots fronting on Eighteenth street, can avail themselves of the privilege afforded by Eighteenth street sewer in draining their premises, and consequently would derive no benefit from the lateral sewer; therefore the opposition made thereto. It is the opinion of the board that this lateral sewer is much needed by those owning lots on Seventeenth street, and they should not be deprived of the same because others are permitted the use of public sewers, and recommend that the prayer of the remonstrants be denied.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works would again call your attention to the necessity for speedy and definite action on the part of your honorable body to prevent encroachments by individuals upon public property. On the west side of Washington avenue, between Grand River avenue and State street, there is being erected a building, the bay windows of which extend from the main building some five or six feet into the street, thereby violating the privileges extended to property owners on said avenue in occupying the same for ornamental purposes. Unless steps are taken to prevent this encroachment others will soon follow until, in time, so much as has been reserved for beautifying the avenue will be occupied by structures of a similar nature thereby leaving only so much as is now used for a roadway for what was once a wide and beautiful avenue. If the rights of the city are to be protected in this matter proceedings should at once be instituted against the occupants of this avenue, and he at once be compelled to remove the obstructions therefrom.

The Board therefore recommend that such action be taken as will be for the interest of the city in the premises.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and referred to the Committee on Streets, and Attorney.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 27th of June, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

GEORGE DORR,

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, your Committee on Fire Limits, to whom was referred the petition of C. C. Randall, asking permission to make repairs to his premises, No. 220 Woodward avenue, would report that we find that he desires to take out the present front of said building below and put in a plate-glass front, and take out also wood-work on the inside consisting of partitions, etc.; to erect above the plate-glass front a bay window, and make a covered side stairway to the second story. The making of the glass front and taking out of the partitions below will very materially decrease the fire risk, while the stairway and bay window will not materially make any increase. The neighbors are satisfied that this improvement be made, and your committee see no objection. We therefore report in favor of granting the prayer of the petitioner.

Very respectfully,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The petition of Peter McDermott, east side of Russell street, to elevate the shed of

his kitchen, we have examined, and report that the size of the building is such that any increase thereto will materially advance the fire risk, and we report adversely thereto. Also the petition of Severin Karrer, to erect a two-story building on St. Aubin avenue, we recommend be denied, for reasons heretofore stated, viz: Violation of the Fire Ordinance. On the petition of Charles Rohr to erect a small wood kitchen on top of a brick structure, we report favorably, as there is no woodwork on the premises, and under the peculiar circumstances of the case it would be almost impossible to construct the same of brick. We would further recommend that the petitions of Henry James, No. 54 Washington avenue, and Robert Martin, corner Fort and Twenty first streets, the former to raise his roof 18 inches, and the latter to erect a temporary shed, 14x16, for the period of six months, be granted, as the changes are unimportant, and will not enlarge the fire risk in their respective localities.

Very respectfully,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petitions of Mrs. Warren, praying that permission might be granted her to occupy part of Michigan Grand Avenue (where the late fire occurred) or in the Park on Randolph and Farmer streets, for the purpose of erecting an eating stand on the Fourth of July, would respectfully recommend that the matter be referred to the kind consideration of the Controller with power to act.

Respectfully submitted,

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Accepted and adopted.

City Assessor.

CITY OF DETROIT.

MAYOR'S OFFICE, June 28, 1876.

As great preparations are being made to celebrate the country's centennial year on the Fourth of July next, I would admonish the citizens of Detroit that, owing to the increased danger likely to arise from the excessive use of fireworks, and other dangerous explosives, that great care and watchfulness should be observed on that day, and that no dwelling should be left without proper protection and that pails filled with water should be left standing in convenient places, so that in case of emergency they could be used at once; as some of the largest conflagrations that have occurred in this and other countries have originated from the careless use of fireworks.

FROM THE S. ME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom were referred the communication of Frank A. Nash, Clerk of the Police Court, with a detailed statement of the business transacted at the Central Station Police Court for the quarter ending June 30th 1876, respectfully report that we have carefully examined the same, and also made a careful comparison of the number of cases brought before said court for disturbing the peace and for drunkenness as embraced in said communication, for the past three months, and also as compared with the records in the office of said court for each year from 1871 to the 30th day of June, 1876.

	1871	1872	1873	1874	1875	1876—6 mo
Disturb'g peace	774	139	1175	1008	96	417
Drunkenness	1235	1108	118	1838	1265	513
Total	1009	2506	1293	3141	2221	930

From these figures it will be observed that the number of persons brought before the Central Police Court for drunkenness and disturbing the peace steadily and rapidly increased from 2,009 in 1871, to 3,141 in 1874, whilst in 1875, and with the regulating liquor law in force but five months of the year, the number of this class of cases suddenly

dropped down from 3,141 in 1874 to 2,215 in 1875, a decrease of 926 cases in one year. And if we go a little further and take the figures for the first six months of the present year the comparison is still more favorable to good order and sobriety, as the total number of cases for the six months ending June 30th, 1876, are but 930, or at the rate of 1,860 for the year, against 2,215 in the previous year and 3,141 in 1874.

Your committee are also authorized to state in this connection, on the authority of the Judge and Clerk of the Police Court that the diminution in this class of cases on Monday mornings has depreciated more than 70 per cent; that where they formerly had twenty to thirty cases, and sometimes even more, they now rarely have more than six or eight.

From a very careful examination of the records of this court and a comparison of the figures from January 1, 1871, to June 30, 1876, your committee take pleasure in stating that there is a very great decrease in the number of cases of drunkenness and of those crimes which are more or less attributable to an excessive use of intoxicating liquors.

Want of time has prevented your committee from pursuing their investigations further in this direction, but we trust the encouraging nature of the facts noted above will be received with pleasure by this Council, holding out as they do signs of hope and promise for the future of our city.

All of which is respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES

Accepted and placed on file.

CLAIMS AND ACCOUNTS.

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 7th July, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

GENTLEMEN—The undersigned Committee on Public Buildings to whom was referred the resolution of inquiry as to the feasibility of transforming the Recorder's Court Room into a Council Chamber, and the present Council Chamber into a Recorder's Court Room, and also of removing the present staircase adjoining the Council Chamber, have had the matter under consideration and would report as follows: The said Recorder's Court Room and adjoining offices for clerks and jury room are at present convenient large, and well adapted for the purpose; the furniture, seatings, etc., are all fitted to the place; the rooms are high as court rooms ought to be, and are not too large for the purpose designed, as has been demonstrated repeatedly when exciting trials were in progress; the Council Chamber is also well adapted for the purpose, and will easily and comfortably seat the additional four Aldermen to be provided for next year, by placing therein the necessary desks; the changes referred to would create a very great expense without any adequate benefit or improvement, would disarrange the present status of the rooms, when no necessity therefore is apparent, and hence your committee, in view of these facts, would report adverse to making the changes above referred to.

Respectfully submitted,

J. B. HOULAND,
GEORGE DUNLAP,
THOMAS JACKSON,

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom was referred the resolution of Ald. Finnegan, in regard to tunneling the Detroit River and a conference with Gen. Sooy Smith, would report to you we have had such a conference with him in which he asserts with confidence his ability to construct a tunnel under the Detroit River of sufficient capacity to accommodate a double track railway; that he could complete the same in about two years, and its cost would be very little, if any greater than that of a bridge. He would ask no advances on the contract, but would furnish the entire means for the same himself. The plans for its construction he refused at this time to submit, as it would have a tendency to rob him of the benefits of some valuable inventions he had made in tunnel construction; but should it become at any time probable that his proposition would be accepted he offered to submit detailed plans and specifications to be examined by a board of competent engineers. We believe this is the substance of his proposition. It was suggested at the conference that without the co-operation of the railway any further consideration of the scheme was useless, and your committee therefore recommended that a committee of this Council be appointed to confer with the railway and citizens and bear their views. Your committee close this report with the remark that they were very favorably impressed with the proposition submitted and believe it would be a great blessing to all financial interests centering here could it be put through to completion.

H. HEAMES,
C. O. BLODGETT,
J. A. KURTZ,
J. B. ROULAND,
JOHN D. FINNEGAN.

The committee previously appointed to submit appropriate resolutions on the death of Gen. Custer reported through the chairman, Ald. Hough, the following:

OBITUARY.

Silent in death is the voice of him we revered as a citizen, author and soldier, the noble and chivalric Gen. George A. Custer.

In the brightest constellation of pure and disinterested patriotism his name shines forth.

Gentle but brave, he fell with his gallant comrades without warning at the hands of a fierce and fiendish foe, whose reckless defiance of the honorable terms of governmental treaty calls for immediate reinforcements to avenge the martyred slain.

Resolved, That in the death of Gen. Custer society has lost a cherished member, the nation a valuable leader, and the army a Christian soldier.

Resolved, That the massacre of Gen. Custer and his gallant legion demands a speedy and uncompromising continuance of the war till the last vestige of rapine and murder on the part of these savage hordes is supplanted by respect for law and peaceful citizenship.

Resolved, That to the mourning family and friends of the deceased we extend our sincerest sympathies.

May the Father of all mercies succor them with his grace.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Glas, Guthard, Heames, Herrick, Jack-

son, Kurtz, Liggett, Mitchell, Owen, Rouland, and the President—17.

Nays—None.

The absentees were excused.

And thereupon the Council adjourned.

COMMUNICATIONS FROM CITY OFFICERS

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—In compliance with a resolution adopted by your honorable body at its last session, I transmit herewith the proposals of the Mutual and Detroit Gas Light companies for supplying the city with illuminating gas from July 1, 1876 to July 1, 1877.

The reasons for rejecting the bids of both companies as informal are so fully set forth in the annexed communications of the City Attorney and City Counselor as to require no explanations from this office.

Very respectfully, etc., etc.

E. I. GARFIELD.

Controller

(COPY.)

OFFICE MUTUAL GAS LIGHT CO.,

Detroit, June 27, 1876.

Hon. E. I. Garfield, Controller City of Detroit,
Mich.:

DEAR SIR—In accordance with your advertisement of 21st inst the Mutual Gas Light Company propose to supply, and if its proposition is accepted, will supply "illuminating gas of not less than sixteen candle power, for the year commencing July 1st, 1876, and ending June 30th, 1877, as follows," to wit:

All that may be required for use "in the City Hall and public buildings," and "gas in street

lamps upon all those streets where the mains of both gas companies are laid," at the rate of (30 3/4 cents) thirty-nine and three-fourth cents per thousand cubic feet.

And gas in the street lamps upon streets where this company only has mains laid at the same rate, if it is awarded contract for supplying the lamps upon those streets where the mains of both companies have been laid; otherwise at such price as the city shall pay for the greater number of lamps not subject to competition in the supply of gas.

If awarded the contract of supplying such lamps as are within reach of its mains the company will as speedily as may be practicable connect all such lamps with its mains free of expense to the city, using such of the material now in use as may be convenient and supplying any other that may be necessary without charge. The company also further volunteers the following offer, to wit: To furnish lamps and the material for a good street light upon all streets where it has no mains yet laid at the rate of three-fourths of one cent per hour for each lamp as they may be lighted, using the lamp posts and lanterns now in use, and reserving the right to substitute gas whenever and wherever by the extension of its mains the company may be able to do so, and where gas is so substituted, it to be at same price—to sav, three fourths of one cent per hour for each burned of four and one-half cubic feet per hour—or at the rate of one dollar sixty-six and two third cents (\$1 66 2/3) per thousand cubic feet.

All of which is respectfully submitted.

WM. H. FITCH, JR., President.

OFFICE DETROIT GAS LIGHT CO.,
June 28, 1876.

To the Hon. E. I. Garfield, Controller of the City of Detroit:

DEAR SIR—The Detroit Gas Light Company offer to supply the City Hall and public buildings with illuminating gas of not less than sixteen candle power for the year commencing July 1st, 1876, and ending June 30, 1877, at the rate of 74 cents per thousand cubic feet.

Gas in street lamps upon those streets where the mains of both companies are laid, at the rate of 45 cents per thousand cubic feet.

The company stipulate that as they do not desire a greater rate than \$2 per thousand cubic feet for the entire amount of gas consumed in street lamps, that they will govern the price upon the outside lamps with that object in view. The bills for gas consumed in street lamps shall not exceed the sum of \$2 per thousand cubic feet for the entire amount furnished the city by this company.

Respectfully submitted,

P. E. DE MILL,

Secretary D. G. L. Co.

SAMUEL LEWIS, Sureties.

J. S. FARRAND.

Ellery I. Garfield, Controller:

DEAR SIR—In compliance with your request I submit the following opinion as to the status and constitution of the proposals recently filed by the Detroit and Mutual Gas Light Companies respectively. The advertisement upon which the proposals are based, demands three separate and distinct bids. The bidder whose proposal is the lowest for either is entitled to the contract to that extent. The proposal, however, to be considered as a proper response to the advertisement must be clear, unambiguous and unconditional. The person bidding on any two of the separate propositions submitted, if the lowest in each, is entitled to the contract to that extent. The person bidding on the three propositions must make each as distinct and independent of the others as though the propositions demanded three entirely different kinds of work or material. Constructed together the bids for one proposition must not be made contingent upon the acceptance of the others. Such an answer to either of the propositions would be informal and insufficient. The advertisement does not seek for conditional or contingent bids, for if such were desired or to be entertained, justice to all parties would demand that the condition or contingency should be

stated alike to all. The method of offering municipal contracts to the lowest responsible bidder would be a farce without this principle was sustained; for it will be admitted that the most advantageous contracts could frequently be made by private negotiation in which contingencies and conditions would be taken into consideration. The application of the principles enumerated to the proposals submitted would conclude as follows: The Detroit Gas Light Company has presented proper proposals for the first and second propositions, and an informal and insufficient proposal for the third. The Mutual Gas Light Company has presented proper proposals for the first and second propositions, but has made the third contingent upon the acceptance of the other two. This is insufficient and informal.

Yours, very respectfully submitted,
WILLIAM C. MAYBURY,
City Attorney.

H. E. Garfield, Esq., Controller:

I concur in the opinion of Mr. Maybury that the two first bids of both of the gas companies are formal, and that the bid of the Mutual Gas Company to supply gas on streets where its mains only are laid is informal, yet if the city should accept it the company would be bound to perform it.

Very respectfully,

D. C. HOLBROOK,
City Counselor.

Accepted, and Ald. Kurtz offered the following: *Resolved*, That the Controller be and he is hereby directed to contract with the Mutual Gas Light Company, the lowest responsible bidder, for supplying the City Hall, the market, and street lamps with gas for the ensuing year.

Motions were successively made to refer to the Committee on Gas and a special committee, and both motions were lost. The question recurring on the adoption of the resolution, the same was objected to and laid over.

FROM THE ATTORNEY

To the Honorable the Common Council:

GENTLEMEN:—The undersigned to whom was referred the petition of B. F. Stamm and others, protesting against the repairing of house number 941, Second street, would respectfully report as follows: The building to be repaired is a dwelling house, and is situated in that portion of Second street which is without the fire limits. The question raised therefore by the petition is as to power of the Common Council in the premises. Power 33, section 22, chapter 5 of the Charter confers on the Council authority to prohibit and prevent, within certain limits in said city, to be determined by the Council, the location or construction of buildings to be used for storing explosive, or inflammable materials, or for the purposes of any business in its nature hazardous to the public health or safety, and further empowers the Council to regulate the construction of the building to be used as aforesaid, whether within or without the prescribed limits, and to regulate the construction of buildings usually regarded as extra hazardous in respect to fire, or to the health or safety of the inhabitants. Power 35 of the section and chapter above quoted confers on the Council authority to prevent the rebuilding or repairing of wooden buildings of any kind, within the fire limits, when damaged by fire or otherwise.

In neither of the powers cited, and which are the only provisions of the charter having any reference to the matter under consideration, do I find authority conferred upon the Common Council to prohibit prevent, or regulate the erection or repair of a building, to be used for ordinary dwelling purposes, beyond the fire limits, or of any other building unless by the nature of the business to be conducted therein the health or safety of the inhabitants may be endangered.

The repairing of the building referred to in the petition will certainly not affect the health of the neighborhood, and as to the danger created the building will be no more dangerous to the neighborhood than other buildings constructed of like materials therein. I would therefore submit that

the Council is without authority to aid the petitioner in the premises.

Respectfully submitted,
WILLIAM C. MAYBURY,
City Attorney.

Accepted and placed on file.

FROM THE SAME.

To the Honorable Common Council:

GENTLEMEN:—I compliance with the instructions of your honorable body I herewith submit an ordinance amendatory of Chapter 21 of the Revised Ordinances of 1871, adding thereto a section prescribing a penalty for the violation of said ordinance.

Very respectfully,

WILLIAM C. MAYBURY,
City Attorney.

Accepted, and the ordinance placed upon its first and second readings by its title, laid on the table and ordered printed in the proceedings.

The following is the ordinance:

AN ORDINANCE

To amend chapter 21 of the Revised Ordinances of 1871, by adding thereto an additional section, to be known as section 7 of said chapter.

It is hereby ordained by the Common Council of the city of Detroit:

SECTION 1. That chapter 21 of the Revised Ordinances of 1871 be and the same is hereby amended by adding thereto an additional section, to be known as section 7 of said chapter, as follows:

Sec. 7. Any violation of or failure to comply with the provisions of the preceding sections of this ordinance shall be punished by a fine not to exceed \$100 and costs, and in the disposition of any such fine and costs the court may make a further sentence, that in default of the payment thereof such offender be imprisoned in the Detroit House of Correction or County Jail for any period of time not exceeding six months.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN:—Section 3 of the ordinance granting a charter to the Detroit City Railway Company provides that all railways, if on a single track, shall be laid in the center of the street, and section 4 provides that the upper surface of the rails shall be laid flush with the surface of the streets and shall conform to the grades thereof as now established, or as the same shall from time to time be re-established or altered; and, in case of grading, paving or otherwise, if it be necessary to relay said rails, the same shall be done at the expense of the grantees.

Also, that the ordinance approved July 8th, 1873, granting said company permission to maintain a double track on Jefferson avenue provides that, if hereafter the pavement on said avenue shall be extended, or said avenue shall be ordered repaved, the said grantee or company shall contemporaneously with such paving or repaving, at its own sole expense, excavate, grade and pave or repave all the portion of said avenue lying within the rails of each track, and between the tracks, and the two inner rails shall be laid equidistant from the center of the street; said company shall thus pave or repave with the same material as shall be used for the paving or repaving of the balance of said avenue or with material satisfactory to the Common Council.

In repaving Jefferson avenue from Shelby to Second street, in order that the same may conform with that portion east of Cass street it has been deemed necessary to change the grade, thereby rendering it necessary for the Detroit City Railway Company to change the grade of its track to conform thereto.

The company have been repeatedly notified of the intention of the Board of Public Works and requested to so act with the city in repaving said avenue, but without effect, said company being of the opinion that their track is all right as it is and no change is needed. The board have also notified said company to place the railway in the center of the avenue, as provided in the ordinance approved June 8th, 1873, with like result. This track is between four and five feet north of the center line of the avenue, thereby giving prop-

any owners on the south side greater advantages than those on the north side.

The board respectfully recommend that this matter be referred to the City Counselor and City Attorney to report what action is necessary to compel said company to live up to and in accordance with the provisions of its charter.

Respectfully submitted,

NICOL MITCHELL,

Member of Board of Public Works.

Accepted and recommendations concurred in.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom, with the City Attorney, was referred the communication of the Board of Public Works relative to the encroachment about to be made on Washington avenue, by the completion of a building now being erected on the westerly side of said avenue, between State street and Grand River avenue, would respectfully report that the facts in the particular case to which the attention of your committee is called in the communication of the Board, appear to be briefly as follows:

A citizen now a resident of Washington avenue, and fully informed as to the status of public and private rights therein, is the owner of the building to which reference is made in the communication before your committee; the citizen referred to, with full knowledge, as appears by his own confession, of the trespass he was about to commit, prepares and adopts plans for the construction of his building, by which the front wall shall stand directly on the westerly boundary line of the avenue, and the porch and bay windows shall extend for a distance of four or five feet into the street and obstruct the same to this extent.

Now, while your committee would have no difficulty in dealing with the case under consideration if it occurred on any other street in the city, and are

to some extent relieved from embarrassment in this matter by the foreknowledge of the party about to encroach, yet there are some special considerations of policy and of justice in this case which have confronted your committee and make its duty a serious one as affecting not only the case in hand but many other cases of a like nature.

It is well known that Washington avenue throughout its entire length is encroached upon to a greater or less extent by the parties owning property thereon.

The public space to the extent of forty feet on either side of said avenue is now enclosed and used by adjacent owners to all intents and purposes as though it were their own private property and in many cases the balconies, porches and windows are built beyond the line of the street even to the extent of fifteen feet. Many of these structures have been built at a large expense and the removal of them would destroy the appearance and to a great extent the use of the buildings of which they form an important part.

It appears to your committee that one of three courses is open to a solution of this matter. First, to order the clearing of the street of all obstruction; second, to grant to the party herein complained of the same indulgence which has characterized the course of the Council towards other residents alike trespassing, or third, the vacation and sale to the adjacent owners of a portion of said avenue.

As to the first course your committee believe it would be nonsense to adopt it at this time as the obstructions in the street do not in the least inconvenience or incommodate the free public travel therein and the said obstructions and use made of the avenue are such as are calculated to increase its beauty and have made it one of our hand-some thoroughfares and as to the third your committee only mention it for such consideration as it may receive by this body. Your committee however believe it is only right that no uncertainty should be permitted to surround the relative rights of the public and adjacent owners in said street, but that it should be distinctly understood by all parties on this street that the day when the public necessity or convenience demands or requires the clearing of this avenue will end the indulgence allowed them, whether the day be near at hand or in the far future and all their operations in the street will be presumed to be undertaken with a view to this uncertain tenure.

Your committee are unable to see that the building now being erected on said avenue at the point indicated in the communication from the board will seriously increase the obstructions therein.

If this building is to be stayed in its progress to prevent the threatened encroachment then will justice demand that obstacles already existing in said avenue be removed that all may stand on an equal footing.

Under all the circumstances of the case presented, your committee would recommend that the owner of the building now being erected on the avenue and to which reference is made in the communication, receive the same indulgence that has been accorded to his neighbors.

Respectfully submitted,

GEORGE DORR,
 DANIEL SHANAHAN,
 JACOB GUTHARD,
 WILLIAM C. MAYBURY,
 City Attorney.

Laid on the table for one session.

GAS LIGHTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Gas Lights, to whom was referred the petition of J. W. To the Honorable the Common Council:

GENTLEMEN—On the 18th of May, 1876, the Board of Public Works contracted with Henry Horn to construct a lateral sewer in the alley between Sixteenth and Seventeenth streets and Dazelle and Francis streets, and a lateral sewer in the alley between Fifteenth and Sixteenth streets, and Marquette and Baker streets, the same to be completed on or before the first day of August, 1876.

In addition to the above, Mr. Horn had contracts for building two other sewers which, owing to the assistance rendered by parties connected with the Board, he has managed to complete. The above described sewers, he has not the ability, particularly or otherwise to complete, and it would undoubtedly be a great hardship to compel him to comply with the terms of the contract. It is therefore recommended that the contract for these two sewers (Nos. 21 and 26) be annulled, and the Board authorized to readvertise for proposals for constructing the same.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and Ald. Guthard offered the following:

Resolved, That the contract made by the Board of Public Works with Henry Horn, May 18th, 1876, for constructing a lateral sewer in the alley between Sixteenth and Seventeenth streets and Dazelle and Francis streets, and a lateral sewer in the alley between Fifteenth and Sixteenth streets and Marquette and Baker streets, be and the same is hereby declared forfeited and annulled, and the Board of Public Works is hereby directed to readvertise five days for proposals for constructing said lateral sewer.

The Board, therefore, recommends that the prayer of the petitioner be denied.

President.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Mail and Goehring, praying that permission might be granted them to move a frame building from Catherine street along and through St. Antoine street to Columbia street, would respectfully recommend that the prayer of the petitioners be granted, and that they be permitted to move said building over and through said St. Antoine street, from Catherine to Columbia street, and that they

shall not occupy more than three days in moving said building.

Respectfully submitted.

GEORGE DORR,

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the several petitions of A. Orieman and Abraham Lichtenberg, praying that permission might be granted them to place and maintain platform scales in the City Hall Market, would respectfully report that they have given the matter much consideration and believe that not only two worthy citizens would be benefited thereby, but that the public would derive great advantage therefrom. We would therefore recommend that the prayers of the several petitioners be granted.

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits have examined various petitions referred to them and report them, as follows: Adam Ardoff wishes to change the roof of the kitchen and raise his house three feet, so that he may thereby be enabled to fill up his lot, improve the appearance of his premises and render the same more desirable for residence purposes. As there will be no material increased fire risk, we report favorably thereto. Mr. A. Baesett, corner of Jefferson avenue and Brush street, wishes to build a stairway into the basement of the building, which said stairway, if constructed, will project into the street. Believing that such changes should be made under the supervision of the Board of Public Works, we respectfully ask that it be referred to that body for proper investigation. George W. Boden, corner Adams avenue and John R street, asks permission to construct a shed 14x20 and 8 feet high. He intends to use the building for a carpenter shop, and as, in our judgment, the danger by fire to the adjoining property would be enhanced, we report adversely thereto. George W. Hudson wishes to erect a temporary office on the corner of Fourth and Grand River avenue. We would report adversely to the said change, but recommend that he be allowed to remove a small office adjacent thereto, situated in a large quantity of woodwork and combustible material, to be used for the purpose above set forth.

Very respectfully.

JACOB GUTHARD,
PAUL GIES.

Accepted and adopted.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Thomas H. Griffith and others, representing that the sewer in Michigan avenue from Fourth to Sixth street does not properly drain their premises, and when heavy

rains occur their cellars are flooded with water, report:

Upon investigation it appears that the sewer in Fourth street, into which the Michigan avenue sewer empties, is not of sufficient capacity to discharge the storm waters in addition to the large amount of sewage which must necessarily empty into the same, to prevent the water from backing up. It is believed that the difficulty can be remedied by extending the sewer in Labrosse street from Fifth street to intersect the Fourth street sewer at Michigan avenue, thus giving the Fourth street sewer an additional outlet into Trumbull avenue sewer, the cost of which will not exceed \$700.

Respectfully submitted.

ALEX. CHAPOTON,

President.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of the Detroit City Railway Company, praying that said company might be furnished under instructions of this Council the amount of materials necessary to repave its tracks on Jefferson avenue, between Shelby and Second streets, would respectfully report that the demand of the railway company is based upon two grounds, viz.:

First—That the charter under which the company operates guarantees to it from the city materials for repaving between its tracks, and that this applies to the single line of track first laid on Jefferson avenue by the company.

Second—That the additional tracks laid by said company on said avenue, under permission granted by the Common Council in 1869, has the same rights and privileges as the original track.

Your committee, in answer to the arguments advanced by the company, would say that even if the position of the company was sound and tenable at the time when its charter was conferred and when by subsequent permission the second track was laid, yet the company is now operating its lines of track on Jefferson avenue under different authority from that referred to. On July 8th, 1873, an ordinance was approved authorizing the Detroit City Railway Company to maintain a double track on Jefferson avenue. In said ordinance it is expressly provided that if the pavement on said avenue should ever be relaid the said company should proceed contemporaneously with such repaving, at its sole expense, to excavate, grade and repave all the portions of said avenue lying within the rails of each track and between the tracks, and should also keep said tracks and the space of two feet nine inches outside the outer rail of each track in proper condition and repair. Said ordinance further provides that the said company should repair and repave with the same kind of materials used on the other portions of the street beyond the line of the tracks.

Your committee therefore believe it to be the duty of the petitioner to supply the materials desired.

Respectfully submitted.

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

FROM THE CLERK.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Luke Crossly praying that he might be allowed to raise his house on Fourteenth street so as to permit him to construct a cellar thereunder, and also to raise the sidewalk in front of his premises on said street, would respectfully report that we are in favor of

granting the prayer of the petitioner, so far as the same relates to raising the house in question, but as to the sidewalk we would recommend that this portion of the petition be referred to the Board of Public Works with instructions to take such steps for the relief of the petitioner as justice to him and a due regard to the public interests may require.

Respectfully submitted.

GEORGE DORR,
JACOB GUTHARD.

Laid on the table.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits to whom was referred the petition for the erection of a temporary wooden structure for the purpose of a "Wigwam," on the southeast corner of Wayne street and Michigan avenue, would report that we have examined the locality, and find that it will be surrounded by large vacant lots, and very wide streets and avenues, and not come in contact with any buildings whatever, and consequently will not enhance the fire risk of any of the adjoining buildings, or the neighborhood, for which reason we report favorably thereto, on condition that it be removed immediately after the close of the present Presidential campaign. All of which is respectfully submitted.

JACOB GUTHARD.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The petition of Mrs. R. G. Tyler, referred to us for examination, shows that she wishes to alter her dwelling house by the addition of six feet to the front part thereof, said premises being situated No. 51 Leverett street. The premises are located immediately on the line of the fire limits, two-thirds being outside, and as there will be no possible increase of risk if the improvement is effected, we report favorably thereto.

Respectfully

JACOB GUTHARD.

Accepted and adopted.

COMMUNICATION.

To the Honorable the Common Council:

GENTLEMEN—Your petitioner, Charles Ewers, respectfully shows that he is a resident of the Second Ward of Detroit; that at a special election held in said ward on July 26, 1876, for Alderman to fill vacancy, occasioned by the resignation of Lewis B. Clark, he was a candidate for said office on the Republican ticket, and that Richard W. Layng was a candidate on the Democratic ticket; that there were cast at said election 287 votes, as follows:

For Richard W. Layng, for Alderman.....	167
For Richard W. Layng, for Alderman, to fill vacancy.....	7
For Charles Ewers, for Alderman, to fill vacancy.....	123

Your petitioner, Charles Ewers, claims and insists that he was elected at said election Alderman to fill vacancy, and consequently entitled to his seat in the Council for the following reasons, to wit:

First—That of the ballots cast at the said election for Alderman to fill vacancy Richard W. Layng received but seven, while your petitioner received 163, leaving him a clear majority of the legal votes cast at said election of 156, the remaining 123 votes for Richard W. Layng not designating for Alderman to fill vacancy, as is required by section 14 of chapter 3 of the charter.

Second—And further, should your honorable body decide that said 167 votes cast for Richard W. Layng for Alderman only should be allowed in the count for Alderman to fill vacancy, as aforesaid,

your petitioner claims that he is elected Alderman to fill vacancy, as aforesaid, for the reason:

(a) That he received a large majority of the votes of the legal voters of said ward, believed by your petitioner to be not less than sixty;

(b) That a large number of men, between the number of sixty and seventy, were procured to appear at the polls on said day, who were residents of other wards, adjacent towns, of other States, Great Britain and Canada, to represent, many of them on oath, that they were residents and voters in the Second Ward, and to vote for said Richard W. Layng, and they did so vote.

(c) And persons so procured to vote for said Layng were not registered in the registration books by Inspectors Schmitt and Long, having in charge the registration book upon said day, as by law is required before a vote shall be received, and consequently all such votes are illegal and cannot be counted against your petitioner.

(d) That persons were procured to appear at said polls and personate former voters of said ward, who had long since removed therefrom, and to vote and did vote for said Layng.

And further, your petitioner did protest against and challenge all such illegal votes as at that time appeared to him to be such, but was overruled in said challenge by the inspectors or a majority thereof.

And all these things your petitioner is able to show and prove at such time and place as to your honorable body may seem fit.

All of which is respectfully submitted.

CHARLES EWERS.

Accepted and leave being granted, Ald. Dunlap offered the following:

WHEREAS, At an election to elect Alderman to fill vacancy occasioned by the resignation of Lewis B. Clark, held on July 25th, 1876, in the Second Ward of Detroit, Charles Ewers received the highest number of votes for Alderman to fill vacancy; therefore

Resolved, That Charles Ewers be and is hereby declared duly elected to the office of Alderman of the Second Ward to fill vacancy.

Ald. Owen moved to amend by substituting the name of Richard W. Layng.

Lost as follows:

Yeas—Ald. Finnegan, Gies, Haller, Heames, Herrick, Jackson, Owen, Schmitt and Shanahan—9.

Ald. Owen offered the following as a substitute for the original resolution:

WHEREAS, The Inspectors of Election of the Second ward have returned to this body that Richard W. Layng received a majority of all the votes cast for Alderman in said ward; therefore,

Resolved, That the City Clerk be and he is hereby directed to execute and deliver to Richard W. Layng his certificate of election.

Ald. Hough raised the point of order that the substance of the resolution having been passed upon, the resolution was out of order.

The point was sustained by the chair, with the remark that if the matter is new matter it is not germane to the question under consideration; if, as an amendment, it is out of order having been once passed upon.

Ald. Hough called for the previous question which was seconded.

Ald. Finnegan moved to lay the motion for the previous question on the table, which motion did not prevail by the following vote:

Yeas—Ald. Finnegan, Gies, Haller, Heames, Herrick, Jackson, Owen, Schmitt and Shanahan—9.

Nays—Ald. Blodgett, Christian, Dorr, Guthard, Hough, Kurtz, Liggett, Mitchell, Rouland, Wilks and the President pro tem—11.

The question then being "Shall the main question be now put" the same was ordered by the following

Yeas—Ald. Blodgett, Christian, Dorr, Guthard, Hough, Kurtz, Liggett, Mitchell, Rouland, Wilks and the President pro tem—11.

Nays—Ald. Finnegan, Gies, Haller, Heames, Herrick, Jackson, Owen, Schmitt and Shanahan—9.

Ald. Finnegan moved to adjourn.

Lost by the following vote:

Yeas—Ald. Finnegan, Gies, Haller, Heames, Herrick, Owen, Schmitt and Shanahan—8.

Nays—Ald. Blodgett, Christian, Dorr, Guthard, Hough, Jackson, Kurtz, Liggett, Mitchell, Rouland, Wilks, and the President pro tem—12.

FROM THE FIRE COMMISSION.

To the Honorable the Common Council:

GENTLEMEN—The Fire Commission, to whom was referred the petition of Leo Lefevre, praying for permission to move a frame building into the fire limits at the corner of St. Anbin avenue and Larned streets; also a remonstrance signed by twenty-three citizens against the granting of the petition, respectfully report, after an examination of the locality, that it is their emphatic opinion that permission should not be granted to violate the present ill arranged fire limits, even in a less marked manner.

For a city that pretends to such efficient municipal

administration as Detroit, the present fire limits are a disgrace, because they are in exception to all other important cities in the country, and more so by the wholesale and unsystematic manner in which your honorable body grant permission to violate the miserably inefficient regulations that do exist.

It is to be regretted that the often repeated warnings of this Board, the bitter experience of other cities, and the expressed sentiment of a large class of our most intelligent and thinking citizens, should have no effect, and that your honorable body should only honor this Board by asking their opinion except in cases where it would be clearly wrong to grant the petitions.

By order of the Board.

Very respectfully, etc.,

FRED. H. SEYMOUR,
Secretary.

Accepted and placed on file.

FROM THE GAS INSPECTOR.

To the Honorable the Common Council:

GENTLEMEN—The public street lamps throughout the city will be lighted and extinguished in the month of August as follows, viz: 1st to 9th, inclusive, no light, except cloudy nights; 10th to 11th, inclusive, light at 6.30 p. m., and put out at 10 p. m.; 12th to 30th, inclusive, light at 6.30 p. m., and put out at 8.30 a. m.; 31st, inclusive, no light except cloudy nights.

Very respectfully,

C. F. BLATTMEIER,
Gas Inspector.

Accepted and placed on file.

FROM THE BOARD OF EDUCATION.

To the Honorable the Common Council:

GENTLEMEN—The Board of Education of the City of Detroit respectfully represent that in the lease to them for the purpose of a Public Library building of the premises in said City known as Centre Park, dated 19 August, 1872, there occurs under the fourth title the following covenant, to be kept and performed on the part of the Board of Education: "That the said party of the second part shall inclose said premises with a suitable iron fence or railing, and keep the same in good repair, and shall keep in good repair and condition the sidewalks around and adjoining said premises." The board have concluded, after careful examination of the matter, that if your honorable body will consent to waive the covenant referred to so far as the erection of the fence or railing is concerned, the premises may well be preserved from encroachment or trespass without incurring the large outlay necessary for the erection of an iron railing of suitable weight and design, the sides of the triangle land being in the aggregate more than one thousand feet in case of such waiver being agreed upon by your honorable body, and in consideration thereof, the board offer to enlarge their responsibility of keeping "in good repair and condition the (present wooden) sidewalk," and to lay a stone flag walk around the whole of the triangular space held by them conforming in the laying of the same to the requirements of the ordinances. For this proposition they respectfully ask the consideration of your honorable body or of the proper committee.

By order of the Board of Education.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Thomas Fletcher asking to be refunded \$3 paid for connection permit for making connection with a lateral sewer find that said Fletcher paid for said permit by mistake not knowing that a former proprietor of the lot to which connection was to be made had previously paid for a permit and made the necessary connection. FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of William Houghton asking to be refunded the difference between the tax on malt liquors and the tax on spirituous liquors from October 1st, 1875, to January 1st, 1876, would report that we find that Mr. Houghton was assessed by mistake for dealing in spirituous liquors at retail when he was a dealer in malt liquors only; that at the time said assessment was made he was absent from town and had no opportunity to correct the same, and that he paid it on demand on the representations of the Sheriff that the Council would remedy all errors. Your committee have consulted the City Attorney, and he gives it as his opinion that this case is not covered by the injunction issued recently by the courts, and that the city has taken from Mr. Houghton money for which it has rendered no consideration. Mr. Houghton, in addition to his petition, made affidavit that he had not, between October 1st last and June 1st last, sold spirituous liquors. Your committee, in view of the circumstances, believe that the difference between the malt liquor and spirituous liquor tax ought to be refunded to Mr. Houghton, and ask the adoption of the annexed resolution.

Respectfully submitted.

R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be and is hereby directed to draw his warrant on the proper fund in favor of Wm. Houghton for forty-five dollars.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the communication of the First National Bank, requesting a modification of the

terms of the contract, by which they hold the city deposits, have had a conference with the officers of that institution. Your committee were informed by the bank that while they desire to continue as the depositories of the city funds, they did wish not to do so at the present rate of interest allowed and paid to the city. As they expressed a willingness to make the city a proposer, your committee invited bids from all national banks at a stated time. But one was received, and that from the First National, at the following rate:

The bank will pay interest on the daily balances to the credit of the city up to, but not exceeding the sum of one hundred thousand dollars, at the rate of four per cent, and on all sums in excess of one hundred thousand dollars, at the rate of three per cent interest, to be computed and credited to the city on the last day of September, December, March and June in each year.

Your committee have also called upon each of the savings banks in the city, but with one exception, the Detroit Savings Bank, which offered 3 per cent upon the specific sum of \$5,000, they declined to make a proposition.

Your committee therefore have no other alternative except to recommend a contract with the First National Bank upon the terms offered.

Very respectfully, etc., etc.

GEORGE DUNLAP,
H. HEAMES,

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the resolution of Ald. Kurtz, instructing the Controller to contract with the Mutual Gas Light Company for supplying the City Hall Markets and street lamps with gas for the ensuing year, would respectfully report as follows:

The matter submitted to the investigation of your committee, and embodied in the resolution, is one which required the thoughtful consideration of your committee, has been the fruitful source of discussion, and is of great importance.

In view of its importance your committee have no apology to offer for the time taken to consider the subject, and the adoption of every means which served to indicate the course which justice to parties, and to the public interests demanded.

Your committee, although entertaining personal views and preferences in this matter, has approached it with a sincere desire to harmonize conflicting opinions, so far as possible, and to arrive at that result which a liberal view of all the facts will justify and sustain.

Your committee deem it a duty which they are called upon to discharge, to say that on the part of the Controller any charge or inference made to the contrary notwithstanding, there has been exercised toward the parties interested in this question of supplying gas to the city, the most absolute good faith and impartiality.

That the bids of both companies were received by the Controller and opened by him in the presence of a representative of each company, and then and there in the exercise of that discretion, which is his to exercise, were in each case declared to be informal in certain particulars. That by judicial decision we recognize the interpretation of that part of the charter relating to the letting of municipal contracts to the lowest responsible bidder, to be confined to those bidders who in all essential particulars comply with the conditions of the proposals desired in substance and in form. That the person not having so complied with the conditions of the proposals hereinbefore set forth is not a recognized legal bidder, and the proper person to decide this is the officer to whom is delegated in the first instance the power to advertise, receive and open such bids. This discretion of the Controller is subject to review where the party deeming himself aggrieved so desires or the Council so orders. Your committee would call attention to the fact that no other question affecting the supply of gas to the city except the one question raised as to the formality or informality of proposals came before or were considered by the Controller, City Counselor or City Attorney at the time the proposals were presented and opened and passed upon, for with other questions affecting the case they had nothing to do, nor did they attempt directly or indirectly to do more than the present duty required of them. The concurring opinion of the City Counselor and City Attorney were presented to this Council and spoke for themselves. Your committee is prompted to make the foregoing statement in order that the question now pending before this Council for its action may be freed from any misconception of what has already taken place. The matter then is before this Council, thrown wide open for consideration in all its bearings and for action limited only by the broadest discretion which this body is authorized to use in the acceptance of either or both bids or the rejection of both or either as may be determined. Two questions arise in the consideration of this matter, and the first is, are the proposals or either of them formal? and second if informal, is the informality such as to be fatal to the bid. As to the first your committee would answer that the first proposition of each company is formal and the bid of the Mutual Gas Light Company is the lowest and in the language of the opinion of our legal advisers is entitled to the contract to this extent. The second proposal of each company is formal in itself, considered without reference to anything which follows in the proposal, and the Mutual Gas Light Company is the lowest and accordingly entitled to the contract in this particular. As to the third proposition of each company considered as a separate bid there is no doubt that each is informal. In the case of the Mutual Gas Light Company, however, the condition precedent, namely, the acceptance of the second proposal of said company will operate to destroy the informality of the proposal and fix the price of gas at 39½ cents per thousand feet as in the other cases. In answer to the second question, namely, is the informality of the bids such as to be fatal, the committee would say, that the third proposal of the Detroit City Gas Light Company is essentially and fatally defeated. The third proposal of the Mutual Gas

Light Company imposes as a condition the acceptance of the second proposal as precedent to the existence of the third proposal. The acceptance of the second proposal has the effect to create the third and to fix the amount of the bid. In view of all the facts then, should the Council so far depart from the rigid application of the rule requiring clear and unconditional bids as to give effect to the third proposal of the Mutual Gas Light Company. Your committee although sustaining the general rule requiring clearness and precision in municipal bidding, and unwilling to make any case a reasonable precedent for future violations of this wise and just rule, would in view of the facts that this portion of the bid relates to a supply of gas to be furnished in lamps where no competition is made and where the company is in any event able to make its own terms without reference to any other bidder, and therefore no faith is violated with other bidders, we would recommend the letting of the contract to the Mutual Gas Light Company in the third particular on the same terms as in the other two at 80¢ cents per thousand feet. As to the balance of the proposal of the Mutual Gas Light Company relating to the supplying of lamps and service pipes, etc., your committee deem this portion of the bid superfluous and make no recommendations thereon. Your committee would therefore recommend the adoption of the resolution submitted, and unless consideration with the following additional words, viz: And that said company be required to file a bond conditioned for the faithful performance of this contract in each sum and with sufficient sureties to be approved by the Controller.

To the Honorable the Common Council:
GENTLEMEN—The undersigned would respectfully inform your honorable body that he has received from William A. Throop, Receiver of Taxes, a subpoena and injunction served on him in a suit commenced in the Circuit Court for the county of Wayne, in chancery, wherein Edward A. Elliott is complainant and the city of Detroit, defendant.

The bill of complaint in this cause is filed to restrain the repaving of Jefferson avenue, in front of the premises owned by the complainant, between Cass and Second streets.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Accepted and referred to the Counselor and Attorney, with instructions to defend.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petitions of F. E. Mosier and others, and Perrien Bros. and others, for paving Prospect street, from Gratiot avenue to Grove street, with cedar block pavement, respectfully recommend that the prayer of the petitioners be granted.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on said Prospect street from the north line of Gratiot avenue to the south curb line of Grove street, the lots and parcels of real estate situated on said Prospect street embraced within said limits and fronting the portion of said street ordered to be improved by said grading and paving, shall be, and the same is hereby constituted and declared to be one local assessment district.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Joseph Clemener for permission to excavate in front of his premises under the sidewalk for the purpose of

building a vault, recommend that the prayer of the petitioner be granted on condition that he use wrought iron girders, and have the same properly adjusted, and the vault arched with brick and cement; also that the same shall be subject to the approval of the Board of Public Works.

ALEX. CHAPOTON,

President.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works respectfully recommend that Chene street, from Jefferson avenue to Clinton avenue, be paved with wed and stone pavement.

Between St. Aubin and Elmwood avenues not any of the streets intersecting Jefferson and Clinton avenues are paved, and as a protection against heavy losses by fire, caused by delay on account of the impassable condition of unpaved streets in wet weather, the Board deem it important that this street should be paved, and so recommend.

Respectfully submitted,

ALEX. CHAPOTON,

President.

3. The quantity of all cross-walks at each intersection of said Chene street with the cross streets and alleys.

Resolved, That payment for the construction of said pavement and assessment to secure the same shall be according to the provisions of the amendment to the City Charter, approved April 17, 1871, permitting the issue of bonds to an amount not exceeding three-quarters of the cost of paving said street as estimated and assessed.

Resolved, That whenever the Board shall receive the report of the City Engineer showing the quantity of the grading, paving and crosswalks, and other work required on said Chene street said Board shall, and are hereby ordered and directed to advertise for five days for proposals for grading, paving and for crosswalks on said Chene street in accordance with the provisions of the Charter and Ordinances of the city of Detroit.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurts, Liggett, Mitchell, Owen, Rouland, Schmitt, Wilks, and the President—20.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom, with the Controller, was referred the petition of eight of the eleven ward collectors, that the rolls of the several wards be placed in their hands for collection as required by the charter, etc., have had the request under consideration.

Section 12, chapter 9 of the charter, provides that "the Receiver of Taxes, with the advice and consent of the Controller, on or after the first day of August in each year, may cause to be made out

copies of any taxes remaining due and unpaid upon any property or value other than real estate, and warrants issued to the proper ward collector, etc., for their collection." This is the only clause in the charter referring to the time when the rolls shall be made out and delivered. The Controller addressed a note on the 27th ult., to the Receiver, advising "that the rolls should be made out on the first day of August, or as soon thereafter as possible, etc." In view of the great loss to the city by delay in demanding payment of the tax upon personal property, your committee would recommend that the rolls be placed in the hands of the ward collectors at an early date as practicable, and not later than September 15th, 1876.

Respectfully submitted.

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES,
E. I. GARFIELD,
City Controller.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the petition of Henry Miller, praying that he might be relieved of all responsibility as bondsman on the liquor bond of James Comerford, would respectfully report that they have had the matter under consideration, and are of the opinion that the Common Council has no power to act in the matter; and inasmuch as section 5 of "The Regulating Law," passed at the legislative session of 1875, provides that "whenever any condition of said liquor bond shall be broken, a new bond may be required by the County Treasurer, and also in case of the death, insolvency, or removal of either of the sureties, and in any other contingency requiring it."

Your committee would therefore recommend that this and all petitions of a like nature be referred to the County Treasurer.

Respectfully submitted.

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted, and recommendations concurred in.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the bonds of Andrew Hutchinson, Jacob Schwartz, Anton Poznansky, Mathias Poncelet, Henry Merrill, John Weller, John Hock, John A. Zeller and Louis Apel, liquor dealers, respectfully report that we have examined the same and believing them correct and satisfactory recommend their approval.

Respectfully submitted.

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES,

Accepted and adopted as follows:

Yeas—Ald. Blodgett Christian, Dorr, Dunlap, Ewers, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Wilks and the President—40.
Nays—None.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom, with the City Attorney, was referred the petition of the Board of Education of the city of Detroit, praying that said Board might be discharged from all claims of obligation to pay the assessment levied upon the property known as Center Park to defray the expense of paving streets adjacent thereto, would respectfully report that the title to Center Park is in the city of Detroit, and the Board of Education is the lessee of the same for the term of fifty years by virtue of a lease executed by the city to the said Board of Education on the 14th day of August, A. D. 1873. That whatever rights said lessee has in Center Park are set forth in said lease, and its obligations are also contained therein. That in the lease mentioned there appears to be no covenant which by fair legal construction fixes the intent or obliga-

tion on the part of the lessee to pay for special assessments on the premises described.

If such an assessment has been made on Center Park to pay for paving streets adjacent thereto and any lien is created on the premises thereby, the enforcement of such lien by the city would result in the sale of its own property. There are other legal objections which would arise respecting the enforcement of the payment of this assessment by the Board of Education if the covenants of its lease required it to do. The objections above stated are deemed by your committee to be conclusive of the rights of the city and the Board of Education in the premises.

Your committee would recommend that the payment of the assessment made on Center Park for the pavement of streets adjacent thereto, be paid out of the general road fund, as in other cases where improvements are made adjacent to public property.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
WILLIAM C. MAYBURY,
City Attorney.

Accepted, and Ald. Dorr offered the following:

Resolved, That the Controller be and he is hereby instructed to draw his warrant on the General Road Fund for the amount of the assessment made on Center Park to defray the expense of paving the streets adjacent thereto.

Objected to and laid over.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of the Board of Education asking to be relieved from the covenant of its lease of Center Park, requiring said lessee to enclose the Park with a suitable iron fence or railing, and to keep the same in repair, would respectfully report that we do not deem it advisable to waive or modify the covenant referred to, as in the opinion of your committee the premises in question will present a much better appearance enclosed, than if ornamented without any enclosure. Your committee are informed also that the great majority of property owners on streets adjacent to Center Park prefer that the fence or railing should be built in accordance with the terms of the lease.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD.

Laid on table for one week.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of William Barclay and others, asking that some means might be taken to compel the Board of Education to remove the rubbish and debris accumulated in Center Park, and to improve said park in compliance with the requirements of the lease under which it holds, would respectfully report that we believe the Board has been careless in the matter of keeping the conditions of the lease of Center Park in respect to the matters complained of by the petitioners. We would therefore recommend that the Board of Public Works be authorized and instructed to notify the Board of Education or its agents to remove the rubbish and debris complained of and to otherwise improve and ornament Center Park as the covenants of the lease require.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the communication of the Board of Public Works submitting proposals received for repaving Michigan avenue from Woodward avenue to Thirteenth-and-a-half street in sections and with different kinds and combinations of materials, would respectfully report that we have had the matter under consideration, and after careful inquiry among those citizens most

especially interested in the repaving of said avenue, have arrived at the following conclusions:

First—That it is the general desire to have the avenue repaved with a combination of wood and stone, and that in the gutters on either side the stone now being used should be selected with reference to size and appearance and relaid.

Second—That the combination pavement referred to herein can be completed at a much less expense than either of the other kinds of pavement advertised for, and will be equally as good a pavement in use and in appearance. The aggregate saving of money by the adoption of the pavement mentioned will reach the sum of \$4,000 or thereabouts.

We would therefore recommend the adoption of the following resolutions instructing the Board of Public Works to contract with the lowest responsible bidder for each section of the work to repave said avenue in accordance with the plans and specifications requiring the use of wood and the stone now in use for repaving the gutters.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted, and Ald. Dorr offered the following resolutions, all of which were objected to and laid over:

Resolved, That the Board of Public Works be directed to contract with Edgar S. De Golyer for repaving Michigan avenue from Woodward avenue to the west line of Forsyth farm, with cedar block pavement in the center, and with stone (to be selected from that now on the street) pavement on the sides, he being the lowest bidder therefor, provided he files a satisfactory bond for the performance of the work, otherwise with the next lowest bidder.

By Ald. Dorr:

Resolved, That the Board of Public Works be directed to contract with Edgar S. De Golyer for repaving Michigan avenue from the west line of Forsyth farm to the west line of Seventh street, with cedar block pavement in the center, and with stone (to be selected from the stone now on the street) pavement on the sides, he being the lowest bidder therefor, provided he files a satisfactory bond for the performance of the work, otherwise to the next lowest bidder.

By Ald. Dorr:

Resolved, That the Board of Public Works be directed to contract with Edgar S. De Golyer for repaving Michigan avenue from the west line of Seventh street to the east curb line of Trumbull avenue, with cedar block pavement in the center, and with stone (to be selected from the stone on the street) pavement on the sides, he being the lowest bidder therefor, provided he files a satisfactory bond for the performance of the work, otherwise to the next lowest bidder.

By Ald. Dorr:

Resolved, That the Board of Public Works be directed to contract with Edgar S. De Golyer for repaving Michigan avenue from the east curb line of Trumbull avenue to Thirteenth-and-a-half street, with cedar block pavement in the center, and with stone pavement (the stone to be selected from that now on the street) on the sides, he being the lowest bidder therefor, provided he files a satisfactory bond for the performance of the work, otherwise to the next lowest bidder.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of the Detroit City Railway Company, praying that permission might be granted said company to extend its privilege of laying a double track in Michigan avenue from the present terminus of such privilege at Sixth street to Trumbull avenue, would respectfully report that we would recommend the granting of the permission desired under like conditions imposed on the petitioners in the ordinance of 1875, entitled "An ordinance authorizing the Detroit City Railway Company to maintain a double track on Michigan avenue from Woodward avenue to Sixth street."

We would further recommend that the City At-

torney be instructed to transmit the proper ordinance.

Respectfully submitted,
GEORGE DORR,
JACOB GUTHARD.

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits have examined the petition of Rebecca Webb, No. 192 Congress street east, and ascertain that she wishes to change and remodel her premises so as to improve their appearance and make it desirable for occupation as a residence. The change will materially improve the appearance of the premises, and we would recommend that in view of the enlarged size of the building she be permitted to make the improvement on condition that she constructs brick walls across the front and on both sides and rear thereof, for the purpose of affording protection to the adjacent property.

Respectfully submitted,
JACOB GUTHARD,
PAUL GIES.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—I have the honor to transmit herewith the reply of the Mutual Gas Light Company to a note from this office, in reference to the contract for supplying the street lamps with illuminating gas.

Very respectfully.

E. I. GARFIELD,
Controller.

The following is the reply:

OFFICE MUTUAL GAS LIGHT COMPANY. {
DETROIT, Aug. 10, 1876. }

Hon. E. I. Garfield, City Controller:

DEAR SIR—In reply to your inquiry of 9th inst. asking the approval or dissent of this Company to the resolution of Ald. Finnegan, as amended by Ald. Heames, I beg to say that the Company will not dissent to any modification of its proposals that will not increase its expense by complying therewith.

The chief item of expense in changing the lamp post connections, is that of digging and refilling trenches for services; replacing pavements, etc. I think complying with the resolutions named would increase the amount of this work much more than the cost of all the pipe necessary under our proposition.

I suppose the object of the proposed modification is to so connect the posts that in future either company may supply them at the least possible expense for changing connections.

The amendment of Ald. Heames if carried out, would still make some digging necessary in order to change from one company to the other; but if a new and complete service were put in by this company from its main to the burner of each post it connects; then in future a change from one company to the other would involve only the changing of the burners from one pipe to another: which could be accomplished as well at one season of the year as another, while by other methods the changes could not be made in the winter if changes were desired in that season. The connections now in use (with the other company's mains) belong to the city and have been paid for by it, at the rate of 50c per foot for pipe and 30c each for bends. This charge was intended to cover cost of digging labor, etc., as well as material. Now, if the Council desire such complete and separate connection as I have suggested, so that any future change from one company to the other will involve simply the changing of the burners, we will, in view of the fact that we have proposed to do much for nothing, so make them, at one-half the price the city has heretofore paid, to-wit: for pipe used 15c per foot, and for bends 15c each. The said rates to cover all expense to the city;

and the city to own the connections entire when made. There are a few exceptions to note. All such places as have a number of street lights supplied by one and the same service, (for instance the lights surrounding the soldiers' monument, and those surrounding the City Hall enclosure and perhaps others in some of the parks or squares) in all such cases I would simply connect with the supply pipe now in use at least possible expense, and that at the cost of the company

Very respectfully.

WM. H. FITCH, Jr.,

President.

Accepted, and referred to the Committee on Gas Lights

FROM THE BOARD OF HEALTH.

To the Honorable the Common Council:

GENTLEMEN—The following communication from the President of the Board was referred to your honorable body for your consideration.

Respectfully submitted.

CHAS. H. BORGMAN,

Secretary.

Accepted and referred to the Committee on Health.

The following is the communication:

DETROIT, August 1, 1876

To the Honorable the Board of Health:

GENTLEMEN—The loathsome disease small-pox having disappeared, let us sum up and see what we have learned to prevent a return of such a scourge. The late visitation has taught us that isolation and perfect vaccination can keep this disease in check. I wish especially to call your attention to the latter. Many people are opposed to vaccination, claiming that it offers no protection in all cases (and citing instances), and furthermore that most loathsome diseases can be transmitted from child to child. What can we say against the objections? First, that vaccination is generally done during an epidemic when vaccine virus is in great demand, and if a good virus cannot be obtained unscrupulous physicians use a poor quality, and the result is insufficient protection. Therefore vaccination should be done before an epidemic makes its appearance, when it can be done at leisure and good virus can be obtained. The second objection we cannot deny, but we can prevent diseases from being transmitted from child to child by vaccination by simply not using such virus. By using only genuine cowpox virus direct from a healthy heifer, transmitted from a case of so-called spontaneous cowpox from heifer to heifer, I firmly believe that this virus offers a perfect protection against small-pox, as perfect as an attack of the disease against a second attack. Considering the large number of cases of small-pox (varioid) where the person had been vaccinated with humanized virus, has firmly convinced me that virus transmitted from child to child loses its efficacy and offers but little protection, not taking into account the different diseases that may be implanted with virus that has passed through 50 or 100 persons.

For a number of years I have been in the habit of vaccinating annually a number of heifers in order to have pure cowpox, animal or as it is sometimes called bovine virus and have used no other, but it is a great trouble and does not pay, except in the consciousness of having a good and pure virus. I would suggest that the "Health Officer" (and I fervently hope that in the revision of the city Charter provision will be made for such an officer) be required to vaccinate a heifer at stated intervals, and keep on hand a supply of reliable cowpox virus. This he can sell at a reasonable rate to physicians.

But as there are some physicians, I am sorry to say, that claim they used animal virus when they use the humanized, it should be made unlawful and punishable by a heavy fine to use any but animal virus, except in cases of most urgent necessity.

The only objection to cowpox virus is that it does not take so readily, and three or four times a person must be vaccinated in some cases before the disease runs its regular course.

We may sum up as follows:

First—Vaccination should be done when there exists no epidemic.

Second—Only genuine "cowpox virus" should be used.

Third—It should be made unlawful to use humanized virus.

All of which is respectfully submitted,

J. H. CARSTENS, M. D.,
President of the Board of Health.
FROM THE CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 12th inst., and the same were approved on the 14th inst.

REPORTS OF COMMITTEES.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Your Committee on Claims and Accounts, to whom was referred the claim of John Happe and Robert Merrill for constructing a fence around Linden Park, would respectfully report that we have examined the same and find the following state of facts: Your honorable body directed the Board of Public Works to advertise for proposals for the construction of said fence, and in response to said advertisement was received the proposal of said Happe & Merrill, whose bid was the lowest, and to them was awarded the contract. The work was performed by them in good faith and strictly in accordance with the contract. Their claim bears the endorsement of the Board as correct. Your committee are aware that there is some question as to the legality of paying this claim, but this question was not raised until this contract was let. We suggest that no further contracts for the improvement of Linden Park be made until the Legislature enact such legislation as will make the letting of such contracts beyond a doubt lawful. As to the present claim we recommend that it be paid, as equity and justice require.

We therefore ask the adoption of the annexed resolution.

JACOB GUTHARD.

Resolved, That the Controller be and he is hereby directed to draw his warrant on the proper fund in favor of John Happe and Robert Merrill, the same being for pay for constructing a fence around Linden Park.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Glee, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Wilks and the President.—30.

Nays—None.

McVittie and others, representing that the bridge over the Detroit and Milwaukee Railroad track, on Congress street east, is in a bad state of repair, and praying that the same might be put in good condition, would respectfully report that they have examined into the matter and would recommend that the Board of Public Works be instructed to advertise for proposals to repair the same and to so remodel the sides of said bridge as to make those portions used by pedestrians more easy of access and less an obstruction than at present.

Your committee would also recommend the adoption of the following resolution.

Respectfully submitted.

GEORGE DORR.

JACOB GUTHARD.

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of J. E. Brewster, reports that he wishes to repair a shed in rear of premises corner of Woodward avenue and Columbia street, and place a gravel roof thereon. We would recommend that he be allowed to so repair on condition that he does not exceed the limits as set forth in his petition. Also on the petition of Lewis & Sykes, who wish to construct a shed 12x30 feet on a vacant lot on Grand River avenue, we report adversely thereto, as the construction of a building of those dimensions would add largely to the fire risk in that locality.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the instruc-
tions of your honorable body I herewith transmit
an ordinance amendatory of the ordinance relative
to the division of the Sixth ward into two election
districts

Respectfully submitted,

WILLIAM C. MAYBURY.

City Attorney.

By W. J. CRAIG.

Accepted, and the ordinance was read twice by
title, as follows: "An ordinance to amend sec-
tions 2 and 3 of an ordinance, approved Decem-
ber 23d, 1875, entitled 'An ordinance dividing the
Sixth and Eleventh wards of the city of Detroit
into two election districts each'."

Laid upon the table and ordered printed in the
journal.

AN ORDINANCE

To amend sections 2 and 3 of an ordinance, ap-
proved December 23d, 1875, entitled, "An
ordinance dividing the Sixth and Eleventh
wards of the city of Detroit into two election
districts each."

It is hereby ordained by the Common Council of
the City of Detroit:

SECTION 1. That sections 2 and 3 of an ordi-
nance, approved December 23d, 1875, entitled,
"An ordinance dividing the Sixth and Eleventh
wards of the city of Detroit into two election
districts each," be and the same are hereby
amended so as to read as follows:

Sec. 2. The first election district of the Sixth

ward shall comprise all that portion thereof
bounded as follows: Beginning at the intersec-
tion of the northerly boundary line of the city
and the center line of Woodward avenue, and
running thence southerly along said center line to
the intersection of the southerly boundary line
of said ward; thence along said last mentioned
line to the center line of Brush street; thence
northerly along said last mentioned line to the
center line of High street; thence along said last
mentioned line westerly to the center line of John
R. street; thence northerly along said last men-
tioned line, and the same extended to the north-
erly boundary line of the city, and thence west-
erly along said boundary line to the place of be-
ginning.

Sec. 3. The second election district of the Sixth
ward shall comprise all that portion thereof
bounded as follows: Beginning at the intersec-
tion of the center line of Gratiot avenue and Brush
street, and running thence northerly along the
center line of Brush street to the center line of
High street; thence westerly along said last men-
tioned line to the center line of John R. street;
thence northerly along said last mentioned line,
and the same extended to the northerly boundary
line of the city; thence easterly
along said last mentioned line to the
northeast corner of the Sixth ward;
thence southerly and easterly along the easterly
boundary line of said Sixth Ward to the center
line of Gratiot avenue; and thence southerly
along said last mentioned line to the place of be-
ginning.

Sec. 3. This ordinance shall take effect on the
first day of October, 1876.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to
whom was referred the petition of Peter Vermaulen
and others remonstrating against paving Chene
street, between Jefferson and Clinton avenues,
unless the pavement is extended to Gratiot ave-
nue report:

The streets and alleys intersecting with Chene
street are quite numerous, thereby adding mate-
rially to the city's portion of the expense for
paving said street. Between Clinton and Gratiot
avenues there are twelve streets and alleys inter-
secting Chene street. The cost to the city for
paving the intersections would be equal to one-
quarter of the whole amount for paving said street.
This amount would undoubtedly exceed the bal-
ance in the General Road Fund apportioned for
such purposes, and inasmuch as the public will
not suffer any inconvenience by delay, the board
recommend that so much of the prayer of the pe-
titioners as relates to the extension of said pave-
ment be denied.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted and the recommendations were con-
curred in.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to
whom was referred the petition of Henri Robinet
and others representing 2,627 feet on Prospect
street, between Gratiot avenue and Grove street,
remonstrating against paving said street, report:

The blocks on said street are just 110 feet apart,
and two lots, except in one or two instances, con-
stitute a block for assessment purposes. These
lots at 31x125 feet, and the greater number of feet
are assessable for the cost of this improvement,
thereby leaving the whole burden of the cost on
the few who are so unfortunate as to own lots on
said street. In recommending this improvement
the board did not consider this fact, and inasmuch
as this extraordinary tax will doubtless distress
many property owners on said street, it is recom-
mended that the prayer of the petitioners be
granted, and further action in the premises inde-
finitely postponed.

Very respectfully,

ALEX. CHAPOTON,

President.

Accepted and concurred in.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In reply to a notice from this office the following proposals were this day received for constructing

directed to contract with Daniel Sullivan No. 1 for constructing lateral sewers Nos. 55, 60, 61, 63 and 64; with Ferdinand Porath for constructing lateral sewers Nos. 59 and 65; and with Messrs. Wagner & Detloff for No. 62, they being the lowest bidders for said sewers.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of F. M. Henning, to be relieved from an assessment on the south half of lot 1, C. Moran farm, for constructing a lateral sewer in the alley between Hastings and Antoine streets and Division and Alfred streets, for the reason that his portion of the lot does not abut on the alley, report:

The lot occupied by the petitioner is leased and has not been subdivided, consequently is not legally entitled to exemption from the assessment for constructing said sewer. If the petitioner derives no benefit from said sewer, as represented, he has his remedy against the owner of the lot. The board therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted and concurred in.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works respectfully recommend that Croghan street be paved with cedar block pavement, from the east curb line of St. Aubin avenue to the west line of Elmwood avenue.

Croghan street is now paved to St. Aubin avenue, and to relieve Clinton avenue from part of the travel thereon, it is deemed advisable to extend the paving on said street to Elmwood avenue.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted and by unanimous consent Ald. Dorr offered the following:

Resolved, That Croghan street be and the same is hereby ordered to be graded and paved from the east curb line of St. Aubin avenue to the west line of Elmwood avenue, and that said street within said limits be paved with cedar block pavement 32 feet wide, according to the specifications adopted by the Common Council and the estimates of the City Engineer; and it is hereby declared that this action is taken under that clause of the City Charter authorizing the Common Council to appropriate \$300,000 annually without the petition of a majority of the property owners asking therefor.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on Croghan street from the east curb line of St. Aubin avenue to the west line of Elmwood avenue, the lots and parcels of real estate situated on said Croghan street embraced within said limits and fronting the portion of said street ordered to be improved by said grading and paving, shall be and the same are hereby constituted and declared to be one local assessment district.

1. The quantity of all grading, paving and other work on said Croghan street within the limits ordered to be graded and paved, excepting those portions of the intersection of cross streets and alleys.
2. The quantity of all grading and paving of each portion of said Croghan street included and embraced within the lines of intersection of the cross streets and alleys with said Croghan street.
3. The quantity of all cross-walks at each later-

section of said Croghan street with the cross streets and alleys.

Resolved, That payment for the construction of said pavement and assessment to secure the same shall be according to the provisions of the amendment to the city charter, approved April 17th, 1871, permitting the issue of bonds to an amount not exceeding three-quarters of the cost of paving said street as estimated and assessed.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits would report upon the petition of Magnus Butzel, referred to them at the last session, as follows: He wishes to elevate the roof of his carriage shed and slightly enlarge the dimensions of the same. The change will have no bearing on the fire risk and is of the most trivial character, and we report favorably thereto. F. X. Monnier, No. 63 Congress street east, wishes to erect a platform twelve feet high in front of his premises, the walls of which are standing and are constructed of brick. We recommend he be allowed to lay rafters across and over the same provided he will construct an additional wall on the west side of brick material, believing the fire risk will not thereby be increased.

Very respectfully,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and concurred in.

FROM THE CITY COLLECTOR.

To the Honorable the Common Council:

GENTLEMEN—I beg to call your attention to the condition of the ordinance relative to the refunding of money to parties who may have been over-assessed or reassessed for special purposes or local improvements. As at present enforced many cases of hardship and inconvenience result therefrom and is the source of much dissatisfaction and complaint from many citizens. Many unavoidable errors occur in assessment rolls, through no fault of the surveyor, by parties neglecting to properly record any subdivision of their property or premises, and thereby double and even treble the work of collecting the said assessments, and great dissatisfaction is expressed by tax-payers at what they consider an unjust or double assessment. When re-assessment and refunding rolls are prepared under the present system, parties are compelled to wait a year and frequently much longer before their money is returned to them, to which they strongly object, believing they should not be compelled to suffer this hardship through the negligence of others. If the ordinance could be so modified that their money should be refunded on payment of their reassessment, it would undoubtedly meet the requirements of the case.

Very respectfully,

WM. H. CHRISTIAN,
City Collector.

Referred to the Committee on Ordinances and Attorney.

FROM THE ENGINEER.

To the Honorable the Common Council:

FROM THE SUPERINTENDENT OF THE METROPOLITAN POLICE.

To the Honorable the Common Council:

GENTLEMEN—I herewith transmit for your con-

63

sideration a report made to me by Roundsman W. H. Baxter, in charge of the sanitary force.

Very respectfully, etc.,
A. J. ROGERS,
Superintendent.

A. J. Rogers, Superintendent:

SIR—The lots situated on either side of Fort street, between Orleans and Dequindre streets, are sadly in need of suitable drainage. An old box drain, which has been used for a number of years, has served to conduct all the waste water, etc., to the sewer in Orleans street, but it has now rotted and become useless for any purposes and, as a result, all the drains leading thereto are filled with filth from the neighboring privy vaults. So great in fact is the accumulation of this offensive material that it is being forced into all the cellars, and the health of the neighborhood is being seriously affected. I suggest that this matter be submitted to the attention of the Common Council in order that a proper drain may be immediately constructed.

Very respectfully,
WM. H. BAXTER,

Roundsman,

In charge of Sanitary Patrol.

Referred to the Board of Public Works.

COMMUNICATION.

To the Honorable the Common Council:

Your petitioner, Charles Ewers, one of the Aldermen of the Second Ward, respectfully represents that on the 4th day of August, 1876, George W. Herrick presented a complaint to your honorable body, charging your petitioner with certain crimes against the election laws of this State; that in accordance with the prayer of said complaint your honorable body appointed a special committee to investigate the truthfulness of said charges and to report thereon to the Common Council; and that said committee is about to proceed with such investigation.

Your petitioner further represents that said George W. Herrick does not claim or allege that your petitioner did not receive a majority of the legal votes cast at the special election held in the Second Ward on the 25th day of July last; and the said Herrick, or your petitioner's opponent in said election does not in any manner contest your petitioner's election. Neither is it claimed or alleged that your petitioner has been guilty of any corrupt or willful malfeasance or misfeasance in office or of any willful neglect of the duties of his office, and therefore, the proceeding is not one to expel a member for misconduct in office, but is merely a criminal accusation over which the Common Council has no jurisdiction whatever under the City Charter or the laws of the State.

Your petitioner is not unmindful of the public reasons which actuated the Common Council in ordering this investigation, but would call your attention to the fact that the inquiry is not directed towards the general subject of the fairness and legality of said special election and simply relates to certain criminal charges against your petitioner of which the courts alone can take cognizance. I am ready to meet any charges that may be made against me in a proper tribunal but object to being tried or investigated before a committee or body that has no jurisdiction, cannot compel the attendance of witnesses, and where the witnesses against me would not be guilty of perjury in case they testified falsely.

It places me at the mercy of irresponsible and disreputable parties, and with no weapon for my own protection or that of the public.

It seems to be a cunningly devised plan by which my opponents, without any danger to themselves, may spread their evidence upon the records of the Council and without giving me an opportunity to introduce any testimony as to their conduct in said election.

In view of these facts your petitioner, under the advice of counsel, and for the protection of his rights as a citizen and an Alderman, objects to the jurisdiction of the Common Council and prays that a resolution may be passed directing said

committee to proceed no further with the investigation.

CHARLES EWERS.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the petition of Christian Laport, setting forth that on or about the 6th of July, 1874, he was arrested and confined in the Wayne County Asylum for the Insane for a period of five months, and that while detained there by sickness he was deprived of all his household goods and furniture, but by whom the peti-

tioner does not know, and he now asks that such action might be taken by this Council as will enable him to recover his property.

Your committee feel for Mr. Laport in his misfortune, and believe he will have the sincere sympathy of all who become conversant with his case, but inasmuch as it is not the province of this Council to interfere in such matters, we would respectfully recommend that the petitioner be referred to the legal tribunals for redress.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means to whom was referred the liquor bond of Nicholas Deischneider, formerly doing business on Michigan avenue, would respectfully report that they have examined the same, and that since the bond was signed by Mr. Deischneider, he has removed from Michigan avenue to Fort street, by his so doing the bond has become of no effect, we would therefore recommend that the same be returned to him and that he be required to file a new bond immediately.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 22d of August, 1876, would respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

Respectfully submitted,

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan and the President.—20.

Nays—None.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The petition of Michael Lanningger to repair and rebuild in a more substantial manner a small summer kitchen at No. 201 St. Aubin avenue. We have examined and recommend he be allowed to effect the change, as the dimensions of the building will not be enlarged. Also the petition of Isaac Tahasle, No. 115 St. Aubin avenue, who wishes to remove his cottage a distance of 24 feet, from its present location immediately adjoining his blacksmith shop. The change is desirable in several respects, especially as the fire risk will be decreased thereby, and we recommend he be allowed to proceed.

Very respectfully,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

SEWERS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Sewers, to whom was referred the petition of Englebert Feltman for an abatement of sewer assessment on his lot, report that in constructing this sewer it was not intended to extend the same beyond the line of the alley, but at the earnest solicitation of the petitioner the Board of Public Works extended the same five feet for his sole accommodation, thereby affording him means to connect his premises therewith without trespassing upon the premises of his neighbor. Should the neighbor revoke the permission granted, there is no good reason for being deprived of drainage, for the sewer hav-

ing been extended beyond the line of his lot, he can, if he will, connect therewith.

The committee therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

JACOB GUTHARD,
M. HALLER.
GEORGE DORR.

Accepted and adopted.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of George Young, asking to be refunded the sum of \$31.55 claiming the same to have been illegally collected from him as taxes on the west half of lot No. 135 Clinton street, respectfully report: We find that in 1859 this lot with No. 134 was sold for the taxes of 1857, and in 1861 they were again sold for the taxes of 1859 and 1860—the city being the fore-closer. In 1861 the lot was sold to J. G. Green, the city assigning her entire interest in the same, but for some unexplained reason the tax sale of 1857 was not cancelled. Your committee are of the opinion that the tax sale of 1857 was illegal, and also that the assignment, subsequently, cancelled all claims that the city had against the property. We would therefore recommend the adoption of the following resolution.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be and is hereby directed to draw his warrant on the proper fund in favor of George J. Young for the sum of \$31.55 upon the presentation of his receipt showing that he has paid the amount to the City Treasurer.

Accepted, and Ald. Guthard offered the following:

Resolved, That the Board of Public Works be directed to contract with Henry Collins for extending Case avenue sewer from the north line of the Holden road to a point 1,300 feet north, he being the lowest bidder therefor.

Adopted as follows:

Yeas—Ald. Bledgett, Christian, Dorr, Dunlap, Finney, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kuriz, Liggett, Mitchell, Owen, Bouland, Schmitt, Shanahan, Wilkes, and the President—30.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of August Kolb

and others for laying the gas mains in Croghan street between St. Aubin avenue and Chene street, preparatory to paving the same, report on the above petition there are the signatures of eighteen parties occupying buildings on said street who agree to use the gas as soon as the mains are laid. The whole distance which the petitioners pray to have the gas main laid is 975 feet, and as the ordinance requires but one applicant for such purposes to each 100 feet, it will be seen that the applicants exceed that number by nearly one-half. This street is about to be paved, and it is highly important that before paving the same the gas mains should be laid, and as a requisite number have petitioned therefor, the board recommend that the Common Council direct the Mutual Gas Light Company to extend their mains on said street as petitioned for; also that lamp-posts be ordered to be placed on the northeast and southwest corners of Croghan and Dubois streets; in the center of the block on the north side of Croghan street between St. Aubin avenue and Dubois streets and on the north and south sides of said street between Dubois and Chene streets.

Respectfully submitted,

ALEX. CHAPOTON,

President

Accepted, and Ald. Ronland offered the following:

Resolved, That the Mutual Gas Light Company be and is hereby directed to lay the gas main in Croghan street, between St. Aubin avenue and Chene street, the same having been petitioned for by the number of applicants or occupants of buildings required by section 4 of the ordinance creating said company; also on the laying of said gas main, gas posts are hereby ordered to be placed as follows:

On the northeast and southwest corners of Croghan and Dubois streets.

In the center of the block on the north side of Croghan street, between St. Aubin avenue and Dubois street; and

On the north and south sides of said street between Dubois and Chene streets.

Objected to and laid over under the rules.

FROM THE SAME.

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Henry Steiner for extension of time for building sidewalk in front of his premises on Jefferson avenue, near Elmwood avenue, recommend that the prayer of the petitioner be denied.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the petition of Messrs. Edwin A. Candler & Co., asking an assignment of the bond of Eugene Robinson to the city to secure the payment of employees reports: That instead of assigning the bond, we think the petitioners should have leave to take a copy thereof and to commence a suit thereon, upon giving to the city an agreement to save the city harmless for all costs, charges and expenses which may arise by reason of such suit, and recommend the passage of a resolution, presented herewith:

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.
D. C. HOLBROOK,
City Counselor.

Resolved, That Messrs. E. A. Candler & Co. have leave to take a copy of the bond of Eugene Robinson as principal, and Jesse H. Farwell as surety, dated June 12th, 1876, given to secure the payment of employees for paving, and that said Candler & Co. have leave to commence a suit thereon on giving to the city an agreement to save it harmless from all costs, charges and expenses which may arise by reason of such suit.

Accepted and adopted.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Streets have examined the petition of M. J. Moynahan and others, property owners on Jefferson avenue be-

tween Cass and Second streets, and find the facts as set forth in their petition to be substantially true, viz.: That the repaving on said avenue within the said limits has not been completed. We believe they should not be compelled to pay taxes therefor until the paving is completed, and for this reason we recommend that the time for paying the tax for that purpose be postponed until the work shall have been performed.

Very respectfully,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Wm. Wade, praying that he might be permitted to erect a sign-post on the west side of Second street, at the alley between Larned street and Congress street, would respectfully report that we have had the same under consideration, and would recommend that the prayer of the petitioner be granted.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of the Board of Education asking to be relieved from the covenant of its lease of Center Park requiring said lessee to enclose the park with a suitable iron fence or railing, and to keep the same in repair, would respectfully report that we have given the matter a careful examination, and after taking all the facts into consideration we are of the opinion that inasmuch as the owners of property adjacent to said park are now in favor of the proposed improvement contemplated by the Board of Education, and as the expense of said improvements will be much less than that required by the lease, we would recommend the adoption of the following resolution.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD,
D. C. HOLBROOK.

City Counselor.

Resolved, That the City Counselor, the Board of Education consenting, report a change in the covenants of the lease by the city to said Board, by which it may be relieved from erecting and maintaining an iron fence around Center Park, and require the Board to lay and maintain under the direction of the Board of Public Works a stone sidewalk around said park, and cause the unoccupied part thereof to be ornamented and protected.

Laid on the table for one week.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of John Jakel to have an alleged erroneous tax refunded to him, would report thereon as follows: It appears that the petitioner paid in 1876 a tax on four feet of a lot adjoining his own and belonging to Mr. Wm. Schneider. If the petitioner chooses to pay a tax on property belonging to his neighbor this Common Council certainly cannot prevent him. It was his duty when he purchased the property to see that his number of feet front were properly entered in the Assessor's office. The city has received only the proper amount of tax on the number of feet, and if he has paid on his neighbor's lot he must look to him for the amount so paid. As the Duffield School property is assessed only on what the records show them to have, we see no way that the Council can relieve him, and do therefore report adversely to said petition.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of A. E. Bigelow for a reduction of the paving assessment of lots 35, 36 and 37, on the east side of Macomb avenue, being assessed for 123 feet front, whereas he claims to have only about 90 feet front, would respectfully report that from a certificate of the City Engineer it appears said lots have a nett frontage of 123 30-100 feet on said Macomb avenue. Such being the case we would report adversely to the prayer of your petitioner.

All of which is respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Thos. Payne, to have Mrs. Eichbauer relieved from a tax on a \$7,000 mortgage, which was discharged in July last, would respectfully report that if said mortgage was not discharged until July last, there can be no relief, as the taxes become due in July, 1876. Having been discharged from the records, the assessor will omit the assessment for the coming year, without petition. We report adversely to any relief at the present time.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes to whom was referred the petition of Martin Lalley to have a paving tax of \$74 04 paid by him for the paving of a portion of Michigan avenue in 1868, would respectfully report as follows: The roll No. 814 on which Mr. Lalley was assessed, was made out in conformity to the paving law then in existence, which gave to the surveyor the duty of making out the assessment district; said roll was properly advertised on October 8th, and finally confirmed by the Council, October 18th, 1868, no objection thereto having been presented to the Council; neither was there any protest against the payment so far as your committee has been able to discover; the lots he mentions do not front on Michigan avenue, but on the west side of Thirteenth street. By the paving law then in force they assessed the lots on each cross street for a half or two-thirds of a block adjacent to the street paved, and under that law as then existing, all paving assessments, including the one in question, were made and collected; there being no difference between this assessment and all other assessments made at that time, your committee report adversely to the prayer of the petitioner.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

FROM THE SUPERINTENDENT OF THE METROPOLITAN POLICE.

To the Honorable the Common Council:

GENTLEMEN—I have the honor to submit for your consideration the following report, made to me by Roundsman W. H. Baxter, in reference to the petition to your Honorable body, relative to the emptying of drips from gas pipes into the Orleans sewer.

Respectfully, etc.,

A. J. ROGERS,
Superintendent of Police.

A. J. Rogers, Esq., Superintendent:

SIR—As directed by you I have the honor to report as follows concerning the subject-matter of a petition sent to the Common Council by John Keno and others and referred to this department:

The petitioners complain that "the drip-water from the gas mains, which is daily poured into the Orleans street sewer, causes a nuisance injurious to the health of the neighborhood."

Some time since I discovered that the drip-water from gas mains in the neighborhood above referred to, was being poured into the open box drains on either side of the Detroit and Milwaukee Railroad track, and that the residents in the vicinity were greatly affected by the smell arising therefrom. I at once directed the persons pumping the water to comply with the provisions of section 1, chapter 73 of the Revised Ordinances, which reads as follows:

"All fluids pumped or taken from any of the gas pipes within said city shall be pumped or conveyed through a hose, or other proper conductor, directly into some public sewer, or in lieu thereof to be conveyed in a vessel, closely and securely covered, to some public sewer, and the contents emptied therein."

Since then the gaseous fluids have been emptied, as required by the above ordinance, into the nearest public sewer, which is in Orleans street. Some times they have been poured into the sewer at Jefferson avenue, and at other times at points below, but always with the same results, viz: a strong and unpleasant smell of gas. If the Common Council deems it improper to empty these fluids into the public sewers the difficulty can be remedied by amending the ordinance so as to provide some other remedy.

Very respectfully,

WM. H. BAXTER.

Roundsman in charge of Sanitary Patrol.

Referred to the Committee on Ordinances

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of John Aberle, representing that on the 1st day of August, 1876, he paid the city \$13 49, this amount being assessed on lot 351, Crane and Wesson's section of A. Beaubien farm, on the east side of St. Antoine street, for a sidewalk that was never built, and praying that the same be refunded, report:

On examination the committee find this matter to be somewhat complicated. The contractor for building sidewalks asseverating that he actually constructed said sidewalk in the year 1872, while on the other hand the petitioner and property owners in the immediate vicinity assert that no walk was ever built in front of said lot. Under these circumstances it is difficult for the committee to arrive at a satisfactory conclusion, and recommend that the whole subject matter be referred to the Board of Public Works for such action as will be for the interest of all concerned.

Very respectfully,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

FROM THE COUNSELOR AND ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the resolution of your honorable body requiring an opinion as to the jurisdiction of the Common Council to proceed in the matter of the investigation of charges preferred against Charles Ewers—a member of the Council—of aiding his election by bribery and corrupt means, would respectfully report as follows:

The Common Council, like all other legislative bodies, has a legal right to discipline its own members, and the City Charter abundantly provides for the investigation and punishment of malfeasance or misfeasance on the part of members of the Common Council or other city officers. The power of the Council then to discipline its own members, being derived from the charter—and from no other source—to the charter we must look for the extent of this power as to where it begins and where it ceases to exist. By reference to the charter we find the following sections furnish all the information to be had pertinent to our inquiry:

Section 13, page 18, of the charter specifies the various acts, the committing of either of which, shall constitute a malfeasance on the part of the member of the Council offending. All of the acts specified, however, are those which can only occur after the accused has qualified as a member of the Council.

Section 11, page 17, of the charter, provides that no member of the Common Council shall, during his term of office, become interested in any contract, etc., to which the city is a party in interest, under penalty of removal from office.

Section 19, page 20 of the charter, provides for the removal from office of any member of the Council, or other elective officer who shall be guilty of wilful malfeasance or misfeasance in office, and sets forth the procedure in such cases.

Section 21, page 21 of the charter, provides for the temporary suspension of any member of the Council or other elective officer, except the Recorder, pending the investigation of charges made against such member or officer. In all the sections cited these facts are clearly apparent, or no less forcibly implied, viz: that the acts for which a member of the Common Council may be disciplined, and of which the Council may take cognizance are those acts only which are committed by the accused while in office, and which constitute a wilful malfeasance or misfeasance therein; that the accused becomes amenable to the Common Council when he qualifies as a member thereof; that he ceases to be amenable to the Council when his term of office expires. That no acts of commission or omission occurring prior to his qualification as a member of the Council can, under the charter, become a legitimate subject of inquiry by this Council. The object and wisdom of this rule limiting the power of a legislative body over its members, will need no explanation or apology. It is claimed, and urged, that the Common Council has jurisdiction under the provisions of section 21, page 51 of the charter, which is as follows: "The chairman of any committee and the member of any board established by or under this act may administer oaths and take affidavits in respect to any matter pending before such committee or board," etc.

To authorize the acts and proceedings contemplated in this section two things precedent must exist, viz: There must be a matter pending before the committee, or, in other words, the Council, and the matter must be of such a nature that the Council can take cognizance of it. The section cited does not determine whether there is, or is not, a matter pending before the Council, nor does it determine the question of the jurisdiction thereof, but these precedent questions being decided, the section indicates the subsequent procedure to be had and nothing more. No action of the Common Council can limit or extend its jurisdiction which is conferred by charter, and not by its own act or volition. It is not, therefore, every matter which is made the subject of investigation by the Council that can be said to be, in the sense of the charter, a "matter pending before the committee" or Council.

It is clear that if any matter is before the Council, simply by its own act and volition, without coming properly within the scope of the authority conferred by the charter—then it is not in the sense of the section cited a matter pending before the Council. In the matter of the investigation under discussion, if no jurisdiction can be obtained, either of the person or the subject matter contained in the charges, then these results follow. The committee of your honorable body has no power to subpoena witnesses or compel their attendance. A witness attending and voluntarily taking the oath administered in such a case would not be guilty of the crime of perjury—the very essence of which crime is in law the fact that the oath is administered by one duly authorized to administer the same, and the tribunal one having jurisdiction of the matter under inquiry. Again the end of such an investigation will subserve no purpose, for no remedy can be applied. The facts when determined in such a procedure can be the basis of no judgment to be carried out and perfected by some action based thereon, which the examining body may

lawfully do. In view of the foregoing reasons and the provisions of the charter cited we are led to the following conclusions:

First—That the respondent Ewers was not a member of the Council at the time of the committing of the alleged acts of bribery and corruption and is not now amenable to the discipline of the Council for such acts.

Second—The acts charged are all precedent to his qualification as a member of the Council, and are not subject to investigation by the Council.

Third—If the charges were such as to affect not alone the personal character of the accused, but the legality of his election, this would have been a proper subject for inquiry at the time of his qualification.

Fourth—There is no charge against Ewers of malfeasance or misfeasance in office, nor of any act specified in the charter which would constitute the same. We do not understand the purpose of this investigation to be to contest the seat of Alderman Ewers as there is no resolution or inquiry requiring the committee to report on that subject. Nor do we express an opinion of the mode of procedure which would be admissible if such a result was sought.

City Counselor,

WILLIAM C. MAYBURY,

COMMUNICATION.

To the Honorable the Common Council:

GENTLEMEN—The Mutual Gas Light Company desires to re-assure your honorable body that it will in all instances and in all places lay its street mains whenever, and wherever the conditions of the ordinance under which it operates are complied with.

The resolution passed by your honorable body at its last session directing this company to lay main pipe in Croghan street between St. Anbia avenue and Ches. street, states as a reason for such order that the requisite number of applications for gas have been made. In this your honorable body are misinformed, by the words of the resolution, for in fact not one application has been made to the company for supply of gas in the entire territory described, and further, examination made by personal visitation to every house or dwelling in such territory no longer ago than Saturday afternoon, the 2d inst., revealed the fact that there is no one in the territory in condition to contract for supply of gas, nor any one who could designate the proper location of service pipe or pipes connecting the house with the street main, were such main now laid. There is not a gas fixture or other apparatus for using gas in the said territory, nor is there a house or room in its whole extent that was built or has been fitted up with the view of consuming gas. There is no one in the territory named in condition to apply (or contr ct) for immediate supply of gas; and, as before said, the company has not a single application (or contract) for supplying gas in the territory designated; under these circumstances the company decline to lay mains in it. There being no demand for gas from the company except that for six lamp-posts for the city. But in this connection, to avoid all possibility of being misunderstood the company repeats that upon application of the requisite number of house-holders prepared and ready to use gas, the company will contract with them to supply it, and if the same is in such season of the year as to

make the work practicable without extraordinary expense on account of weather or frost, the execution of the contract will not be long delayed. The company also submits at opinion that a paper addressed to the "Common Council" bearing a number of names, generally written in the same hand and often with pencil, without date, applying to the said Common Council for street lamps, and requesting that street mains be laid, because the street is about to be paved, without conditions of contract therewith, cannot be legitimately construed as an application by (or contract with) each of the several parties named to, or with the Mutual Gas Light Company. The company has in the past faithfully executed all and every one of its covenants with the city and the citizens, and hopes to remain in like manner faithful in the future. In behalf of the company.

Very respectfully, your obedient servant,
Wm H. FITCH, Jr., President.

Accepted and placed on file.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would most respectfully inform your honorable body that the Transit Railroad along the northerly line of Woodbridge street, authorized under an ordinance approved September 10th, 1875, has been constructed under the supervision of the Board of Public Works, according to the provisions of said ordinance, and within the time therein specified for its completion, and detail drawings of the same deposited with the City Engineer and City Clerk.

All of which is respectfully submitted.

D. M. RICHARDSON.

To the Honorable the Common Council of the City of Detroit:

GENTLEMEN—The undersigned property-owners along the line of Eighth street, between Woodbridge and Fort streets, would most respectfully petition your honorable body to cause Eighth street to be paved with round cedar blocks thirty feet in width; also to have stone curbs set.

Also to cause the receiving basins at the corners of Woodbridge and Eighth street so as to cause the crossings on Woodbridge street to conform to the line of the sidewalks on Woodbridge street. All of which is respectfully submitted.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets to whom was referred the petition of Edward C. Fitzpatrick praying that the word "poultry" in chapter 61, section 5, of the Revised Ordinances of 1871, be stricken out, would respectfully report as follows: The section referred to provides for the selling by weight or measure only of all meat, poultry and provisions of every kind sold in the public markets. In all other cases to which the section cited relates its operations appear to be satisfactory and just except in the matter of the sale of poultry as complained of by the petitioners. In the great majority of purchases made by parties selling poultry in the public markets

the fowls are bought alive, and it is impossible for the purchasers to tell what the weights of such fowls will be when dressed and exposed for sale at their stalls. For this reason they are often unable to judge whether the bargains they make are advantageous or not, and in many instances lose money. It often happens also that citizens buying poultry in the market wish to buy by the pair or dozen without reference to weight, and this privilege if granted would favor both buyer and seller.

In view of these facts your committee would recommend that the section of the ordinance referred to in the petition be so changed that parties may be allowed to sell poultry by the pair or in other manner than by weight—provided that should any purchaser desire poultry weighed—looking to a purchase thereof it should be the duty of the party selling to weigh the same.

And we would recommend that the City Attorney bring in the necessary amendment to the ordinance.

Respectfully submitted,

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Accepted and adopted.

COMMUNICATION.

To his honor the Mayor, the gentlemen of the Council Council, and the other city officers of Detroit:

GENTLEMEN—On the 16th day of August, 1812, Old Fort Shelby and Detroit were ingloriously surrendered to the public enemy by Gen. Hull.

The Fort and town remained in possession of the enemy for over thirteen months and till, on the 28th day of September, A. D., 1813, they were reoccupied by a detachment under the immediate direction of Gen. Macauley, in pursuance of the orders of Gen. Harrison, then at Sandwich, Upper Canada.

The Wayne County Pioneer Society have deemed it becoming that the anniversary of such re-occupation shall be publicly observed, and they have accordingly resolved to hold short public exercises, with music and public speaking, in Shelby street on the east side of Whitney's Opera House, that being a central position of old Fort Shelby, on the 28th day of September, 1876, to commence at precisely three o'clock in the afternoon of that day.

You are respectfully invited to be present and take part in the exercises on that occasion.

The citizens generally are also invited to take part in the proposed demonstration.

We would also ask that on that day the flags be raised on the City Hall and on other public buildings of the city.

We would also suggest that the Board of Public Works be directed to have a small stand erected for the occasion, and that the piece of the old flag staff of Fort Shelby, now in the possession of the Comptroller, be placed on the stand. A citizen will furnish a bust of the late Gen. Cass, to be placed on the flag staff.

All which is respectfully submitted.

Dated September 11, 1876.

LEVI BISHOP,

President Wayne county Pioneer Society.

SAMUEL ZUG, Secretary.

The invitation was accepted.

FROM THE CLERK.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Peter Rath, asking the refunding of \$12 36 for a tax twice levied and paid upon a mortgage of \$1,100, would respectfully report that we find, upon examination, that the facts are as set forth in the petition, and recommend the adoption of the annexed resolution.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be and is hereby directed to draw his warrant upon the Contingent Fund in favor of Peter Rath for the sum of \$12 36.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Ewers, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Owen, Rouland, Shanahan, Wilks, and the President—19.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of F. Endries, asking to be relieved from an erroneous paving assessment on Clinton street, would respectfully report as follows: Said Endries is the owner of the west half of lot 101, Mullett farm, on the north side of Clinton, near Rivard street. He is assessed for 34 feet front, when his actual frontage by measurement on said lot is but 21 feet. Your committee believe that he ought not to be assessed for more than his equitable share for the paving of said street, and do therefore report in favor of refunding to said petitioner the sum of \$8 85 when he shall have paid the full amount of his assessment on said lot.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller draw his warrant in favor of F. Endries for the sum of \$8 85 when satisfactory evidence shall be presented to him that all parts of the paving assessment against the west half of lot 101, Mullett farm, shall have been paid in full.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Ewers, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Owen, Rouland, Shanahan, Wilks and the President—19.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Taxes to whom was referred the petition of Adolph Maschl, complaining that there is a discrepancy between the tax of himself and neighbor, and asking that the same be corrected, would report that we have examined the same and find that said Maschl is assessed \$1 50 for cellar drainage as he ought to be, and that his neighbor is assessed but 50 cents for surface drainage as he ought to be, which makes the difference complained of. Your committee, therefore, report against the petition, and would remark that it is their opinion that persons coming to this Council with such petty and ill-grounded complaints deserve our condemnation.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the instructions of your honorable body I herewith submit an ordinance amending section 5, of chapter 61 of the Revised Ordinances of 1871, in accordance with the recommendation made by the Committee on Markets in a report presented at the last session of the Council.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Accepted, the ordinance placed upon its first and second readings by its title, laid on the table, and ordered printed in the proceedings.

The following is the ordinance:

AN ORDINANCE

To amend section 5, of Chapter 61, of the Revised Ordinances of 1871.

It is hereby ordained by the Common Council of the city of Detroit.

SECTION 1. That Section 5, of Chapter 61, of the Revised Ordinances of 1871, be, and the same is hereby amended so as to read as follows:

SECTION 5. All meat, poultry and provisions of every kind sold in the public markets, shall be weighed or measured by scales, weights, or patent balances, or in measures duly tested and stamped by the city Inspector of Weights and Measures; provided, that poultry may be offered for sale and sold in other manner than by weight, but in all cases where the party intending to purchase shall so desire and request, poultry shall be weighed as hereinbefore provided.

SEC. 2. This ordinance shall take immediate effect.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the direction of your honorable body referring to the undersigned the resolution of Ald. Dunlap, relative to the removal of obstructions in Washington avenue, with instructions to report the authority of the Common Council in the premises, I would respectfully submit as follows:

The subject matter of the reference seems to require an answer to two important inquiries, viz: First—The power of the Common Council to order the removal of obstructions from the streets, alleys and other public spaces of the city. Second—The proper application of the power of the Common Council by the terms of the resolution pending.

By reference to the city charter, subdivisions 18 and 24 of section 22, chapter 5, the Common Council is vested with ample authority to adopt the resolution under consideration, and the ordinances now in force provide the means of carrying such authority into effect.

As to the second inquiry, referring to the resolution without repeating the same in this connection, it embodies the substance of a notice to be served on property-owners in Washington avenue to remove obstructions from said avenue, such notice to be served by and through the agency of the Board of Public Works. The giving of the notice as contemplated, while not absolutely required by any provision of law, is yet judicious, and the medium of service through the agency of the Board is also proper. Although the purpose of the resolution is the giving of notice only, yet as future proceedings will be based thereon it may be well to examine the requirements of the notice as set forth in the resolution.

By its terms the resolution seeks the removal of obstructions from a portion of Washington ave-

nue, and grants a temporary exemption to obstructions of a certain kind and located in a certain part of said avenue.

While it is within the power of the Common Council to order the whole or any portion of a public street cleared of obstructions, and the resolution is proper to this extent, yet, in so far as it endeavors to grant a permanent or temporary exemption or right to maintain obstructions of any nature, and in any part of a public street, it is utterly without legality or force.

But while the resolution is without force to confer any authority to obstruct a public street, it may relieve such obstructions from the operations of the present notice and the proceedings to be had themselves. This would be the only effect that could be given to the portion of the resolution under discussion.

The exemption made in favor of trees, shrubbery, etc., is a proper exemption. These are not considered in the nature of obstructions in a public street or avenue, but rather as essential to its use and beauty.

I would recommend that before any action is taken by your honorable body in the matter of the resolution pending, some legislation should be had to modify or repeal Chapter 44 of the Revised Ordinances of 1871, under and by virtue of which many of the obstructions existing in Washington avenue were erected and maintained.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and placed on file.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works respectfully report that they are in receipt from the Fort Wayne and Elmwood Railway Company of an account amounting to \$405 81 for material furnished and labor performed in the repaving of Croghan street during the year 1874.

In presenting the account said railway company state that the bill (which they have not been ready to present until now) comes under the decision of the Supreme Court in the Fort street case.

Inasmuch as the board are in doubt as to the legality of the claim, they would therefore recommend that the matter be referred to the City Counselor.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Referred to the City Counselor.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the instructions of your honorable body, I submit the following opinion as the right of the Common Council, organized and sitting as a Board of Registration, to correct the published notice designating

a place in each ward or district of the city where registration should be held.

The case under consideration arises from the fact that the Common Council sitting as a Board of Registration, in designating the place in a certain district in the Seventh Ward where the Board should meet, has through an oversight designated a vacant house as the place, and given the name of a person not the owner or occupant thereof.

The publication of meeting has been made in the public papers and notices duly posted in the several wards and districts as required by them.

There does not remain sufficient time within which to correct the error and leave the time fixed by law for the publication of the first notice the required number of days before the first meeting of the Board of Registration.

What remedy can be applied in the premises?

It will be undisputed that the Common Council, organized and sitting as such, has no power in the matter, and is only designated in the law as the body, the members whereof shall constitute the Board of Registration for the city.

The correction then, if it can be made at all, must be made by the Common Council sitting as a Board of Registration, the body in whose proceedings the error appears.

If the Board of Registration was to be concluded by the letter of the law, without reference to its spirit, or intention, then it is plain that the amendment of the notice as desired could not be made, but I am clearly of the opinion that the correction can be made, for the following reasons:

First—The law requiring notice to be given to electors, like other provisions of a similar nature contained therein, is but a part of the machinery to be put in motion to effect the intention of the law, and is directory only.

Second—The intention of the law, as a whole, is to obtain a full and complete registration of electors, and any departure from the letter of the law, rendered imperative by circumstances to effect this intention, would be clearly justifiable.

Third—To hold any other doctrine than that last stated would be in effect to say that by a simple error in the proceedings of the Board of Registration the whole intention of the law could be frustrated and citizens disfranchised.

I would recommend that the Council, sitting as a Board of Registration, adopt a resolution setting out the facts rendering its action necessary, and instructing the Clerk to make the necessary correction in the notice.

Respectfully submitted.

WILLIAM C. MAYBURY,
City Attorney.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would respectfully call the attention of your honorable body to a defect in the ordinance regulating the use of steam whistles in the city of Detroit. The ordinance in question provides for a penalty which can only be recovered in a common law action of debt. The proceedings in such an action are expensive and the remedy slow. I can see no reason why this ordinance should not be enforced as other ordinances are by the process of complaint and the imposition of the usual fine and imprisonment.

Respectfully submitted.

WILLIAM C. MAYBURY,
City Attorney.

Accepted and the attorney instructed to bring in the necessary ordinance.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The petition of Fred. Feldman, referred to us for investigation, shows that he wishes to tear down an old shed and erect one a trifle larger and 10 feet higher, and place a composition roof thereon, at No. 603 Michigan avenue. In our judgment there will be no increased risk, and we report favorably thereto. Mr. J. E. Kimball, No. 695 Woodward avenue, desires to raise his house and repair his store there located. Parties residing in the vicinity seriously object to the change, and the fire risk would undoubtedly be increased. We report adversely thereto. On the petitions of John B. Chapman, Louis Kirch, Thomas Fletcher, and Edward Simonds, to construct barns and sheds, we would report adversely thereto, having invariably refused permission for such purposes.

Very respectfully,

JACOB GUTHARD,
 PAUL GIES,
 SEYMOUR FINNEY.

BOARD OF REGISTRATION.

On motion of Ald. Kurtz, the regular order of business was suspended and the Council resolved itself into a Board of Registration. Registrar Hough was elected president, and City Clerk Borgman clerk.

Registrar Kurtz offered the following:

Resolved, That the City Clerk be, and is hereby

directed to so correct the heading for the Registration List of the First District of the Seventh Ward, that instead of the name of "Philip Heeslacker" it shall read "John Hatzembuehler," and instead of "Russell & Fort" to read "Riopelle and Fort" streets; also to make the correction in the advertisement in the papers.

Registrar Gies offered the following as an amendment:

WHEREAS, In the proceedings of the Board of Registration for the city of Detroit at the session held in the chamber of the Common Council of said city on the 15th day of September, A. D. 1876, an error was made in designating the place for the meeting of the Registration Board in the First District of the Seventh Ward in said city, and notices with such erroneous designation have been published in the public papers, and posted in said district as required by law.

Now, therefore, for the purpose of amending such notice so far as it affects the district aforesaid, and to facilitate the registration of electors in said district, be it

Resolved, That the place of meeting of the Board of Registration in the First District of the Seventh Ward be and the same is hereby designated to be held at the southwest corner of Fort and Orleans streets, at the residence of Mr. Schwartz, and that the clerk be instructed to make the required correction in the notice.

Laid on the table.

The Board then adjourned and the Council resumed the regular order.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—I would respectfully call the attention of your honorable body to a defect in the ordinance, relative to the use of indecent and immoral language, which appears to conflict with the purposes of the ordinance and renders it in many cases valueless.

The ordinance as now drawn provides that in all cases the party to whom such indecent or immoral language is used shall be the complaining witness. There is by the terms of the ordinance an implied exclusion of any other person to institute the complaint. It frequently happens that persons are guilty of using language, in the public streets and conveyances of the city, offensive to decency and shocking to the public morals, but complaints are not made because the person to whom such language is directly addressed refuses to complain, and others who would make complaint are debarred of this privilege by the letter of the ordinance. It will not be denied that in many instances where the ordinance is violated, the person who in a public assemblage or conveyance is compelled to be an unwilling auditor of the language used, is as much offended, and as much entitled to protection from insult as the person to whom the offensive language is addressed. The end and aim of the ordinance is to protect the public decency and morals. This it does very inadequately as now in force and serves to gratify personal desires for revenge rather than to subserve its greater and more important purpose.

I would recommend that the ordinance in question be amended so as to permit the complaint to be made by any person present and hearing the indecent or immoral language used.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Accepted and the Attorney instructed to bring in the necessary ordinance.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Thomas H. Griffith and others for a public sewer in Michigan avenue, from Fifth street to Trumbull avenue, report:

On making a thorough examination of the facilities for drainage in the vicinity referred to by the petitioners, the Board is satisfied that there is good cause for complaint, but notwithstanding this fact (no provision having been made in the estimates for improvements of this nature, as required by the City Charter) cannot afford the relief sought. It is therefore recommended that further consideration of the matter be deferred until next year.

Respectfully submitted,

ALEX. CHAPOTON,
President

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Edward Eccard and others, and the petition of A. W. Weber and others for enlarging or extending the Russell street sewer on account of incapacity to carry off the water without flooding their cellars, report:

In 1853 a four foot cylindrical sewer was built in Russell street, from Larned to Fort street, and

from time to time a three foot cylindrical sewer has been added thereto until the same has been extended as far as Leland street. This sewer has no outlet, but is connected with the Rionelle street sewer, the outlet of which is of insufficient capacity to drain the immense quantity of water which must necessarily find its way in said sewer, consequently said sewer becomes choked up and causes an overflow of the cellars. Russell street, as it is now laid out, terminates at Jefferson avenue, thereby affording no means, except through private property, by which the Russell street sewer can be extended to the river, and must necessarily be connected with one of the sewers on either side of Russell street, Rivard street outlet from the river to Franklin street was enlarged and rebuilt in the year 1863, and it is the opinion of the board that by enlarging and extending said outlet from its present terminus to Fort street, on a grade of sufficient declivity to permit the water to run through the same without being obstructed, and connect Russell street sewer therewith, the cause of complaint, to a certain extent, would be removed. To make this extension it will cost from \$7,000 to \$9,000.

There is no doubt as to the necessity for this improvement, and were there no equal obstacles thereto the board would not hesitate in recommending the same for your favorable consideration. It is evident, from the capacity of the Russell street sewer, that it was not intended to extend the same to its present terminus, but on the other hand to terminate the same somewhere in the vicinity of Gratiot avenue; in which case it would have answered every purpose.

There being a doubt as to the legal authority of the city in making this improvement at this time, the board respectfully recommend that the subject matter be referred to the City Counselor with instructions to transmit his opinion to your honorable body as to the authority of the Common Council in the premises.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Referred to the City Counselor.

FROM THE SAME.

FROM THE FIRE COMMISSIONERS.

To the Honorable the Common Council:

GENTLEMEN—The Fire Commission, to whom was referred the communication of Messrs. Buhl, Ducharme & Co., remonstrating against the erection of wooden buildings on the dock at the foot of Cass street by Luther Beecher, would respectfully report that they have given the matter that careful consideration it deserves, and that in their opinion the sheds or buildings referred to are extremely dangerous to the property for several blocks in the adjacent vicinity, being so constructed as to render it unsafe, in the event of a fire, to place engines upon the dock, and making a labyrinth almost impossible for the firemen to penetrate in order to control a conflagration.

It need not be stated that this board have no legal power in the premises, except the right to express an opinion which has been before made known to your honorable body upon various occasions.

The Fire Marshal has been instructed to prosecute Mr. Beecher to the extent of the law for any violation of the ordinance that has been made.

This Board would beg leave to state, however, that heretofore in their earnest endeavors to bring to summary justice all violators of the law; whenever cases have been brought into court they have almost invariably been met with the judicial decision, that the ordinances covering these matters in our city are so defective that conviction under them is impossible.

It is to be hoped that this case will have the effect of demonstrating to your honorable body the pressing necessity for prompt action in adopting new ordinances and amendments in order to insure the enforcement of these measures which have so important a bearing upon the safety of our city from fire.

By direction of the Board.

Very respectfully,
FRED. H. SEYMOUR,
Secretary.

Referred to the Attorney.

FROM THE CLERK OF THE RECORDER'S COURT.

To the Honorable the Common Council:

Very respectfully,

A. I. McLEOD,
Clerk of the Recorder's Court.

COMMUNICATION.

MAYOR'S OFFICE,
BRUNSWICK, GA.,
September 25, 1876

The city authorities and the Brunswick Relief Association are compelled to appeal for aid to the public, because of the prevalence of pestilence in our midst. At present, about one-half of our population are down with yellow fever. In the ordinary course of events, this sore affliction will probably continue for several weeks. Business has been entirely suspended. The supply of provisions is exhausted, and unless aid is speedily obtained many will die from destitution and starvation and the need of articles absolutely necessary in such an epidemic. The people in this immediate section of country have come nobly to our relief, but are unable to supply all that is needed. In the name of humanity, we earnestly appeal to you for help. The suffering and want cannot be described. Any assistance in the way of money, provisions and supplies will be most thankfully received, properly applied and duly acknowledged. We feel confident you will cheerfully respond to our cry of distress, and that our wall of anguish will be changed to grateful invocations of heaven's blessings to rest and abide with you.

Assistance of any kind may be sent to T. E. Davenport, Mayor, or J. M. Dexter, President Brunswick Relief Association.

The lines of communication and transportation are requested to forward to us whatever may be contributed for our relief at such reduction as they may feel disposed to allow.

T. E. DAVENPORT,
Mayor of Brunswick.
J. M. DEXTER.

President Brunswick Relief Association.

Referred to the Committee on Ways and Means and the Mayor.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the communication of the Board of Public Works relative to extending the Russell street sewer reports, that by section 3 of chapter 2 of the charter the Council is prohibited from building or entering into any contract to build any public sewer not recommended to be built during the fiscal year by the Board of Public Works and included in the estimate for sewers, to be submitted to the Board of Estimates.

The sewer referred to in this communication was not included in the estimates of 1876, and there is no fund subject to the payment thereof.

The undersigned is therefore of the opinion that such sewer cannot be built this year.

Respectfully submitted,

D. C. HOLBROOK,
City Counselor.

Accepted and placed on file.

FROM THE SANE.

To the Honorable the Common Council:

GENTLEMEN—In the cases of Peter Hayden and Edward A. Elliot against the city and the contractors to prevent the repaving of Jefferson and Michigan avenues, I made a motion to dissolve

the injunctions restraining such repaving and collection of the assessments therefor, which motion was granted as to the work of repaving, but refused as to the collection of the assessment. The result of this is, should this decision be followed on other bills that might be filed, the contractors would not consider it safe to proceed with the work, and a final decision upon the question is desirable before the work is done.

The enjoining the collection of the assessments is in effect (in the opinion of the court) to hold the repavement either an excess of power or that property-holders should not be assessed for it; whereas, I contend that the necessity of repaving is to be determined by the judgment and discretion of the Council, and as to the assessing of property-owners for the expense, the charter expressly provides that it may be so done.

As proofs will have to be taken in the cases, and they cannot be prepared for the Supreme Court before the next January term, I suggest that the time for executing the contracts be extended until the first of August next.

Respectfully submitted,

D. C. HOLBROOK,

City Counselor.

Accepted and laid on the table for one session.

FROM THE ATTORNEY.

To the Honorable the Common Council.

GENTLEMEN—The undersigned, to whom was referred the resolution of Ald. Herrick directing that the obligations of the Mutual Gas Light Company to extend its mains in streets where such mains are petitioned for by citizens and ordered by the Common Council, may be defined, and the proceeding necessary to compel said company to abide by the conditions of the ordinance under which it operates, I would respectfully submit as follows: The Mutual Gas Light Company operates in the city of Detroit under and by virtue of an ordinance of the Common Council, approved November 28th, 1871. This ordinance, as is the case with all ordinances conferring certain rights and duties upon individuals or corporations, is in the nature of a contract, to which the Common Council, as representing the public, and the grantees are mutual parties. Each have certain privileges reserved, and certain duties to perform. Neither party can violate the letter or spirit of the contract without becoming amenable to such penalty as the law provides, or to such forfeiture as may be stipulated in the ordinance itself. Whatever then may be the relative and mutual rights and duties of the public and the company must be gathered from the terms of the ordinance and from no other source. By the provisions of section 4 of the ordinance referred to, which section is the only one pertinent to our present inquiry, it appears that the first duty of a citizen requiring a supply of gas for his residence is to petition therefor. The requisites for such petition are that the person petitioning should be the owner or occupant of the building for which a supply of gas is desired: that the petitioner or petitioners should represent buildings averaging at least two in every two hundred feet of main pipe required to supply the same; that the petition should be for a supply of gas, and not simply for the extension of mains. This petition when in form and properly executed is intended for presentation to the Common Council, as the Council acting on the facts therein contained, may in the exercise of its discretion, proceed to direct the company to lay mains in streets, where such mains are required, and also, contemporaneous with the laying of such mains, to order the usual proportion of lamp-post service.

With these proceedings the duty of the citizen and Common Council terminates, except so far as it becomes the further duty of the Council to see its directions carried out and obeyed. The duty of the company, when these precedent proceedings are at an end, is clearly to obey the orders of the Common Council within a reasonable time after such orders have been given.

As to the proceedings necessary to be instituted in the event of the company's neglect or refusal to comply with the terms of the ordinance and the orders of the Common Council in the prem-

ises, I would report that either of two methods may be pursued.

A mandamus will issue to compel the company to abide by the terms of its contract, if this is desired, or a bill in chancery may be filed to annul the ordinance and decree performance of the terms of forfeiture therein provided.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the instructions of your honorable body, I herewith submit ordinances as follows: An ordinance to amend the ordinance relative to the use of indecent and immoral language, and an ordinance to regulate the use of steam whistles in the city of Detroit.

FIRE LIMITS.

The premises are so slightly damaged that the ordinance, as at present constituted, cannot prohibit the repairing of the structure. The petition of Chas. Dubois to erect a frame dwelling at No. 128 Hastings street. We are informed he intends to occupy the same for the purposes of a shop, and as the locality is unsettled the fire risk would be correspondingly increased. We would recommend the prayer of the petitioner be denied.

Very respectfully,

JACOB GUTHARD,
PAUL GIBBS.

Accepted and adopted.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of R. M. Coon calling the attention of the Council to an alleged injustice done him by the Board of Public Works in the matter of filling in an excavation in the line of Leib street, would respectfully report as follows:

It appears that Mr. Coon obtained from the Board of Public Works a contract for doing a certain specified amount of work in grading Leib street; that when the contract was completed the board accepted the work done, and Mr. Coon was paid therefor. At a time subsequent to the completion of the work required which the contract mentioned, the board determined to make further improvements in the grade of Leib street, and received further bids for making such contemplated improvement. The petitioner—Mr. Coon—was one of the parties submitting proposals for this work, but was not the lowest bidder, and consequently did not obtain a contract. The petitioner seems to base his complaint entirely upon the fact that his first contract included the work contemplated to be done under the second contract, and that the Board violated faith with him in terminating his contract before the whole improvement was completed. We find this assumption of the petitioner to be unfounded in fact, for the following reasons: His contract included a certain amount of work to be done on Leib street, which at the time of the execution of the contract was all the work the Board intended to do. The further improvements for which a second contract was made, was not contemplated until after the work under the first contract was finished and accepted, and the contract expired. Your committee cannot understand why Mr. Coon should become a bidder for the work to be done under the second contract if it was included in the contract then held by him. His protest should have been entered and claim made at that time. No motive appears to explain Mr. Coon's action in submitting a proposal for doing the last portion of the work, except that at that time he made no such claim as is set up in his petition, or thought he would endeavor to obtain better terms than were contained in the contract under which he now sets up his claim. Mr. Coon's conduct in the matter is peculiar, and requires much more explanation and investigation than the conduct of the Board appears to demand.

Your committee, in view of all the facts, cheerfully justify the acts of the Board of Public Works, and exonerate the members of said Board from any shadow of censure or blame in the matter.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

Accepted and placed on file. City Counselor.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the resolution of Ald. Gies, directing him to report in what way a Board of Inspectors of Election can be appointed for the newly created

wards of the city, would respectfully report as follows:

It appears that on the 1st of October of this present year the ordinance dividing the Sixth and Tenth wards into wards to be known as the Sixth and Eleventh, Tenth and Thirteenth Wards, respectively, went into effect.

On or about the 1st of October last mentioned ordinances were adopted dividing each of the several wards mentioned into two Election Districts.

By the provisions of section 3, chapter 3, of the City Charter, it appears that in case a ward has been divided into election districts the Inspectors of Election shall consist of one Alderman of the ward, one of the persons appointed by the Common Council for that purpose, and one elector of the ward and district, chosen by a viva voce vote of the persons present at the opening of the polls.

Power is especially granted to the electors present to fill vacancies in said board.

By the provisions of section 3 of an act of the Legislature of the State of Michigan, approved March 27th, 1867, whenever new wards are created by the division of an existing ward or whenever any ward is divided into election districts, the Common Council shall at least twenty days prior to the first general or special election to be held in said wards or districts after such division, appoint for each of such election districts in said wards an Inspector of Election, who, with one of the Aldermen of the original ward so divided, shall, with one Inspector of Election to be elected by a viva voce vote of the electors present at the opening of the polls at said election, form a Board of Inspectors for such election, vacancies on said Board being filled as in other cases by the electors present.

It is clear that if the present Sixth and Tenth Wards were composed of one election district each, the Board of Inspectors of the new wards could be appointed under the provisions of the law last cited, and would consist of an Alderman of the original ward, an inspector elected by the Council and an inspector elected by the people, but the difficulty of the case under consideration lies in the fact that each of the present wards, Sixth and Tenth, are divided into two election districts, and under the provisions of Section 3, of Chapter 3, of the Charter, first herein cited, the Board of Inspectors in each of such election district, consists of an Alderman of said ward, an Inspector appointed by the Council and an Inspector appointed by the people.

The aldermen therefore of each of the present Sixth and Tenth Wards are engaged on the boards of the districts of their own wards, and are not free to be transferred for inspection duty to the new wards.

The Board of Inspectors of the new wards, under the circumstances of the case, cannot be constituted as the law requires, and the present case presents a state of facts which does not seem to have been contemplated by the legislators. I would therefore recommend that in appointing the members of the Board of Inspectors of Election for each of the new wards, the Council appoint one inspector of election, as the law provides, and treat the position on said board which the law contemplates should be filled by an alderman of the original ward as vacant, leaving the electors present at the opening of the polls in said wards to fill such vacancy, and to appoint an additional inspector to complete the board.

This appears to me to be the most substantial compliance with the law that can be made in the premises and is most in accordance with its spirit and intention. The electors being permitted to choose a majority of the Board would certainly have no cause to complain of its organization in the manner recommended.

The law requires that the manner of appointing members of a Board of Inspectors should be by ordinance, and I herewith submit an ordinance to carry out the recommendation herein made, and would advise its adoption at this session.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted, the ordinance placed upon its first

and second reading by its title and ordered printed in the proceedings.

The following is the ordinance:

AN ORDINANCE

SECTION 1. That an ordinance entitled An Ordinance relating to Inspectors of Election and Boards of Registration, approved September 10th, 1872, be and the same is hereby amended by adding thereto a section to be known and designated as Section 6 of said ordinance, and to read as follows:

SEC. 6. In every new ward of the city of Detroit, created by the division of a ward existing at the time when such division was made in which a general or special election has not been held and where the territory remaining in the original ward after the division comprises more than one election district there shall be appointed, by the Common Council, at least twenty days prior to such general or special election in each election district of said new ward, two resident electors who shall be and form a Board of Registration for their respective districts. One of said resident electors in each district shall be designated as an Inspector of Election for said district who, with two Inspectors of Election to be elected by a viva voce vote of the electors present at the opening of the polls at said election shall be and form a Board of Inspectors for such election in their respective districts.

SEC. 2 This ordinance shall take immediate effect.

Very respectfully,

E. I. GARFIELD,
Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—In defending the case of Robert C. Phillips and others against the city for infringing his patent for a pavement, it is absolutely necessary that I should procure from the United States Patent Office, six copies of English patents and seven copies of American patents, the costs and expenses of which, as I am advised, will be between \$95 and \$100, and I therefore ask that the Controller be directed to draw his warrant for \$100 in my favor to be accounted for by me in procuring said copies.

Very respectfully yours,

D. C. HOLBROOK,
City Counselor.

Accepted, and the Controller instructed to draw his warrant for the amount, by the following vote:

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I notice by the proceedings of the Common Council during my absence from the city, that Robert E. Roberts, Esq., was appointed by your honorable body, School Inspector, to fill the vacancy occasioned by the resignation of the Hon. Wm. D. Wilkins. By the provisions of section 3 of an act of the Legislature of the State of Michigan, relative to free schools in the City of Detroit, approved February 24th, 1869, the Mayor is required to nominate.

The act reads as follows: In case of a vacancy in the office of School Inspector, the Common Council may, on nomination by the Mayor, fill the same until the next annual election, when, if such vacancy happen in the first year of the term of said office, the electors of the proper ward may choose a suitable person to fill the remainder of such term. Provided, the City Clerk shall give notice of such vacancy prior to such election as may be required in other cases.

The appointment of R. E. Roberts is an excellent one, and meets with my entire approval, but as the validity of his appointment as it now stands might at some future time be called in question, I thought it only justice to him that the appointment should be made in accordance with law.

I therefore nominate for your approval Robert E. Roberts, Esq., as School Inspector, to fill the vacancy occasioned by the resignation of the Hon. Wm. D. Wilkins in the Seventh Ward.

Respectfully yours,

ALEX. LEWIS,

To the Honorable the Common Council:

The committee appointed to revise the city charter respectfully report that they have prepared and herewith submit a bill for that purpose, to be presented to the Legislature at its next session. It is proper to state that some features of the revision were not unanimously adopted by the committee. Some members would dissent from the views of the majority upon one question and others upon another; but the committee deems it proper, in submitting the result of its deliberations for your approval, to state the principal changes proposed in the organization, powers and duties of the city government, and to briefly indicate some of the reasons which led the majority to its conclusions.

I.

DIVISION OF POWERS.

We have divided the corporate government, and powers into two branches—the Legislative and Executive. This is the natural division; and the principle involved is one of the most approved and well-founded maxims of free government. It is followed in our Federal and all our State Constitutions, one of which declares that this division of power is essential in order to have "a government of laws and not of men."

Madison asserted, in the *Federalist*, that "the accumulation of all powers, legislative, executive and judicial, in the same hands, whether of one, a few or many, and whether hereditary, self-appointed or elective, may justly be pronounced the very definition of tyranny;" and one of the earliest and best writers on the subject said: "There can be no liberty where the legislative and executive powers are united in the same person or body of magistrates."

The union of the legislative and executive powers in Congress was pointed out by Hamilton as one of the chief defects of the general government under the articles of confederation, and a similar departure from the maxim is to be found in the organization of the present Board of Education of the City of Detroit, for the government of the city as one school district.

Of late years it has not been supposed that adherence to this principle was essential in the organization of our local governments, but the interests involved are so great, and the annual expenditures in many instances so large, that more attention must be paid to it in the future. It is recognized as a necessary element in any effort for municipal reform likely to be successful. A judicial department is one of the features of the maxim as generally stated, but the Constitution of this State only authorizes the Legislature to confer upon cities and villages "powers of a local, legislative and administrative character," and while

municipal courts and tribunals may be established by the Legislature in cities, they form no part of the local government. They constitute a part of the judicial system of the State, but do not come within the purview of a city charter.

II.

THE LEGISLATIVE DEPARTMENT.

The legislative power of the city we have vested in the Common Council and the Board of Estimates, both of which are elected by the people, and constitute their immediate representatives.

The executive power we have vested in the Mayor and certain subordinate boards and officers. Compliance with this rule has made it necessary to take from the Common Council the sole power of appointing the members of the Water Board and some other officers who are now elected by the Council. The appointment of subordinate officers is an executive function, and we have vested it in the Mayor, subject to the consent or confirmatory power of the Council, which is valuable as a check upon the Executive.

For a like reason we have vested in the Common Council and Board of Estimates the power to levy taxes and borrow money, and in the Common Council the power to fix salaries, make contracts, originate expenditures and to appropriate the public money to the purposes for which it was raised.

This takes from several of the boards that portion of the general legislative power exercised by them under the existing charter, and which properly belongs to the Common Council. Compliance with the decisions of our own Supreme Court makes this change necessary, as far as the purely local boards are concerned, in order to have a constitutional charter.

In the *Park Commissioners vs. the Common Council*, 28 Mich., 249, Judge Campbell said: "I am not willing to leave out of view an objection which has seemed to me quite as fundamental as the one referred to, and more dangerous, if that be possible, in its tendencies. I think the very essence of municipal existence consists in a government which allows no discretionary power, beyond that of mere administration, to be exercised without the immediate or ultimate control of the freemen or their immediate representatives."

"A city is, and must be, as I conceive, a unit for purposes of government, and all bodies employed in the service of the municipality, and not directly representing the freemen, must act as agencies subordinate to the Council. If powers in any way involving the municipal prerogative can be given to any bodies except the Common Council, to the exclusion of any regulation or control of that body, they can all be so given, and the people may be entirely deprived of representative government. It is a misnomer to apply that term to a system where there is any legislative power over which the people's representatives have no control. A school district is as well recognized a municipality as a city, and may co-exist with it in territory, in whole or in part, as a city may cover the territory of a county, wholly or partially. There is no incompatibility between them, and both are separate and in some sense independent popular representative bodies, exercising different functions. The duties of the others are no part of the ordinary concerns of town or city corporations. But from time immemorial every municipal government, properly so-called, and acting within its peculiar sphere, has acted through its Common Council, composed either of the burgesses or their representatives, subject in some cases to checks and vetoes, but not subject to legislation or final action in defiance of their own decisions."

"Their supremacy can not be given up by themselves any more than it can be taken from them. No doubt the State can limit their powers, but it cannot transfer them. The appointment and incorporation of boards as mere agencies is competent, and may be very convenient. But making them anything but agencies is a direct invasion of representative government, and would bring into existence a class of titles unknown to our institutions and very different from the municipal corporations recognized by our Constitution as the authorized recipients of local legislative power."

The proposition so clearly stated by Judge

Campbell was sustained by Judges Cooley and Graves, in an opinion by Judge Cooley in *Attorney General vs. Common Council*, 20 Mich., 112, as follows:

"I shall assent to the proposition of the respondents that the Common Council of a city—I mean a body commonly known by that name, whether in any particular charter so designated or not—is a distinctive and inseparable feature of municipal government under our existing institutions, and cannot be done away with. I shall also agree that to leave it in existence and strip it of its legislative powers is as palpable a violation of the Constitution as would be its entire abolition. I cannot discover any safe ground in constitutional law on which the new idea of parceling out the powers of municipal governments among local boards, however chosen, can be supported, under the provisions of constitutions adopted when such a system was unknown and designed to guard and secure a system quite different."

Speaking of the power of creating debts and expending money by the city of Philadelphia, in a case where it was held that this power had been vested in the legislative department and not with subordinate officers, Judge Arnew observed: "It is manifest that the city government is founded, in its leading thought, upon the American idea of a popular representative government, its immediate prototype being the form of the State government. The right of supervision and control is therefore vested in the councils as the immediate representatives of the popular will, which exerts and enforces its determining power by means of constantly recurring elections. Subject to this primary power, the affairs of this people, great in numbers, wealth, intelligence and influence, are conducted by departments and officers." (47 Pa. St. 21.)

We believe the foregoing opinions and decisions fully sustain the position taken by the committee, and we will conclude upon this subject by briefly summarizing the precise changes we have made in order to comply with the rule thus enforced:

(1) The power to fix all salaries, including those of the clerks and other subordinates of the different boards, is either primarily or ultimately vested in the council. (2) The provision that no contract shall be entered into for the construction of any public work in the city until approved by the council is extended to all contracts entered into by the boards, and so is the provision requiring contracts involving an expenditure of over \$500 to be let to the lowest responsible bidder. (3) No money can be paid out of the treasury until the claim or account is allowed by the council, and the system of a sub-treasury for each board is abolished. (4) The annual estimates are left to the ultimate determination of the Common Council and Board of Estimates, with the exception of the interest fund, sinking fund and per capita school tax, which are fixed to a certain extent by the charter. (5) No bonds or other evidences of debt can be issued without the approval of the Common Council and Board of Estimates.

The changes indicated in the second and third of the above paragraphs are probably the only ones that will meet with any serious opposition.

PUBLIC CONTRACTS.

Under the existing charter no contract for the construction of any public works, except those made by the Water Board, Fire Board, Police Board and Board of Education, can be entered into until approved by the Common Council. The Board of Public Works is governed by this provision in making contracts for works under its control, but the boards above named have absolute power in this respect in their several departments. We believe the Board of Public Works is organized upon the correct theory. The act creating it was sustained by the Supreme Court, on the ground that it could be so construed, as not to infringe upon the constitutional rights of the Council. The majority opinion says: "Some portions of the act seem to be carelessly drawn, and it is not easy at all points to determine where the Board is to be independent of the Council, and where in subordination to it; but as I understand its provisions in its most important duties, that is to

may, in all that relates to contracts for public improvements, the Board can make no contract except subject to the approval of the Common Council."

Judge Campbell's dissenting opinion is as follows:

"If I were satisfied that the intention of the Legislature could be carried out by confining the Board of Public Works to their legitimate place as agents and not as rulers, in the affairs which they may administer, I should not be disposed to question the legality of such an office. I think, however, that the real purpose appearing in the act contemplates that the Board shall have all the powers and the prerogatives set forth, and not be hampered by any other authority, except as there indicated, in any of the powers there specified. It is hardly questioned that the act cannot be carried out fully, according to its terms, without taking from the city and giving to the Board some powers which could not be justified. As my brethren are of the opinion that the act can be sustained to the extent of what would be valid, and the remainder distinguished and annulled, it would be premature to attempt now to point out what provisions may and may not stand upon that principle; and I abstain from that discussion."

It will be observed that the provision only relates to public works, such as public buildings, water-works, street pavements and the like, which usually involve large expenditures. It does not affect the powers of the boards named, in the purchase of their ordinary supplies, and other articles not connected with any public work or improvement.

The provision requiring contracts involving expenditures of more than \$200 to be let to the lowest responsible bidder, is the most approved method of supplying the wants of the public at reasonable rates. As now organized the boards in question also have power to audit and pay

CLAIMS AND ACCOUNTS

Of their own contracting, and all, except the Fire Board, have a separate treasurer. This is a very important matter, and the present system we consider decidedly objectionable. Every possible guard, consistent with a reasonable convenience and dispatch, should be placed over the disbursement of all public moneys.

The system we propose requires each claim or account, contracted by any of the boards, to be first presented to such board in duplicate. If found correct, the board will certify it to the Controller, who will lay it before the Council. It will then be referred to the Committee on Claims and Accounts and be published in the official proceedings. It must be approved by the Common Council before it can be paid.

We have heard but three objections to this system:

1. That the delay and uncertainty will deter business men from doing business with the boards. We reply that the city of Detroit pays its debts more promptly and with greater certainty than the business community. The Council audits accounts once a week and possesses no power to reject a legal claim. The courts will compel payment.

2. That in taking advantage of the state of the market, in making purchases from farmers and other strangers, and in paying for articles purchased at a distance and to be paid for on delivery, it will be necessary, in many instances, to make immediate payments. We probably do not fully appreciate the force of the objection, but, for the purpose of meeting any such exigency, have authorized the controller to pay such accounts before presenting them to the Common Council; provided that not more than \$1,000 shall be so paid in each month, and each payment to be reported to the council at its next session.

3. That there are certain accounts of one of the boards which should not be made public. We do not think so. The people have a right to know how every dollar of the public money is expended. Any other rule would eventually lead to endless corruption.

We are not aware of any other objections to having all claims and accounts approved by the Common Council. It would be perfectly compe-

tent to create a Board of City Auditors, but the better course is to intrust the matter to the immediate representatives of the people. Some thoughtful persons are in the habit of expressing a want of confidence in the integrity, capacity and usefulness of the Common Council as a municipal agency, but your committee are not prepared to believe that the local self government of large cities has proved, or will prove, a failure in the United States.

It must be remembered that the Aldermen, being the direct representatives of the people, are held by public opinion to a more strict official accountability; that great publicity is given to the proceedings of the Common Council, and thereby an opportunity for criticism presented, which does not exist as to other local agencies. The fine observation of Lord Bacon has a fit application to this subject: "The best governments are always subject to be like the fairest crystals, wherein every icicle or grain is seen, which in a fouler stone is never perceived."

It must also be remembered that the most notable instance in this country of mal-administration and fraud in the management of the affairs of a great city occurred under a system which recognized the right of the State Legislature to interfere with the local affairs of the people and culminated under a charter which largely derived the Common Council of its legislative power, and the Mayor of his executive power.

In almost all cities as large as Detroit, the Common Council is composed of two bodies, the same as the State Legislature and Congress. One operates as a check upon the other, and as every measure must pass both branches, a greater opportunity is given for deliberation and discussion. So far as the amount of money to be raised by general taxation or loan is concerned, the Board of Estimates now acts as a second body. But it is questionable whether the powers of the Board should not be extended so as to give it some control over the expenditures of the moneys so raised, and particularly over such important matters as special assessments, street paving, public sewers, water works and school and other public buildings. We submit the question as worthy of careful consideration. But perhaps the better plan would be to retain the Board of Estimates with its present powers and to divide the Common Council into two bodies, one to be composed of the aldermen from the different wards, as representatives of locality and neighborhood, and the other of Councilmen elected in the city at large, as representatives of the people of the city in the aggregate.

This plan was strongly recommended by the reviser, and has many advocates and supporters.

III.

REORGANIZATION OF THE CITY INTO WARDS.

As the legislative power is necessarily vested in the immediate representatives of the people, it is of the highest importance that the method of electing the aldermen and members of the Board of Estimates should be such as to obtain a correct expression of the popular will. As near as possible, each voter in the city should have the same quantum of power. Equality of representation is absolutely essential in a representative government, but as now constituted the wards are so different in population and electors that there is no semblance of equality or justice. Your committee have therefore provided for a reorganization of the city into wards in the year 1877, and every tenth year thereafter.

To prevent gerrymandering and other abuses, and to make the system as convenient as possible, we have provided for a city census just before each reorganization, have required each ward to contain not less than 9,000 inhabitants, and have fixed the term of office of the aldermen elected in 1878, and every tenth year thereafter, at one year. This latter provision is necessary in order to avoid the confusion that would result from the fact that only half of the aldermen go out of office at the same time. In view of all the difficulties in the way, we believe the system proposed is the best that can be devised, unless the number of aldermen should be limited to one for each ward, which would render an increase in the number of wards

unobjectionable and do away with some of the difficulties occasioned by the fact that the boundaries of the Senatorial districts can be changed only once in five years, viz.: at the first session of the Legislature after each Federal or State census

IV.

THE EXECUTIVE DEPARTMENT.

In organizing the Executive Department we have made

THE MAYOR

Its chief officer, and placed upon him the responsibility of enforcing the charter and the ordinances. He is given the power to nominate, and, with the consent of the Common Council to appoint the administrative boards and officers, and they are given a like power as to their own subordinates. He is authorized to suspend any officer, except aldermen, until action can be taken by the Common Council upon his reasons therefor, and he may remove, without charge or a trial thereof, the harbor master, collectors, constables, and officers whose offices are created by the Common Council.

We know of no principle which would require the City Treasurer, City Clerk and City Attorney to be elected and the Controller, Receiver of Taxes and City Counselor to be appointed. For the purposes of a city government we believe a system of executive appointments to be superior to the elective system, and we have therefore adopted it in the selection of all the corporate officers, except the Mayor, Aldermen and members of the Board of Estimates.

The members of

THE POLICE COMMISSION

Are now appointed by the Governor of the State, but it is difficult to understand how an official, who will most frequently reside in the interior, can make better appointments than the Mayor of the city; and it is a fallacy to suppose that the State is more interested in the good government and management of the police force than the people of Detroit, whose rights of person and property the force is designed to protect by a due enforcement of the criminal and penal laws.

The great strength of a police force lies in the moral support it receives from the public, and anything likely to make that support cordial and permanent must be advantageous.

The Legislature at its last session amended the Police act so as to require the estimates for the support of the force to be approved by the Board of Estimates, and in our opinion the Police Board should be made a part of the city government, and its members appointed in the same manner as the other boards.

The present

BOARD OF EDUCATION

is a separate corporation. We have abolished it. Its legislative power is transferred to the Common Council, and the administrative management and control of the schools and library is vested in a commission of five persons, to be appointed by the Mayor and confirmed by the Council. We see no necessity of maintaining a separate and independent legislative body; and in matters of mere administration the present Board of Education is unwieldy and unsatisfactory. The proposed commission is given power to determine the course of study in the schools; to select suitable locations for school buildings; to employ teachers; and, subject to the approval of the Common Council, to fix their compensation according to grade. The Superintendent of Schools, the Secretary of the Board, and the persons to take the census of the children in the city, are to be nominated by the Board and confirmed by the Council. The construction of school buildings and the making of contracts therefor are left to the joint action of the Common Council, the Board of Public Works and the Board of Education, as hereinafter stated. If the Board of Education is to be maintained as an independent corporation, it should be divided into two departments, and provided with all the usual checks and balances in the nature of vetoes, and regulations relative to making contracts, auditing claims and accounts, and the deposit and disburse-

ment of the public moneys. But there is no good reason why there should be two separate and independent corporations for the local government of the same body of people. An antagonism almost inevitably arises between such corporations. At least they do not always work harmoniously, and the division of duties and responsibilities necessitates a greater watchfulness and care on the part of the people than they are apt to exercise. Experience has demonstrated that one or the other is frequently neglected, especially at the polls.

It has been urged that the importance of the public schools makes it necessary for the people to elect a separate and distinct legislative body for their management; but that argument, if true, would apply with more or less force to all the other city boards or departments, and the local legislative powers would have to be parceled out to half a dozen or more elective bodies. The better plan, in the opinion of the committee, is to make the local legislature a unit, and to use the boards and commissions as convenient and expeditious administrative agents, who will stand toward the Common Council in the position of experts in their respective departments. Any extraordinary or peculiar knowledge, skill or ability essential to the public welfare can more readily be secured by this method than by elections from the body of the people. In other words, the system proposed combines immediate representation with administrative efficiency and capacity. It is impossible to accomplish the same result by vesting all the power over the public schools in a single board, whether elected or appointed. Either extreme is objectionable.

The Board of Public Works now has the supervision of the construction and repair of all the public works and improvements of the city except the water works, school and library buildings, engine houses and police stations.

We have extended the duties of the Board so as to include all public buildings and improvements except the water works, which are left in the hands of the Water Commissioners; but before any public building or improvement is commenced the Common Council is required to refer the matter to the Board of Public Works and to such other board as may be interested therein.

This requires the several boards to be consulted in regard to the buildings and improvements of their respective departments, and enables them to impart such information and make such recommendations as they may deem expedient.

The Board of Public Works will ordinarily be composed of persons who have had experience as builders, architects or mechanics, and it will therefore be more competent to superintend the construction of school buildings than the Board of Education, which will naturally consist of practical educators, or of citizens who take a deep interest in educational matters.

The duties of the several boards should be apportioned so as to secure the highest degree of efficiency and capacity in each department; and in order to do this, each board must be confined to its particular objects and functions. The change we propose is attempted in the act creating the Board of Public Works, but the act is so defective that, in this respect, it is practically inoperative.

THE WATER AND FIRE COMMISSIONS

are continued as administrative agencies, and the latter is authorized to nominate, and with the consent of the Common Council, to appoint a Fire Marshal, who is given important powers relative to the prevention of fires and the enforcement of the ordinances of the city.

The principal changes in the powers of said boards, not already mentioned, are as follows:

1. The annual water rates are to be approved by the Common Council. There is now no limit to the amount of money the Water Board may collect from the people for the use of water from the works, and while the rates are not taxes, strictly speaking, still they are in the nature of taxes, and are paid to defray the public expense in maintaining the water supply.

We do not believe that any board or commission

should possess the power to demand from the people any sum it pleases.

Such power would enable the boards to defeat the popular will as to the amount of money to be expended for public purposes.

The approval of the Common Council can do no harm, and will operate as a check upon official extravagance.

2. The Water Board now has power to lay mains and pipes without letting contracts therefor. We have preserved this feature by excepting it from the operation of the general provisions already considered; but for the purpose of enabling any abuse, likely to arise in the future, to be readily corrected, we have authorized the Common Council to require such work to be let to the lowest responsible bidder.

3. The Fire Board is authorized to purchase fire engines and apparatus, without advertising for proposals. This was deemed advisable in view of the peculiar nature of such purchases.

"Building permits" are to be granted by this board.

The only new board created is a

BOARD OF POOR COMMISSIONERS.

To take the place of the Director of the Poor, and to have the management and control of the poor fund and its disbursement.

The board is given power to receive and disburse donations for the relief of the poor, and it may act in conjunction with the charitable societies of the city.

The present Board of Health is abolished, leaving the Common Council to act as a Board of Health, under the general laws of the State. But one City Physician is authorized, and he is made the health officer of the corporation, physician of the Board of Health and surgeon of the police force.

The principal

EXECUTIVE OFFICERS

Are retained and their duties left substantially the same. The City Counselor and City Engineer are made official officers of the several boards, and the powers of the Harbor Master are largely increased. The office of City Sexton is abolished, and the burial, by the public, of deceased persons, placed in the control of the Poor Commissioners.

V.

TAXATION AND FINANCE.

The principal provisions of the present charter relative to the financial affairs of the city are retained, and some additional limitations created. The power of taxation is limited to one per cent of the total assessed valuation for each year, and the total city debt cannot exceed two and a half per cent. Heretofore the taxable property of the city has not been assessed at its cash value, and the provision of the charter limiting taxation for certain purposes to one per cent has been violated for several years.

The present year the assessment has been made according to law, and aggregates more than ninety-four million dollars. The general taxes amount to \$971,823.18, or a trifle more than one per cent, and in the opinion of your committee they should never hereafter exceed half that rate.

The total debt of the city, including \$400,000 in bonds to be issued by the Water Board for completion of the new water works, is over \$4,000,000, which exceeds two and a half per cent of the assessed valuation by something over \$600,000. Any increase in the debt is therefore prohibited. Something must be paid before any more money can be borrowed, and it is obvious that two and a half per cent of the cash value of all the taxable property in the city is as large a debt as the city ever ought to owe. Of course there will be a gradual increase of the assessed valuation, which will permit some increase in the debt and in the annual expenditures, but in the absence of express inhibitions, experience has shown that municipal extravagance increases in a greater ratio than the material wealth of the people. Hence we believe that the limitations in question are of the highest importance, and will be commended by a large majority of the taxpayers in the city.

The method of assessing and collecting taxes has been somewhat simplified, and the collection

of taxes on personal property is taken out of the hands of the ward collectors and vested in the Receiver of Taxes and his subordinates.

This is necessary in order to secure a more efficient collection. The ward collectors are continued for the collection of State and county taxes only.

VI.

SPECIAL ASSESSMENTS.

The expenses of constructing street pavements, and of repairing the same when the number of square yards to be repaired in any given block shall exceed 10 per cent. of the total number of square yards in such block, and the expenses of opening streets and alleys, of building and repairing lateral sewers, or paving and improving alleys, and the construction of sidewalks, are to be collected by special assessment. This enables the residents of each street and neighborhood to have such local improvements as they desire, and is much more preferable than general taxation for such purposes. In the matter of

OPENING STREETS AND ALLEYS

Experience has shown that, where the damages are payable out of a general fund, a less number of streets are opened and at a greater expense than under a system of special assessments; but the argument has been made that the adoption of this system would be unjust to the newer portions of the city, because the streets in the central part of the city were opened at the general expense. A careful examination of the subject will disclose the fact that this argument is not in many respects a correct one. But if streets in the older portions of the city were opened by general taxation, a property owner who pays a special assessment for opening a street in his neighborhood, will find it a great deal cheaper than to pay a general assessment each year, with a certainty that such assessments will never cease.

Where a general fund is raised, the jury are apt to award excessive damages, and many streets are opened when the public benefits are not commensurate with the damages paid. Great opportunities for "favoritism" are presented in determining what streets shall be opened, for when the fund is exhausted, all such improvements must cease until another tax levy.

The taxpayers and property owners have to foot the bill under either system, and that which is the cheapest, the most just, and the least liable to abuse, is the best.

At the last session of the Legislature an act was passed which required one-quarter of the damages and costs to be paid by general assessment and three-quarters by special assessment, and perhaps some such compromise would be most satisfactory to the majority of the people; but a majority of your committee are entirely satisfied that, in the long run, special assessments for the entire damages will produce the best average results.

Under the present charter

STREET PAVEMENTS

Are repaired at the general expense, but the method is objectionable because some streets are constantly repaired, while others are neglected until a new pavement becomes necessary. To prevent this, we have provided that annual repairs in excess of ten per cent shall be collected by special assessment. At the first blush this may seem to be placing too great a burden upon the abutting property, but the reasons which make it advisable to lay original pavements by special assessment are equally true as to repaving and repairs.

The obligation resting upon the property owners, and the benefits received, are the same in the one case as in the other.

The present

STREET OPENING LAW

Has been held invalid. The act proposed by your committee is drawn upon a more correct theory; and it is believed to be in accord with the State Constitution and the decisions of the Supreme Court. It is so drawn as to permit the city to condemn private property, either within or without

the city limits, for other public or corporate purposes.

VII.

ELECTIONS.

It is desirable that all local elections should be removed as far as possible from partisan politics. Charter elections are for the purpose of deciding local issues, and electing capable and trustworthy servants. It is mostly a matter of business, and has no connection with State or national politics. For these reasons it has been strongly urged that local elections should not occur at the same time as State and national. That is the case now in this city except as to one-half each of the aldermen, members of the Board of Education, ward members of the Board of Estimates and other ward officers who are elected annually.

The expense of holding an election in the city is quite large, and on the whole we have not deemed it advisable to make any change in the date of the annual charter election; but it must be borne in mind that unworthy men are more apt to be elected when party spirit runs high, and a "tidal wave" makes a "clean sweep" of the country.

The change indicated may become a necessity at no distant day.

The present

CAUCUS SYSTEM.

As enforced in most cities, is simply outrageous. Public opinion will eventually compel the managers of the two great political parties to adopt something in the nature of the State registration and election laws in obtaining an expression of the party will. The Legislature could probably confer upon ward committees or inspectors the power to administer oaths and to enforce rules and regulations governing the caucus. The subject is not beyond the reach of legislation, and it is to be hoped that some general law will be devised and passed covering the whole ground.

As a step in the right direction, we have inserted a provision making it a State Prison offense for any person not an elector of the ward to vote at any ward caucus. We have also given the Common Council power to remove any alderman or other officer who shall have been guilty of fraud or corruption, or any violation of the laws of the State, in securing his election or appointment.

There are many matters of detail or of minor importance to which we might call attention, but they will be best understood by an examination of the charter itself.

In conclusion we will simply say that we have endeavored to organize a compact, systematic and harmonious city government, based in its main features upon the constitutional right of the people to order and control their own local affairs.

Upon some matters of difficulty and dispute we may not have come to a correct conclusion, but that upon the whole the proposed charter is vastly superior to the present one we have no doubt.

We have carefully studied and considered the whole subject, and persons likely to criticize our work should not be too hasty in rejecting it. All of which is respectfully submitted.

FIFTH WARD.

By Ald. Finney:

SECOND WARD ELECTION.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the petition of Robert W. Layng, claiming that he received a majority of the votes at the late election in the Second Ward for Alderman, and is entitled to the seat now occupied by Dr. Charles Ewers, and praying that he may qualify as Alderman of the Second Ward, report that in the opinion of the undersigned upon the statements contained in said petition in relation to the votes given at said election, the petitioner is entitled to an investigation and a decision upon the result of said election as the right may appear.

Respectfully submitted,

D. C. HOLBROOK,

I concur in the opinion of the Counselor to this effect, viz:

The petitioner, Robert W. Layng, is entitled to an investigation and decision of the Common Council on the question raised in his petition as to the residence of Charles Ewers at the time of the special election in the Second Ward; also as to whether the petitioner or Ewers received a majority of the legal votes cast at such election, and an investigation of the votes alleged to have been illegally cast, in so much as said illegal votes may affect the question of majority.

Respectfully submitted,

FROM THE BOARD OF PUBLIC WORKS.

GENTLEMEN—On the 26th ult. a resolution was adopted by your honorable body directing the Board of Public Works to cause the alley between Michigan avenue and State street and Griswold and Rowland streets to be worked and graded, and the cost thereof to be paid out of the Fifth Ward Road Fund. The improvement sought is a local one and the expense thereof should be paid by special assessment, on the premises abutting on said alley. The Board therefore recommend that the resolution be rescinded.

Respectfully submitted,

ALEX. CHAPOTON,

President.

During the progress of the canvass, in the case of the Seventh Ward, First District, Canvasser Owen arose and announced it his belief that an error had been made in the count on the ward ticket and he desired that it should be corrected. The City Attorney being called upon for his opinion said that if the inspectors were satisfied that they made a mistake the law would warrant them in correcting it, the courts being very liberal in favor of the fairest expression on the part of the voter. Mr. Owen therefore moved that the remainder of the canvass be proceeded with and that they, the inspectors from said district, assume the responsibility of a re-count. The motion to proceed with the canvass, excepting said ward, was carried. On conclusion Canvasser Allison moved that a committee of five be appointed to make up the returns as far as heard from. Carried, and the chair appointed canvassers Allison, Finnegan, Guthard, Greiling, and Jackson. On motion of Inspector Allison the Board adjourned to three o'clock P. M., Monday.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

In making out the assessment roll for the construction of a lateral sewer in the alley between Charles and Ann streets and Sixth and Seventh streets, lots 42 and 47 and lots 30 and 46, Baker farm, were inadvertently assessed for the cost thereof. These lots do not abut on the alley and

ordinance regulating the use of the Central Market requires that the Controller and Committee on Markets of the Common Council shall annually, in the month of March, establish the rates of rent to be charged for stalls in the public markets. Agreeable to this requirement of the ordinance, your committee, with the Controller, did, in the month of March last past, establish and publish the schedule of rents to be paid for the current year; that the petitioners had full knowledge of the rates fixed to be charged, and took their various stalls with this knowledge, and your committee are now averse to making any change in the rents, and would therefore recommend that the prayer of the petitioners be denied.

SEYMOUR FINNEY,

JACOB GUTHARD.

DANIEL SHANAHAN.

Accepted, and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—20.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits have examined the petition of Anthony German, No. 61 Michigan avenue, and report that he wants to erect a small shed in the rear thereof, to protect his wagon the coming winter. The building will be small and covered with a gravel roof, and in our opinion will not increase the fire risk. In the matter of John Harvey, No. 15 Elkh street west, who wishes to raise the roof of a portion of his house, we find the facts as therein set forth to be substantially correct, the premises being located partly in and outside the fire limits. We recommend that the petition be concurred in and that he be allowed to proceed.

Very respectfully.

JACOB GUTHARD.

SEYMOUR FINNEY.

Accepted and adopted.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to

whom was referred the petition of Jacob Harris, praying that the rent of his stall in the Central Market might be reduced, would respectfully report that we find the petitioner paying the amount of rent fixed in the schedule on file; that his neighbors occupying adjoining stalls pay in like proportion, and have stalls no more desirable than the petitioner; that the petitioner does not appear to be any less fortunate than others, and certainly has not grown old or disabled since March last past, when he willingly assumed and agreed to pay the rent charged for his stall; that in other respects the petitioner does not make out such a case as would warrant your committee in making an exception in his favor. Any such recommendation would establish a precedent for future reductions, and would render the action of your committee in establishing a schedule of rents for market stalls a useless labor. We would therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted.

DANIEL SHANAHAN,

GEORGE DORR.

GEO. W. HERRICK.

Accepted and adopted.

To the Honorable the Common Council:

GENTLEMEN—My attention has been called by the Market Clerk, Mr. D. W. Gray, to certain complaints against the Assistant Market Clerk, Adolph Gerisher, which I think should be examined into at once.

Very respectfully, etc.

E. I. GARFIELD.

City Controller.

Accepted and placed on file, and Ald. Dorr offered the following:

Resolved, That the office of Assistant Market Clerk be and the same is hereby declared vacant. Referred to the Committee on Markets.

FROM THE ENGINEER.

To the Honorable the Common Council:

GENTLEMEN—Your attention is respectfully called to the confusion which exists in the names of streets in a portion of the Ninth and Twelfth wards.

By examining the map of projected streets, as approved by the Board of Public Works, and of which the accompanying plat is a copy, it will be seen that Lafayette avenue is eventually to be extended to Twenty-fourth street. Hennepin and Howard streets, which lie in the line of the proposed avenue, should therefore be changed to Lafayette avenue. For the same reason Marquette street, which is a continuation of Porter street, should be changed to Porter street. There are two Howard streets, two Labrosse streets and two Leverette streets, neither of which are in anywise connected.

Your attention is called to this matter at the present time from the fact that the house numbers for this portion of the city are now being made out and it is desirable that the proper changes be made now if at all.

The accompanying plat will show the condition of streets and proposed changes.

Very respectfully,

H. D. LUDDEN,

City Engineer.

Referred to the Aldermen of the Ninth and Twelfth wards and City Attorney.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I herewith transmit to your honorable body assessment and refunding rolls No. 2677, 2678 and 2679, to defray and refund the expense of constructing brick lateral sewers:

No. 2677. Supplementary to roll No. 2647, being a reassessment of the amount formerly assessed on lots 29, 42, 46 and 47 for a sewer in the alley between 13th, 14th, 15th, 16th, 17th, 18th and 19th streets; D. Sullivan No. 1, contractor. Amount, \$51 04.

No. 2678. Brick lateral sewer in alley between St. Antoine, Hastings, Watson and Wilkins streets; Charles Reinfeldt, contractor. Cost, \$459 92.

No. 2679. Supplementary to Roll No. 2678. Refunding the expense of connecting lateral sewer in alley between St. Antoine, Hastings, Watson and Wilkins streets with lateral sewer in Watson street to owners of property formerly assessed. Amount, \$11 98.

To the Honorable the Common Council:

GENTLEMEN—There are at present a number of laborers who are employed by the Board of Public Works for one, two and three days at a time, and then discharged. These men are in great need of their money, and under the present system are obliged to wait from one to two weeks for their small stipend.

I would therefore suggest that the Controller be instructed by your honorable body to draw his warrant on the General Road Fund for a sum of money not to exceed \$200, with which to pay these laborers as soon as they are discharged and receive their proper certificate from the Board.

Very respectfully,

WM. PARKINSON,

City Treasurer.

Referred to the Committee on Ways and Means and Controller.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—There appears on the ledger of the City Treasurer a credit to the Fire, Marine,

Life and Accident Insurance fund of \$10,507 78, which is created by a charge of Fire and Marine.

Insurance 1871.....	\$ 2,099 90
Life and Accident 1871.....	1,779 90
Fire and Marine, 1872.....	4,837 91
Life and Accident.....	1,789 97

\$10,507 78

These taxes appear to be uncollectable, while their balances remain on the ledger year after year.

I would respectfully suggest that a committee be appointed by your honorable body to examine into the value of the same, so that if found worthless they may be charged back to said insurance fund.

Very respectfully,

WM. PARKINSON,

City Treasurer.

Referred to the Committee on Ways and Means and City Attorney.

FROM THE GAS INSPECTOR.

To the Honorable the Common Council:

GENTLEMEN—The public street lamps throughout the city will be lighted and extinguished in the month of December as follows, viz: 1st and 2d inclusive, no light except cloudy nights, 3d to the 5th inclusive, light at 4.30 P. M. and put out at 9.30 P. M.; 6th to 24th inclusive, light at 4.30 P. M. and put out at 5.30 A. M.; 16th to 31st inclusive, no light except cloudy nights.

Very respectfully,

C. F. BLATTMEIER,

Gas Inspector.

Accepted and placed on file.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 25th inst., and the same were approved on the 27th inst.

M. P. CHRISTIAN,

GEORGE DUNLAP,

H. HEAMES.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.
Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom were referred the report of Mr. A. I. McLeod, Clerk of the Recorder's Court, submitting the amount of fines and costs imposed and collected in that court for the violation of city ordinances, at the October and November terms thereof, respectfully report that we have had the same under consideration, and report it back to the Council and recommend that it be accepted and placed on file.

Respectfully submitted,

M. C. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the claim of Rudolf Roetz, for damages to his back, said to have occurred on the night of the 15th inst., on Ash street, on account of an opening in the roadway, caused by the construction of a sewer, and the want of a proper barrier, or signal light, have examined the same, and find as follows:

That the sewer constructed on Ash street this season was completed in July, and the street was put in good order immediately. That an employee of the Board of Public Works visited Ash street on the 15th inst., and found no excavation.

In view of the above facts your committee are compelled to report against the prayer of the petitioner.

Respectfully submitted,

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the petition of James Defoe, praying that he might be reimbursed the amount of expenses incurred by him in fitting up his office to do business as a Justice of the Peace under an appointment made by the Common Council, which said appointment was afterward revoked, would respectfully report that while we sympathize with the petitioner in the loss he incurred through the failure of his appointment on purely legal grounds, and regret that the action of the Council should have led to this result, yet it is one of those misfortunes for which there appears to be no legal remedy. To reimburse the petitioners would not be a just or equitable solution of the matter, as this would operate to transfer the loss from Mr. Defoe to the tax-payers of the city, who are certainly no less innocent in the affair than the petitioner himself.

There is, moreover, no express or implied promise on the part of the city to reimburse to parties those losses which they sustain, and which are remotely incident to illegal action on the part of the Common Council. The presumption that all the acts of the Common Council are legal and warranted, and will protect the party acting thereunder, is certainly no stronger than the presumption that every citizen knows the law and acts with full knowledge thereof.

Your committee would therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned to whom was referred the communication of Sidney D. Miller,

Esq., as president of the Detroit City Railway Company in relation to the exclusive right of said company to construct and operate railways in this city, report that they have given the matter full consideration; that section 2 of the ordinance granting to said company the right to construct a street railway reads as follows: "The said grants are by the provisions of their ordinance exclusively authorized to construct and operate railways as herein provided in and through Jefferson, Michigan and Woodward avenues, etc., in said city as may from time to time be fixed and determined by vote of the Common Council of the said city of Detroit and assented to in writing by said corporation organized as provided in section 1 of this ordinance; and provided the corporation does not assent in writing within thirty days after the passage of said resolution of the Council ordering the formation of new routes, then the Common Council may give the privilege to any other company to build such route, and such other company shall have the right to cross any track of rails already laid, at their own expense;" and it appears to your committee, from this language, that something more than the right to construct a railway through the particular streets named was intended, and we think a fair construction of this section leads to the following conclusion: That whenever the Council shall decide that a street railway is required for the public convenience, and shall by vote fix and determine the streets through which the same shall be constructed, the Detroit City Railway Company has the first and exclusive right to construct and operate it, if it shall within thirty days assent so to do. If it does not, then the Council may grant the right to another company.

In practice this requires the Council to first determine and fix the route for a street railway to be constructed, then the Detroit City Railway has the first right to construct it if it is within thirty days assent to it in writing.

If any question arises as to the right of the City Railway Company creating a monopoly, we think that may be better settled by the courts when it becomes necessary.

Respectfully submitted,

GEORGE DUNLAP,
JOHN D. FINNegan,
Committee on Judiciary.
D. C. HOLBROOK,
City Counselor.

Accepted and laid on the table for one week.

GENTLEMEN—Your Committee on Ways and Means, to whom were referred the bonds of A. F. Wetlauffer, Frank Somma, David Rosen, Thomas F. Curtis, Joseph Schreier, Nicholas & Wallaster, dealers in malt and spirituous liquors, respectfully report that we have examined the same, and believing them to be correct and satisfactory, recommend their approval.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets has had under consideration the petition of Robert Breitenbacher and August Lenz, the first for an ornamental hitching post, corner of Bates and Farrar streets, and the second for an ornamental hitching post in front of No. 5 Farrar street. We report in favor of granting the prayers of the petitioners, but make as a condition precedent to the granting of the petition of said Lenz, that should he surmount said post by a sign the same shall not be more than one foot and a half in diameter and be circular in shape.

Respectfully submitted.

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes have examined the petition of Alfred Young. He was taxed for the paving of Clifford street in 1874, and was allowed a rebate of one quarter because his lot was triangular in shape. He was not able to pay the entire amount of said paving down, and consequently was charged with interest on parts 2, 3 and 4 on the amount of said rebate. Your committee have computed the said interest: and find it to be \$19 77, which amount is justly due Al. Young, and we recommend that it be refunded to him, and ask the adoption of the annexed resolution.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller draw his warrant on the proper fund in favor of Alfred Young for the amount of \$19 77 when he shall present his receipt for the paving of Clifford street in 1874.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes have considered the petition of Mrs. Ann Judd. An evident error was made in the assessment of her property, whereby her tax has been increased from \$1 98 to \$17. Your committee are of the opinion that a rebate of \$15 07 is due her, and ask the adoption of the annexed resolution.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be, and is hereby directed to draw his warrant on the proper fund for \$15 07 in favor of Mrs. Ann Judd on her presenting the proper receipt for the taxes of 1876.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes have examined the petition of Denis Falvey claiming a reduction of his assessment for paving Baker street, his lot being triangular in shape. We think said claim just and that he should have

rebate of one quarter or \$30. We therefore ask the adoption of the annexed resolution.

C. C. BLODGETT.
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be and he is hereby directed to draw his warrant on the proper fund in favor of Denis Falvey for \$30 when he shall present the proper receipts for the paving of Baker street in front of the lot on the southeast corner of Baker and Eighth streets.

Adopted as follows:

Yea—Ald. Blodgett, Christian, Dorr, Dunnlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks and the President—21.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes have examined the petition of Phillip Branch to be refunded \$25 03 paid by him as assessment for the construction of a plank sidewalk. Mr. Branch was duly notified to construct a new sidewalk, and did so construct it, but by error he was placed on the assessment roll with those neglecting to obey the notice. His lot was sold for the tax, and the costs and charges amounted to \$25 03. We therefore report in favor of granting the prayer of the petition and ask the adoption of the annexed resolution.

Respectfully submitted.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be, and is hereby directed to draw his warrant on the proper fund in favor of Philip Branch, for the amount of \$25 03 when he shall present the proper receipt for the construction of a plank sidewalk in front of lot 9, section 183, L. Beaubien farm.

Adopted as follows:

Yea—Ald. Blodgett, Christian, Dorr, Dunnlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks and the President—21.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes have considered the petition of the church committee of St. Vincent's Church, on Fourteenth street, asking that their property on said street be exempt from taxation on the ground that it is used for religious and charitable purposes. We are of the opinion after careful examination of the claim of the petitioner is, under existing law, just, and recommend that the tax based upon such assessment be refunded. We therefore ask for the adoption of the annexed resolution.

Very respectfully,

C. C. BLODGETT.
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be and is hereby directed to draw his warrant on the proper fund in favor of the church committee of St. Vincent's Church for the amount of \$26 91 when they shall present the proper tax receipt for said amount on said church property.

Objected to and laid over.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes to whom was referred the petitions of Messrs. Waterman and Bissell regarding the sale for taxes of lots 197, 198, 199, 200, 201, 202, 203, 204, 205, 206 and 207 on the north side of Montcalm street, report thereon as follows: We find that the lots above mentioned were sold to the city for the taxes of 1873, 1874 and 1875, and the year of redemption having expired the title rests in the city. The tax for which the lots were sold amounted to over \$3,000, a portion of which was for the building and personal property. In 1875 the building and contents were burned, rendering it impossible to collect the personal tax. An offer of \$900 has

been made for each lot and your committee are of the opinion that it would be for the interest of the city to accept the proposition, and would therefore recommend the adoption of the annexed resolution:

Respectfully submitted.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the City Treasurer be and is hereby authorized and directed to set aside the sale for taxes of lots 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, and 207, situated on north side of Montcalm street, for the years of 1874, 1875 and 1876, and receipt in full for the same upon the payment to him of twenty-two hundred dollars (\$2,200.)

Objected to and laid over.

ORDINANCES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ordinances to whom was referred the ordinance "To regulate the blowing of steam whistles in the city of Detroit," respectfully report it herewith with the amendments as directed on motion of Ald. Blodgett.

Respectfully submitted.

R. A. LIGGETT,
M. P. CHRISTIAN,
JAMES I. MITCHELL.

Accepted, the ordinance read the first and second time by its title, laid on the table and ordered printed in the proceedings.

The following is the ordinance:

AN ORDINANCE

To regulate the blowing of steam whistles in the City of Detroit, and to repeal an ordinance entitled "An ordinance to regulate the blowing of steam whistles in the City of Detroit, which went into effect on the 30th of June, 1873."

It is hereby ordained by the Common Council of the city of Detroit:

SECTION 1 No person shall blow or cause to be blown the steam whistle of any steamer while lying at any wharf in the city of Detroit, except when absolutely necessary as a signal of danger, or in the cases and under the circumstances prescribed by the laws and regulations of the United States requiring the use of such whistles. Provided, the provision of this section shall not be construed so as to relate to the use of steam whistles ordinarily operated in working the engine on any steamer.

SEC. 2 No person shall blow or cause to be blown a steam whistle of any locomotive within the limits of the city of Detroit for the purpose of signaling to make up trains or in any other cases than those which the laws of the State of Michigan prescribe and designate as requiring the use of such whistles.

SEC. 3 No person shall blow or cause to be blown within the limits of the city of Detroit the steam whistle of any stationary engine as a signal for commencing or suspending work or for any other purpose, except as specified in the fourth section of this ordinance.

SEC. 4 Nothing in this ordinance contained shall be construed as forbidding the use of steam whistles as alarm signals in cases of fire or collision or other imminent dangers, nor for the necessary signals by the steam engines of the Fire Department of the city.

SEC. 5 Any violation of, or failure to comply with the provisions of this ordinance shall be punished by a fine not to exceed one hundred dollars and costs, and in the imposition of any such fine and costs the court may make a further sentence that the offender be committed to the county jail or Detroit House of Correction until the payment thereof, for any period of time not exceeding ninety days.

SEC. 6 That an ordinance entitled "an ordinance to regulate the blowing of steam whistles in the city of Detroit," which went into effect on the 30th day of June, 1873, be and the same is hereby repealed.

SEC. 7. This ordinance shall take immediate effect.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Special Committee, who were appointed by your honorable body to ascertain the probable cost of the proposed change of the Council Chamber to that of the Recorder's Court room, report.

To remove the stairway, and partition off the hall, so as to have the necessary offices and jury-room, and make such other changes as may be deemed necessary. It will cost \$1,000, and for extra furniture it will cost \$200 in addition, making a total cost of \$1,200.

There is no doubt as to the necessity for the change. By increasing the number of Aldermen, the present chamber is deemed inadequate for the transaction of public business. It is also deemed essential that a room should be provided for the meeting of committees, and by making this change this can be accomplished.

The committee therefore recommend that the change be made, and the Board of Public Works be directed to make the necessary alterations.

Respectfully submitted,

SEYMOUR FINNEY,
ROBERT A. LIGGETT,
H. HEAMES.

ALEX. CHAPOTON,
President.
E. I. GARFIELD,
Controller.

Accepted, and Ald. Finney offered the following:

Resolved, That the Board of Public Works be directed to cause the alterations in the hall adjoining the Common Council Chamber to be made, as recommended by the Special Committee, preparatory to changing said chamber into the Recorder's Court room.

Laid on the table for one session.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Public Buildings, to whom, with the Controller, was referred the communication of Thos. McGraw in reference to rooms for the Superior Court, have had the subject under consideration, and beg leave to submit the following:

The city is held to Mr. C. H. Buhl for the rent of the present rooms at the rate of \$2,125 per annum until June 1st, 1877. Your committee received from Mr. Buhl and Mr. McGraw sealed proposals for the rent of rooms for the use of the Superior Court for the period of five years from June 1st, 1877, with the following result: Mr. C. H. Buhl's proposition, \$1,800 per annum; Mr. Thos. McGraw, free until June 1st, 1877, and \$1,000 per annum thereafter.

Subsequently Messrs. Ashley Pond and E. W. Meddagh submitted a petition from a large number of attorneys asking that the court be retained in its present location, and also a letter from the attorneys occupying the Buhl and Seitz blocks to Mr. Buhl, requesting that the rent be fixed at \$1,800 per annum, to which a favorable reply is given. These papers are submitted to your honorable body, and also a petition from other attorneys in favor of the removal to the Mechanics' block.

As the offer of Mr. McGraw is lower than Mr. Buhl's second proposal, your committee recommend that the Controller be directed to enter into a lease with Mr. Thos. McGraw for rooms for the Superior Court for the term and amount of rental offered.

Respectfully submitted,

JOHN B. ROULAND,
THOMAS JACKSON,
GEORGE DUNLAP.

Committee on Public Buildings.
E. I. GARFIELD,
Controller.

Accepted, and Ald. Roulard offered the following:

Resolved, That the Controller be and he is hereby directed to enter into a lease with Thos. McGraw for rooms in the Mechanics block for the Superior Court, upon the terms offered by him, to

wit: free until June 1, 1877, and a rental fee of \$1,000 per annum for five years thereafter.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Roulard, Schmitt, Shanahan, Wilks, and the President—21.

Nays—Ald. Christian, Dorr, Finney, Guthard, Heames, Kurtz, Owen, Schmitt, Shanahan and the President—10.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body without my approval that part of your proceedings of the 5th inst., which authorizes the Controller to rent a room in the fourth story of Mechanics' Hall, for the use of the Superior Court for the term of five years at the rental of \$1,000 per year, for the reason that the room now occupied by the Court, in the Seitz Block, is nearly twice as large as that in Mechanics' Block, being 45x45 feet and 24 feet high, and reached by only two flights of stairs, being on the third floor with three entrances to the building and located in the center of the lawyers' offices.

The ceiling being high, the room is capable of much better ventilation, it is easy of access to the general public, with wide halls and stairs: the clerk's office adjoining, in which the files and records are kept, is thoroughly fire-proof: the Bar Library is also in the same building, the United States Court is almost under the same roof, there being a passage way from the Seitz Block to the latter, and it will be but a few years at best, before the lease of the rooms in the City Hall, now used by the county, will expire and then if it is necessary to have new quarters, they can remove there, or if you have fully decided to make this change, by all means secure a room on either the first or second floor in some central location, so

that the public will not be asked to travel to the third or fourth floor of any building.

The old adage that three removals are equal to a fire will hold good in this case. I am therefore of the opinion that the change had better not be made, and more particularly so, as Mr. Buhl now offers to rent his hall including fuel, water, pay of janitor, etc., for \$800 a year, for the term of five years.

Respectfully yours,

ALEX. LEWIS,
Mayor.

Accepted, and the vote whereby the report and resolution were adopted was reconsidered by the following vote:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Guthard, Haller, Heames, Herrick, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks and the President—19.

Nays—Ald. Jackson—1.

The report and resolution were then passed notwithstanding the objections of the Mayor by the following vote:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Guthard, Heames, Herrick, Jackson, Kurtz, Liggett, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—18.

Nays—Ald. Haller, Mitchell—2.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I notice in the proceedings of the Common Council, at its last session, that the further discussion of the amendments to the City Charter was indefinitely postponed. No doubt, so far as many of the proposed amendments are concerned, it was a wise and judicious course to pursue; and yet, it seems to me that there are some changes that are actually necessary for the welfare of the city, for, as the charter now stands, no new streets or alleys can be legally opened, the courts having declared the present law unconstitutional, and unless the proper amendments are passed by the next Legislature, we shall have to wait two years, which might prove a serious detriment to the growth and prosperity of the city. Another change, which I have no doubt would prove a great benefit to the city, would be the appointment of a commission to distribute the public charity of the city.

For these and many other reasons that I might enumerate, I would suggest the appointment of a commission, consisting of the Finance Committee, the City Counselor, the City Attorney, the Controller and seven citizens (who shall be taxpayers), to report to the Council, for its approval, such changes or amendments to the charter as to them may seem expedient.

Respectfully yours,

ALEX. LEWIS,
Mayor.

Accepted and placed on file.

GENTLEMEN—I herewith transmit to your body assessment rolls No. 2,682 to 2,691, inclusive, to defray the expense of constructing, grading and repairing plank and stone sidewalks:

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of Approved Accounts of the 5th of December, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper fund, excepting vouchers No. 434 and 439.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes have examined the petition of Joseph Smith and others, property owners on Noble street, asking to be refunded the amount paid for opening Fifth street. We find that the petition hinges upon questions of law, and therefore ask its reference to the Judiciary Committee.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes have examined the petition of David Greig, claiming that lot 22, in the block between Fifteenth, Sixteenth, Pine streets and Michigan avenue, should not be assessed for a lateral sewer in the said block, as said petitioner already had a sewer. Your committee concur in this view, as also has the proper assessing officer. Mr. Greig has not been assessed, and therefore has no ground for complaint.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts to whom with the City Attorney was referred the petition of Henry Miller praying that compensation might be awarded him for damages suffered in the loss of his business and general inconvenience resulting from the tearing up the pavement in front of his premises on Michigan avenue, near Seventh street, would respectfully report that it is probable the petitioner suffered some inconvenience as did also his neighbors from the tearing up of the avenue in question and the fact that it was for a time rendered impassable but we do not find that the city is legally or equitably liable to owners of property

fronting on public streets for temporary inconvenience resulting through the operation of public improvements or for the temporary servitude resulting to adjacent property therefrom. As to the loss of business of which the petitioner complains such damages are too remote in the opinion of your committee to be estimated or consequent upon the facts complained of by the petitioner.

Your committee is informed that the pavement on Michigan avenue has been restored, and there exists now no cause for complaint.

We would, under the circumstances, recommend that the prayer of the petitioner be denied.

Respectfully submitted

SEYMOUR FINNEY,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom, with the City Attorney, was referred the several petitions of Bridget Welch, Mrs. Rindelle and John Zander, praying that they might be paid the value of certain articles of infected clothing and wearing apparel destroyed by order of the Board of Health, would respectfully report that there are no legal grounds upon which claims of this nature can be recovered against the city. The destruction of articles infected with contagion comes within the purview of the general police and sanitary regulations of the city. The destruction of such articles for the purpose of staying the spread of a contagious disease is a recognized public right, as well as a public benefit, in which there is no wrong committed and no remedy to be applied.

In so far as these petitioners are concerned the destruction of the articles mentioned was a special benefit to them and a necessary precaution taken to prevent the spread of the disease to other members of their families. In this they are certainly as much interested as the general public.

Your committee however recognize that the claims of the petitioners are not without some equities in so much as the destruction of the property mentioned left them destitute of necessary articles of clothing, and that they are without means to restore the things destroyed. The destruction was also done under a color of right obtained from the Board of Health, and acting under the provisions of an ordinance which contemplates payment in such cases. Your committee, therefore, while condemning the provision of the ordinance which would make that a public burden which is at most a private misfortune, would yet recommend the payment of those small claims as soon as it is made to appear that the articles destroyed were appraised by two disinterested persons and the value of property certified as the ordinance requires.

Respectfully submitted,

SEYMOUR FINNEY,

JACOB GUTHARD,

DANIEL SHANAHAN,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and adopted by the following vote:

Yeas—Ald. Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Jackson, Liggett, Mitchell, Owen, Schmitt, Shanahan, Wilks—16.

Nays—Ald. Blodgett, Kurtz, Rouland and the President—4.

REPORTS OF COMMITTEES.

JUDICIARY.

To the Honorable the Common Council:
GENTLEMEN—Your Committee on Judiciary, to whom was referred the petition of Joseph Smith,

Henry Collins and other property holders on Fifth street, between Marcy and Noble streets, praying that the several amounts of money paid by them in the matter of opening Fifth street, between the streets aforesaid, might be refunded, would respectfully report that we find said Fifth street to have been opened by proceedings instituted in the Recorder's Court, and confirmed on the 22d day of August, A. D. 1873. Since this time the street has been open to public use, and the benefits and damages assessed have been duly collected and paid over. The city, during the public occupation of said street, has expended money in improving the same, which improvement has inured to the special benefit of the petitioners. Your committee believe that the petitioners have no legal claim for the recovery of the money petitioned for, nor does their petition appear to have the merit of equity to sustain it.

In view of all the facts, and following the decision of the committee made in cases of a like nature, we would recommend that the prayer of the petitioners be denied.

Respectfully submitted.

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL.

Accepted and adopted.

SEWERS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Sewers, to whom was referred the petition of John Kelly to be exempted from paying an assessment on lot 4, block 57, Baker farm, for constructing a lateral sewer in the alley south of Michigan avenue between Sixth and Seventh streets, report:

As is alleged by the petitioner, his premises are drained into a public sewer, but notwithstanding this fact it is no valid reason that he should be exempt. The public sewer cost him no more than it did his neighbor, yet his neighbor's property being situated a greater distance from the street, must be deprived of improvements of this nature because owners of corner lots have been granted privileges that cannot without pecuniary loss be extended. The committee believe that being permitted to drain premises into a public sewer should neither be urged as a good reason for not extending lateral sewers or a sufficient cause for exemption. It is therefore recommended that the prayer of the petitioner be denied.

Respectfully submitted.

JACOB GUTHARD,
MICHAEL HALLER,
GEORGE DORM.

Laid on the table for one session.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—We have examined the petition of Mary Eichbauer asking to be refunded the amount of \$70 claimed to have been paid twice and we find the following state of facts: Mrs. Eichbauer sold lots 11 and 12 of the Kirby farm, subdivision on Russell street between Fremont and Farnsworth streets, to one Thomas Paine, receiving a small amount of money down and taking back a mortgage for \$7,000 for the purchase price. Before paying the tax said Paine being unable to pay for said property, turned it over to Mrs. Eichbauer who paid the tax on both the land and the mortgage. In law the reconveying of said property to Mrs. Eichbauer, the mortgagee amounted to a discharge of the mortgage and places Mrs. Eichbauer in the position of paying two taxes on the same property, and we are therefore of the opinion that she is entitled to be refunded said \$70 and ask the adoption of the annexed resolution.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be and is hereby directed to draw his warrant on the proper fund in favor of Mary Eichbauer for \$70 when she shall present the proper receipts for the payment of taxes as above, for the year 1876.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Lyggett, Mitchell, Owen,

Rouland, Schmitt, Shanahan, Wilks, and the President—21.

Ayes—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes to whom was referred the petition of Stephen Weiden, would respectfully report that we find that Mr. Weiden paid his city tax twice by mistake, and exhibited to your committee the duplicate receipts therefor, amounting to \$18 88. The law in such cases is plain and Mr. Weiden is entitled to relief. We, therefore, ask the adoption of the annexed resolution.

C. C. BLODGETT.
R. A. LIGGETT.
H. HEAMES.

Resolved, That the City Controller be and is hereby directed to draw his warrant on the proper fund in favor of Stephen Weiden for \$18 88.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—We have examined the petition of John Lemke, asking relief from the payment of personal city taxes on an assessed valuation of \$800. We find by examining the records of the Assessor's office that said assessment was made upon the written statement of Mr. Lemke himself. We therefore report adversely.

C. C. BLODGETT.
R. A. LIGGETT.
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your committee have examined the petition of the Detroit Chair Factory Company, claiming a reduction for paving on their property on Fourth street, between Michigan avenue and Porter street, by reason of the same being triangular in shape. We have examined the said property, and find that they paid said tax on lots 19, 18, 17, 16, 15 and 10 on the east side of said Fourth street. We do not think they are entitled to any relief upon said tax except upon the last of said lot, to wit, lot 10, and upon this we think one-quarter of the tax, or \$48 79, is sufficient. We ask the adoption of the annexed resolution.

C. C. BLODGETT.
R. A. LIGGETT.
H. HEAMES.

Resolved, That the Controller draw his warrant upon the proper fund in favor of the Detroit Chair Factory Company, Henry Smith, Treasurer, for \$48 79, when they shall present the proper receipt for paying Fourth street, between Michigan avenue and Porter street.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes to whom was referred the petition of Julian G. Dickinson setting forth that he is the owner of lot 11 of the subdivision of park lots 61 and 62, and that prior to his ownership the lot was sold for the taxes of 1866, 1867, 1868, 1869, 1870, and 1873, and further that the assessment for said taxes was excessive and illegal, and that the sales were not conducted in conformity to law, respectfully report as follows: We find from the books of the Assessor that the assessments were properly made, and also we find that the sales were conducted as required by law, and we therefore

recommend that the prayer of the petitioner be denied.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

ORDINANCES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ordinances and City Attorney, to whom was referred the communication of the Chief of Police relating to the numbering of houses, have considered the matter and report herewith, and recommend for adoption a new ordinance, and also an ordinance repealing the ordinance now in force.

Respectfully submitted,

R. A. LIGGETT,

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:
GENTLEMEN—An examination it has been ascertained that the outlet to the First street sewer is incapsulated by time and service for the purpose intended. That from a point sixty-five feet south of Front street to the river the timber with which the original outlet was constructed is so decayed that but the slightest pressure causes the same to give way, and obstruct the free passage of the contents of said sewer to the river. To repair and put in proper condition this outlet it is estimated that it will cost about \$1,000; and as the season is favorable, and the work can be done without interfering with the business of merchants in that vicinity, it is recommended that your honorable body authorize the necessary repairs to be made immediately, and the Board directed to advertise five days for proposals for doing the same.

Respectfully submitted,
NICOL MITCHELL,
Acting President.

Accepted, and Ald. Guthard offered the following:

FROM THE SAME.

To the Honorable the Common Council:
GENTLEMEN—Your Committee on Streets to whom was referred the petition of the Central Market, Cass Avenue and Third Street Railway Company, praying that permission may be granted said company to construct and operate a line of railway in Cass avenue between Ladyard street and the Holden Road, and the remonstrance of citizens against granting such permission, would respectfully report as follows:

We believe the extension of the road through the avenue named between the points indicated in the petition, would be a great public convenience and appears to meet the hearty approval of a large majority of the citizens residing and owning property on said avenue.

Your committee would therefore recommend that the said company be permitted to

construct and operate a line of railroad as played for on the following conditions, viz.: That said company shall forthwith execute and file with the City Clerk a release and waiver of all rights or privileges granted said company by ordinance to construct and operate a railway in any other streets or avenues of the city save those in which its tracks are now laid and operated, except Third street.

And your committee would further recommend that on the filing of the release and waiver mentioned the City Attorney be instructed to submit an ordinance to carry into effect the recommendation herein made.

Very respectfully,

A. I. McLEOD,

Accepted and placed on file.

FROM THE BOARD OF HEALTH.

To the Honorable the Common Council:

GENTLEMEN—At a meeting of the Board of Health of the 20th inst., the President of the Board, Dr. Carstens, submitted the following re-

port, relative to the prevalence and increase of small pox in the city, which was accepted and ordered referred to your honorable body, for such action as you may deem expedient.

Very respectfully,
CHAS. H. BORGMAN,
Secretary.

The following was submitted by President Carstens:

GENTLEMEN—I beg your indulgence but once more. This shall be my last effort. Our city has been comparatively healthy and free from epidemics, except a visitation of small-pox last spring. This disease appearing late in the season, we, by energetic action, soon had it under control. But the disease slumbered only a few weeks and broke out again in September with increasing violence. It has slowly but steadily spread, although principally confined to the north eastern part of the city. Immediate action is necessary. We alone are powerless. The Common Council must appropriate money and pass stringent enactments to stay the disease.

I have repeatedly appealed to the moral responsibility of this board and of the Common Council without avail. None respond to the suffering of mankind. Here is death at work, untold suffering endured, future happiness blighted, but none to raise a hand to prevent the spread of the scourge. As the miseries of the suffering people, the many vacant chairs, the scared faces of beautiful girls and women do not call forth a humane response, it occurred to me that calling attention to the financial aspect of the case might be of some use in arousing the attention of some of our tax-payers. People seem to be most sensitive when their attention is called to the dollars and cents.

From the first of February to the end of July there was paid by this city for rent of pest-houses, care of patients while there, janitor, etc. \$1,835.01; from September 2th to November 11th, \$431.35, or a total of \$2,266.36 for a period of nine months, when the disease was of a mild type, and in the most favorable season of the year.

At present the disease is confined to a part of the city, and it can be controlled at a small expense. The disease spreads most rapidly and is most violent generally in January, February and March. Now is the time to prevent its spread. By energetic measures and a small expenditure of money we can save the taxpayers a large sum. It will certainly cost the city \$12,000 to \$15,000 during the next six months if we do not stay its further progress.

I will recommend the following measures:

1. Vaccination. The Common Council should appropriate a sufficient sum (say \$200 or \$1,000) with which to pay for vaccination, burning of clothing, etc., and for the purchasing of disinfectants. The city physician (and, if necessary, also other physicians) should, under the direction of the President of the Board of Health, or some other authorized person, vaccinate all those exposed to the disease. For this they should receive a small compensation. Vaccination should only be performed with the genuine "cow-pox virus," as I have called your attention to heretofore. It should be made punishable to use any other kind of virus.

2. Wherever it is possible patients should be sent to the pest house.

3. When a case of small-pox is in a house, the people therein should be prevented from passing in and out, mingling with others, and so spread the disease. A policeman should be stationed before every such house if necessary. I think it necessary.

4. Articles of clothing, bedding, etc., exposed to small pox contagion should be burnt. The room should be thoroughly disinfected when the patient is well. The city physicians should do this by direction of the proper authority, for which they should receive an extra compensation.

In short, gentlemen, by vaccination, isolation and disinfection the further spread of the disease can easily be checked. Without these remedies hundreds of homes will be rendered desolate, and thousands of dollars will be spent in vain.

Referred to the Committee on Health.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 23d inst. and the same were approved on the 26th inst. Accepted and placed on file.

Also that Orin H. Butterfield, Constable elect of the Twelfth ward, and George W. Owen, Collector elect of the Fifth ward, filed their official bonds. Also that Jennie Jenks has filed an indemnity bond for trafficking in liquors.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes have considered the petition of Sister M. Stella, asking that the House of Providence on the northwest corner of Elizabeth and Antoine streets be relieved of the taxes of 1878. We find that said premises have been used by the Sisters as a charitable institution since February last and therefore come under the Exemption law. We ask the adoption of the annexed resolution.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the controller be and he is hereby directed to draw his warrant on the proper fund in favor of Sister M. Stella for \$39 38 when she shall present a tax receipt to that amount for the year 1878, on the premises on the northwest corner of Antoine and Elizabeth streets.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President pro tem.—20.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was recommended the report of the committee, relative to the refunding of taxes on lots 45, 46, 47, and 70, on the east side of Fourteenth street, between Marquette and Dalziel streets, belonging to St. Vincent's Church, report thereon as follows: We find that the church owns ten lots of fifty feet each, and that upon lots 49, 53, 55, 58 and 61, they have erected a school building, a house of worship, and a parsonage.

The law bearing upon this and similar cases will be found in the Compiled Laws, volume 1, page 361, and is as follows:

"All the houses of public worship, with the pews or slips and furniture therein; also the land on which such house of worship may stand so far as occupied by such house of worship, and for no other purposes, and rights of burial and tombs, while in use as repositories of the dead; and also any parsonage owned and occupied as such by any religious society incorporated under the laws of this State."

The assessors have given the law its most liberal construction and have exempted 230 feet from taxation, which is more than is now necessarily used for religious and educational purposes. We believe that the assessors were justified in making this very liberal exemption although we are aware that under a strict construction of the law not more than 200 feet would have been exempted, as it clearly states that in addition to house of public worship, the pews and furniture therein, the land on which such houses of worship may stand, so far as occupied by such houses of worship, and for no other purpose.

The five lots referred to in the petition are in no way used for religious purposes and your committee are of the opinion that they cannot be legally exempted from taxation, and, in fact, see no reason why they should be.

The former report of your committee favoring the return of the taxes was made under a misapprehension of the facts, and we now report, after a careful examination of the matter, against granting the prayer of the petitioner.

Respectfully submitted.

C. C. BLODGETT.
R. A. LIGGETT.
H. HEAMES.

Accepted and adopted.

RESOLUTIONS.

TENTH WARD.

By Ald. Rouland:

Resolved, That the Board of Public Works be and they are hereby directed to erect a lamp post on the east side of Leib street, midway between Jefferson avenue and Wight street.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—The undersigned to whom was referred the petition of A. D. Denny & Co., setting forth that in 1868 they were contractors for paving Michigan avenue in front of the triangular lot in rear of the Trumbull avenue police station at the intersection of Church street; that the assessment for said portion of said paving amounted to \$444; that for such paving they have never been paid, and that the property has since passed into the hands of the city, and asking that provision be made for the payment of said amount, would respectfully report that we find the statement in said petition contained to be correct, but that there is no legal relief for petitioners except to take the lot by virtue of a tax title arising out of the nonpayment of said tax; that the property in question is not worth the tax and interest thereon; but inasmuch as the city has had the benefit of said paving and the property belongs to the city, we report in favor of compromising with the contractors and allowing them half of their claim, or \$222, they releasing to the city all further claim. We ask the adoption of the annexed resolution.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be and is hereby directed to draw his warrant on the proper fund for \$222 in favor of A. D. Denny & Co. when they shall sign and present to him a release of all claims for paving taxes, for paving Michigan avenue in front of the triangular space at the intersection of Michigan avenue and Church street. Objected to and laid over.

JUDICIARY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom, with the City attorney, was referred the petition of Patrick Tregent, protesting against the provisions of a certain ordinance adopted by the Common Council September 10th, 1875, granting to D. M. Richardson and his assigns, the right to construct and maintain a steam tram or transit railway on or along Woodbridge street from Eighth to Eleventh streets to connect with the line of the Michigan Central Railway, would respectfully report that we find the intent of the ordinance to be to confer upon the grantee and his assigns, the

exclusive right to use a portion of a public street to facilitate the conduct of certain private business enterprises in which the grantee is engaged, that no public benefit appears to be subserved by the terms of the privileges granted, nor is any public use contemplated therein. We find further that the petitioner Tregent is the owner of a certain lot fronting on Woodbridge street, adjacent to the point where the tram or transit railway in question is now being operated and maintained, and that his property, in common with that of his neighbors, is injuriously affected thereby.

The questions which this state of facts presents are of a purely legal character, and may be summed up as follows:

The public title to Woodbridge street is of the same nature and extent as that held by the public in and to the streets and highways of the city generally, viz., an easement for the ordinary purposes of a street.

The right of the public is limited to the specific use, or which the street was opened, and for which the owner has been divested of a complete dominion over his own estate.

A street or highway can be made subject to no use which will exceed the limits of the right or easement already acquired by the public, or, if surrendered to any such use or purpose, such use must be a public use, and compensation must be made to property holders for the additional servitude created by such use.

The right to pre-empt or use a public street or highway to aid a mere private enterprise is not only illegal and an unwarrantable injury to property rights, but also a trespass upon the rights of the general public in such street or highway.

The intent of the ordinance referred to by the petitioner tending to these results and its adoption by the Common Council, was clearly in excess of its lawful authority.

Respectfully submitted,

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL,
WILLIAM C. MAYBURY,
City Attorney.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the communication of the City Treasurer, relating to the discrepancies existing between the tax sales books and his ledger balances for each year from 1844 to 1870, report:

The record of all sales of property for taxes for which the city is the purchaser is kept in a separate book, and the total amount of such sales for each year is carried to the general ledger and debited to the account designated as the City Bid Account for that year; and when any property is redeemed by the payment to the City Treasurer of the back taxes, with interest, the amount is credited on the ledger to the total city bid for that year and also cancelled on the sales book.

These accounts, running for a great many years, had not been compared until the present City Treasurer undertook it during the past year. He prepared a book and transferred thereto all the accounts remaining unpaid on each of the sales books from 1844 to 1870, and these unsettled balances, as shown by the carefully condensed account, do not correspond, as they should, with the balance as shown on the ledger. For thirteen years the ledger shows a total balance of \$263 41 in excess of the sales books and for thirteen years the sales books show a total balance of \$780 14 in excess of

the ledger, so that for the twenty-six years from 1844 to 1870 the difference between the excess of the books is only \$113 56. These differences could have occurred in three ways: First, the amount of the sales of each year, as shown by the ledger, may not have been the correct footings of the sales books. Second, when accounts were paid and credited on the ledger they may not at all times have been marked paid on the sales books. Third, the credits for the payments of each year may not always have been given to the proper account on the ledger.

In order to discover and correct these mistakes it will be necessary to make an examination of every entry upon the books from the beginning, and to do so would require the employment of extra help in the office and at an expense of not less than \$300, and when completed nothing would be gained to the city save the little satisfaction that may be derived from knowing upon whom to locate the responsibility of making the mistake. Your committee would not recommend that this be done, but instead that the Treasurer be authorized and directed to make the necessary entries upon the ledger (as shown by the statement here-to annexed), so that the books may agree. The Treasurer, Mr. Parkinson, is entitled to favorable mention in this report for the care and diligence that he has shown in conducting and arranging in a most perfect and systematic manner all unpaid tax accounts.

We submit and recommend for adoption the following resolution:

Resolved, That the City Treasurer be and is hereby authorized and directed to make the necessary debits and credits upon his ledger (as shown by the statement attached) as shall make the balances for each year agree with the amount of unpaid taxes for the same years, as shown by the sales-books.

Respectfully submitted,

R. A. LIGGETT,
WM. A. OWEN,
M. P. CHRISTIAN.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Ronland, Schmitt, Shanahan, Wilks, and the President—21.

Yeas—Ald. Blodgett, Christian, Dorr, Ewers, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Ronland, Schmitt, Shanahan, Wilks, and the President—20.

The business of the Council being completed, the President addressed the Council as follows:

GENTLEMEN—The time has come when the relations which I have sustained to you as your presiding officer are to be severed. To be worthy of the honor with which your suffrages crowned me, it has been my constant effort. For your expressions of regard and the many acts of favor I have received at your hands while striving to do my duty accept my unqualified gratitude. The eventful year just closed has been placed on the historic scroll of the past marking as it ever will a new epoch commenced in our national as well as local history. In reverting to the bygone year we entertain an honest conviction that its triumphs are the issue of conscientious legislation and that its discomfures are but shades which precede a more glorious day to our commercial and municipal prosperity. During the year we find that no member of our body has been summoned to the mysterious unknown, but that, as in the previous year, one has been called to the relations which earthly ordinances alone can make legal. Our sessions, although sometimes spirited, have, in the main, been marked by a candid and proper for the promotion of the interests committed to us by a confiding constituency of a large and growing metropolis. Grave questions have come before us, and some of them two sided, have been decided to the approbation of some and displeasure of others. In our diversity of opinion as to what constituted law and order we have succeeded to evince the fact that legislation alone can not regulate the moral and social standard of the people. Our city treasury on the 1st of January, 1870, had a cash balance on hand of \$198,393 38; on the 1st of January, 1871, the cash balance was \$179,787 57, which, increased by the tax levy uncollected of \$26,259 77, would make the handsome sum of \$415,997 64 indicating wise legislation and municipal guardianship. The

floating debt of the city is nominal, and its sinking fund is more than adequate for all probable emergencies, being in the aggregate more than \$285,000. The credit of the city was never better than at present, for its bonds could be easily negotiated at 7 per cent premium. That our successors may prove equally safe and faithful stewards of the trusts reposed in them we have reason to confidently expect. Under the supervision of an efficient Board of Public Works city improvements have been prosecuted and much has been accomplished. Over seven miles of streets have been paved, and fourteen miles of sewers have been built, and these at exceedingly low figures. Side, cross and intersection walks have been constructed and repaired, and all these without burdening the people to any perceptible extent. Extensive improvements not under our immediate care have been consummated by the several city boards. A High School building has been added to our heretofore list of elegant school structures, and a library building capable of containing the erudition of two centuries has nearly been completed. A settling basin, preparatory to the erection of new water works from which thirty generations to come are to drink, has been nearly, if not quite, constructed by the Water Board. A new fire engine-house has been erected in the Fifth Ward, and new engines have taken the place of old ones. The number of our vigilant policemen has been augmented, and the accommodations for the unfortunate trespassers of the law enlarged at the House of Correction. To provide for such and more improvements will be part of the duties of our successors. That their joy may

be more and recompense better than ours is my humble prayer. The work of a charter revision, inaugurated by a previous Council and prosecuted by this, we trust will be fraught with good. Successive legislation has engrafted many provisions on our present charter which need explanation or amendment. The system of sub-treasuries is one which, though perhaps not without apparent advantages, is liable to abuse and, in my opinion, should be supplanted by the more simple one of a common treasury. Our system of collecting personal taxes and special assessments should also be improved in many respects. The redistricting of the city into wards of a more equal population, making our representation more just, is a matter of important consideration, if our present system of ward representation is to be continued. In making these and other changes, too much care cannot be exercised; for our proud city cannot afford to suffer from hasty or unwise legislation. The aim should be to give the people a just and economical government. Gentlemen, in concluding my connection with you as your presiding officer and as a representative of an indulgent constituency for the past four years, let me wish you one and all, in public or in private life, the greatest measure of success and prosperity. May the strong attachments and personal friendships formed in this chamber continue to be a source of increasing gratification, and for years to come.

And the Council adjourned sine die.

CHAS. H. BORGMAN.

City Clerk.
